Cassimeres, Satinets, Union Cassimeres, Doeskins, Broadcloths, Jeans, &c., of Foreign and Domestic manufacture.

CLOAKS, CAPES AND RAGLANS.

It is probably unnecessary for us to call attention to this department of our store. We will, however, state that we have at this time the **largest Stock** of BEAVERS, TRICOTS, DOESKINS & BROADCLOTHS for Ladies' Garments *ever* owned in this city, (which fact we are ready to prove to the satisfaction of any person calling on us.) These Goods we have purchased by the Bale—for Cash—direct from the importers, and from Auctions. We shall sell them by the yard, or made into *any style* of Garment desired at lower prices than similar goods can be sold elsewhere.

Also, splendid **Ten-inch Crochet Fringe,** very heavy. Silks, Serges, Satins, Flannels, Cotton Flannels, &c., for linings. Buttons, Tassels, Binding, &c., suitable for all styles of Cloaks.

To this Stock we call very particular attention, as it has been bought very low, and we are determined to offer all who visit us the BEST GOODS in the market at the LOWEST POSSIBLE PRICES.

Having connection with all the largest manufacturing establishments in New York, together with home facilities, we enjoy superior advantages for supplying the very best goods at the lowest possible prices. The styles will be found to excel anything made in the New England States, and the workmanship far exceeds anything heretofore offered in this market, and is so acknowledged by all who patronize our establishment.

We also make to order garments of every description, at short notice, at a *small advance* on the prices of our ready-made clothing.

FORTUNATE EDITOR.—The Charleston Mercury states that William Walker, Jr., of the Columbia, (S. C.) Courant, has received a legacy from a relation in England, amounting to $525,000. He has started to New York to arrange for its transfer to his credit. While rejoicing with Walker, we cannot help reflecting that the chances are by so much fewer in favor of any other editor's receiving a legacy.

☞ In a brief, but very good notice of the late Dr. Dana of Newburyport, we notice two errors in names. He is said to have been the preceptor of *Morris* Charity School,—but it should be *Moor's* Charity School, Hanover. It is said "he was married first to Elizabeth, daughter of Capt. Welcombe, December 30, 1800." She was however, the daughter of Capt. *Coombs*, whose christian name we think was Wm.

☞ Charles Gould, of Norridgewock, who was tried and indicted for letting Merrill, the horse thief, out of jail, and who has been spending the summer in jail, pending the exceptions which were filed in his case, was sentenced on Thursday last, by Judge Tenny, who is now holding Court in Somerset Co., Me., to 1 year in the State Prison.

PRICES GREATLY REDUCED.

WHEELER & WILSON'S

Medal Family Sewing Machines.

A NEW STYLE MACHINE.

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Manufac'g Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are:

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which, hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured,, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufacturers in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi, Missouri and California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St. Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

We prefer the Wheeler & Wilson Sewing Machine for family use."—[N. Y. Tribune.

"Wheeler & Wilson's Sewing Machines are the favorites for families."—[N. Y. Times.

"The Wheeler & Wilson Machine has secured and justly maintains the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that honors American genius more than the Sewing Machine. No family ought to be without its benefits."—[Independent.

"A Sewing Machine is among the most useful and economical articles a housekeeper can purchase. In looking out for the best, see the machines of Wheeler & Wilson."—[Examiner.

"Wheeler & Wilson is the machine par excellence for family use, and we recommend it most emphatically."—[Advocate and Journal.

"Wheeler & Wilson's Sewing Machines combine everything that can be required in the manufacture of garments. Our friends abroad may be assured that to purchase one of them is a safe investment."—[Observer.

"Wheeler & Wilson is beyond all question THE machine for family use."—[Life Illustrated.

"There is but ONE Sewing Machine, and that is Wheeler & Wilson's."—[Judge Meigs, of the American Institute.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

The News.

THE SEYMOUR RECEPTION HOMICIDE. The case of Joseph Wilson, for stabbing Charles W. Banks on the day of the Seymour reception at Hartford, was submitted to the Grand Jury on Friday, who, after hearing substantially the same testimony that was presented before the Police Court, refused to find a true bill for either murder or manslaughter against him. The jury stood ten for and eight against bringing in a true bill, lacking two of the requisite number. Some of the Grand Jurors were themselves participants in the Seymour parade.—*New Haven Journal.*

☞ The Sunday car question has taken a new direction in Pittsburgh. Heretofore it has been a car question, pure and simple; it is now becoming mixed up with carriages, and no less than thirteen affidavits were made on Sunday, at the Mayor's office, in Pittsburg, against different citizens, charging them with a breach of the Sunday law, in causing their carriages to be driven through the streets. Among those complained of, the name of the Chief Justice of the State appears.

THE WHITE RATS OF THE BIBLE HOUSE.—A very remarkable physiological fact has been developed in the existence of numbers of perfectly white rats in the Bible House. They are quite numerous and are constantly caught by the tenants on the lower floors. Some of the older specimens are quite fat, and look as venerable and quiet as D. D.s.—*N. Y. Scalpel.*

☞ The New Haven Palladium says a party taking a supper at one of the suburban hotels a few evenings since, found the poultry rather tough. One genius, after exercising his ingenuity to no effect in trying to dissect a turkey, turned to the waiter and asked—"You have n't got such a thing as a pound of powder in the house, have you? for I think it will be the shortest way to blow this fellow up."

The opponents of popular sovereignty in this State did not wish to carry the State this year; and when they succeeded in the convention in defeating the nomination of the popular sovereignty candidate, and in foisting upon the party a candidate who had twice been badly beaten, they knew their wishes would be realized. Had popular sovereignty prevailed as distinctly in our candidate as in our resolutions, Democracy in Maine would not have been where it is to-day.—*Bath Times.*

☞ An odd leg attracted the attention of an engineer on a New York railroad track last week, and search being made, other portions of a human body were found scattered about. Upon putting them together they bore a faint resemblance to a man named Bowman, who, very much intoxicated, was seen walking upon the track, and it is supposed, overtaken by a train, was killed and distributed in this melancholy manner.

SALE OF A RAILROAD.—*Lexington, Ky., Oct. 5.*—The Covington & Lexington Railroad was sold at auction to-day for $2,125,000. The bid was made by W. H. Godge of Covington, for what is known as the Bowler Company. The sale of the road was made to satisfy a judgement by the second mortgage bond-holders.

AMATEUR HANGMEN. — On Sunday morning, Jack Feagan, with several friends, went into a drinking saloon in New York, took liquor without paying for it, and then in revenge broke everything frangible in the shop. The nice party next went into the street, seized a mild old gentleman, represented to him that they proposed to hang him, and actually placed a rope about his neck. While looking about for a convenient scaffold, the victim escaped, and the leading hangman was soon arrested.

BLOOMER.—The wife of one of our former citizens, who now resides in New York State, arrived in this city this morning, on a visit to her friends, wearing a Reform Dress—neat Bloomer style—the first that has been seen in our streets for several years. It looked very comfortable.—*Manchester Mirror.*

No doubt it *is* comfortable—and when it comes into fashion, as it may some day, *then* it may be beautiful also.

☞ Thursday forenoon, at Philadelphia, a protracted and exciting discussion was had at the meeting of the American Board of Commissioners for Foreign Missions, on motion of Dr. Cheever to memorialize Congress to suppress the slave trade.

☞ A correspondent of the New England Farmer testifies that he has increased his yield of potatoes from 50 to 100 per cent. by getting seed from a distance, and raised on entirely different soil.

☞ The present number of organized Congregational churches in Maine is 279; ordained ministers 190; number of church members 19,221, being a net increase over last year of 1499.

LEAVENWORTH, K. T., Oct. 5.—The returns upon the question of the adoption or rejection of the Wyandotte Constitution come in slowly. The vote, although light, is largely in favor of the Constitution.

☞ A clerk in a retail dry goods store in Paris drew the largest prize, $20,000, in the Orphans' Lottery there lately.

Some New York physicians say that sweet cream is better than cod-liver oil for consumptive patients.—*Exchange.*

And a trifle more palatable also, to our taste.

NEW YORK, Oct. 6.—Charles M. Leupp, leather dealer, and director of the Mechanics' bank, shot himself this morning, at his residence.

ALL THE GOOD QUALITIES

—OF A—

RANGE AND STOVE.

The Subscriber invites the attention of the public to the BAY STATE RANGE, a new cooking apparatus of great capacity, having

TWO LARGE OVENS

AND

SIX BOILING PLACES.

The Ovens will bake SIXTEEN LARGE LOAVES OF BREAD AT ONE TIME—and are superior to any Stove Oven for Roasting Meats.

A Water Back can be added to the Range, with which a barrel of water can be kept boiling without any increase of fuel.

Wood or Coal may be used for fuel, the castings being of

DOUBLE THICKNESS,

will resist the action of a cool fire and the abuse of servants.

These Ranges have been in use in this city during the past year, and been found perfect in operation.

THE RANGE IS PERFECT IN ITSELF, and can be set in a chimney or out in the room as is most convenient.

It will warm the coldest kitchen in the city, and an extra room if desired.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENCY VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure.* My *fac simile* signature is upon every bottle.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forests, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck BURRILL & HUNTING, SOLE PROPRIETORS,

No. 6 Tremont Street,

(Two doors south of Court st.,) BOSTON.

Will be found at all Apothecaries and Family Stores in the country. o15 1y

JUST RECEIVED

A LARGE LOT OF

GOLD AND JET BRACELETS.

by *A. L. BENNETT,* 7 *Congress St.*

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful,* and if used by the young, two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JERKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly dimmed for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest, well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—affecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated, is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and refurnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House,* and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying that is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jl dly

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!

I. P. Libbey, Watch and Clock Maker,
—WITH—
A. L. BENNETT, No. 7 Congress St.
Mr. L. would inform his friends and citizens generally, he has returned to Portsmouth and will attend exclusively to WATCH AND CLOCK REPAIRING as above, and by close attention to business, hopes to merit a share of the public patronage. All work warranted.
CLOCKS.—Those having Clocks at their residences which are inconvenient to remove, I will repair at the house without extra charge. A good assortment of French and American Clocks constantly on hand at low prices.
AMERICAN WATCHES.—Particular attention given to getting up nice AMERICAN WATCHES of any pattern, with the purchaser's name on dial and movement, if desired. Having had five years experience in their manufacture, I can cheerfully recommend them as reliable timekeepers.

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Acnce bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly cspised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall restore the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need only assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent persons, have borne testimony to their virtues, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER's, and take no other. The sick wan the best aid there is for them, and they should have it.
All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized world. 6m—je14

Portsmouth, N. H.

SATURDAY, OCT. 3, 1859.

☞ Maine is somewhat ahead of other States, in a *practical* liquor law. For example, in the Portland Municipal Court, on Wednesday,—we read:

The liquors and vessels recently seized at the store occupied by James McLaughlin, were forfeited to the city, no one appearing to claim the same.

Other States would do well to imitate her new seizure clause, and also to adopt the Massachusetts code of penalties, $10 fine, and 30 to 90 days in the House of Correction, for first offences,—so that a Justice of the Peace could take care of nine-tenths of the cases, and those commonly the worst.

MAINE ELECTION.—The Auguste Age publishes complete returns of the votes for Governor at the recent election, the footings of which are as follows:—

Morrill, Rep.	56,318
Smith, Dem.	44,348
Morrill's majority	11,970

☞ A suttee recently took place at Koonghur, near Hans, in India. The villagers resisted the widow's desire to burn, but her curse availed to turn them, and they eventually made the pile, and the poor creature perished. Those most actively engaged have been sentenced to ten years' imprisonment, nineteen others to five years, and another to two years, and a fine of 500 rupees has been laid on the village. The thanodar and the whole of the police have been dismissed, by order of the Lieutenant Governor, for not having found out and prevented the crime. Koonghur is not likely to indulge in another suttee in a hurry.

☞ The mortality in an army by actual fighting is very small in comparison with the total losses. Accordingly, even in an army in constant war, ten men will die by disease where one falls by the sword. This fact was well illustrated in the Crimean campaign. The English furnished 94,000 men, and in that brief contest more than one-third of the army, or 33,643, died or were disabled; and yet but 2658 were actually killed in battle, and but 1861 others died of their wounds. More than 16,000 died of disease, chiefly from typhus fever, and 13,000 were discharged on account of sickness. For every one that entered the hospital from wounds, twelve were carried there from sickness in the camp.

☞ Joseph Petit, a hard working warehouse man of New Orleans, was entrusted with $705 to deposit in a bank. He took a drink on the way, a second and a third.—While intoxicated he lost $400 gambling. His widowed mother took the remainder, sought his employers and their forgiveness for her son. He, meanwhile, was in prison; but it was intended to release him after an admonition. Remorse and shame, however, were too much for him. The frenzied man butted his head against the walls of his cell with such violence that his skull was fractured, and he was found dead by the jailor.

☞ The Brandon, Vt., Advocate learns that Mr. Locke, of that town, was robbed in Albany a few days ago. He had $3000 in one of the Rochester banks, which he drew out and went to Troy, intending to place it in one of the banks there. Failing to make satisfactory arrangements, he took the boat for Albany. On his arrival he found a boat from the West unloading cattle at the wharf. He stopped to look about him among the cattle, when a gentleman remarked to him, "Sir, your coat is cut." On looking, he found there was an incision down the breast of his coat, and that his money was gone.

ACCIDENT TO MR. COE, THE BALLOONIST.—Mr. Coe, whose rapid descent from the upper atmosphere has already been described, seems to be an unlucky man. He clambered down from a tree seventy feet high without injury, when he alighted with his balloon, but left the latter in the forest. On going back to recover it, he climbed the same tree, and fell therefrom shortly after, bruising himself badly, dislocating his wrist, and burying himself to the middle in the miry swamp.

☞ On some of the market gardens, near London, as many as five crops are raised in one year, the principal object being to raise the finest specimens for high prices. Under such a system of culture, slugs and other insects are very formidable foes, and to destroy them, toads have been found so useful, as to be purchased at high prices. As much as a dollar and a half a dozen is given for full grown lively toads, which are generally imported from France.

☞ The Practical Machinist, a new weekly paper, is just received from T. H. Leavitt & Co., publishers, New York, at $1 per annum. It is neatly printed, and filled with matter, useful to those interested in machinery, whether makers, users, or contrivers.

HONOR TO WHOM HONOR.—David Gillis, Esq., an eminent manufacturer of Manchester, has just removed to Nashua, where he takes charge of the "Harbor Cotton Mills." The Manchester American says of him:—"He came to Manchester in 1842, at a time when the growth of the city had but recently commenced. For fourteen years he had sole charge of the Amoskeag New Mills, the largest manufacturing company in the State. Mr. Gillis was preeminently qualified for the responsibilities of this position, and left it with a reputation for capacity, energy and discretion, not surpassed by any manufacturer in New England. In other aspects, Mr. Gillis will be long remembered as the benefactor of Manchester. His influence was always wielded in favor of morality, temperance and good order.—Many a young man can bear witness to his kindly aid and encouragement; while on the other hand, so far as his supervision extended, the idle, vicious and reckless were not permitted to infest and corrupt the community."

AN AGED MAN BEATEN TO DEATH BY A LUNATIC.—Shortly before 12 o'clock on Wednesday morning, John McGee, a man 82 years of age, an inmate of the workhouse on Blackwell's Island, N. Y., was beaten to death by a room-mate named Daniel Driscoll, a drunken vagrant, who turns out to be a lunatic. It appears from the evidence of two other men who occupied the same cell, that Driscoll got out of bed shortly after 12 o'clock, and, without saying a word, knocked McGee down, and while he was upon the floor, dragged him to the other side of the cell, when he seized a stool and with it beat the old man over the head until he was insensible. He then seized the cell bucket, and after pouring its contents over the prostrate man, beat him with the bucket until a dozen or more wounds were inflicted on his head. He then stopped a moment and charged McGee with having robbed him of several hundred dollars; he then renewed the assault by breaking the bucket over the old man's head, after which he tried to escape out of the cell, but was stopped by the keepers. The other inmates of the cell, though frightened nearly out of their senses, escaped uninjured. The physician of the work house was called to attend McGee, but to no purpose, as death soon ensued.

Henry Black of Newport, Pa., who undertook to sever the head of a hen, was attacked by a rooster, which spurred him on the hand into an artery. About two weeks after the accident, as the Post tells the story, he was attacked with intense pain, a sickening sensation of the heart, and his sufferings became insupportable. At this date a remarkable occurance took place. He drew his entire frame together, as through to gain strength for an act, and his voice broke forth like the crowing of a rooster.—This was repeated from time to time, and such was the similarity of voices, that outside listeners asserted their belief that it was a rooster. After four days of indescribable suffering he died, and crowed no more.

Rather a tough story.

THE BAKER'S DOZEN: THIRTEEN.—This was originally called a devil's dozen, and was the number of witches supposed to sit down at table together in their great meetings, or sabbaths. The baker, who was a very unpopular character in former times, seems to have been substituted on this account for the devil. In Cleaveland's Poems, 1561, we find the line—

"Hercules' labors were a baker's dozen."

We quote this from the additions to Nares' Glossary; hence the superstition relating to the number thirteen at table.—*True Flag.*

PRIZE FIGHT AT ALBINO.—*Buffalo, Oct.* 6.—The prize fight between Australia Kelly and Ed. Price came off this afternoon at Point Albino, and was won by the latter.

Kelly appeared the more powerful of the two, while Price was lighter and more active. The fight lasted 27 1-2 minutes.

The whole police force of Buffalo was stationed at the landing, to arrest the principals on their return, but we hear of no arrests being made.

The fight was witnessed by about 700 persons. Kelly's physicians report his injuries to be of a dangerous character.

☞ In Quebec, a few days since, a man was sentenced to pay a fine of £10 or imprisonment for 30 days, for having iron knuckles concealed upon his person.

☞ At Cold Spring, N. Y., recently, a boy six years old, was induced by a keeper of a drinking saloon, to drink some brandy, by telling him it was cider. The boy drank so much that he died the same night in spasms.

☞ The amount placed in the Washington Monument contribution box at the post office in Alexandria, Va., during the past month, was $2 24. The amount contributed in August was $3 37. Total, $5 61.

☞ A true woman, says the N. Y. Post, like a locomotive, draws a train after her, scatters the sparks and transports the mails.

NEW ORLEANS, Oct. 6.—The returns of the Mississippi election show Democratic gains.

The Louisiana Vigilant Committee still continue their operations.

A large rope factory here was burned today. Loss $100,000; insured $70,000.

SUNSET ON OAK HILL.

BY GEORGE BANCROFT GRIFFITH.

Gently now the evening breeze
Murmurs o'er each flowery bed,
Laden with the rich perfume,
From the "garden of the dead."
Each flow'ret round the chiseled tomb
Lifts its lovely, fragile head,
And sweetly adds its scented breath,
So soon to be forever fled.
Softly through the falling foliage,
Glistens brightly,—setting Sol,—
From his golden fount of glory,
Rays of splendor over all
These fair scenes, he spreadeth now;
And new hopes my sad heart fill,
As I gaze with upturned brow,
In the twilight on Oak Hill.

Through the clear, pure, azure vault,
Visioned I can seem to see,
Wrapt in robes of purest raiment,
Angels smiling down on me;
Departed friends, so well beloved,
Pointing, each with wreathed finger,
Circled round with rainbow beauties,
Growing brighter as they linger,
Pointing upward to another
Glorious figure bathed in light,
Who slowly turning in her flight,
Sings a rhapsody divine, [tures
Then wheeling round, her heavenly fea-
Fall upon my dreamy sight.
Lovely vision, sister mine,
Free from earthly care or ill,
Though thine is an early grave,
Yet it was our Maker's will;
And we therefore humbly laid thee
'Neath the verdure of Oak Hill.

The wreath of fragrant, budding blossoms,
Faded lies upon the sod,
But the soul e'er growing brighter,
Winged its glorious flight to God.
Father, sister, brothers, all
Sleeping 'neath each grassy mound,
I leave them with the sweet assurance
They eternal rest have found.
The balmy winds have passed away,
And with the lingering rays of day,
In peace I quit Oak Hill.

* Oak Hill is a beautiful Cemetery, situated near the head of State street, Newburyport, Mass.

☞ The editor of an Alabama paper, leaving his post for a brief absence, informs his readers that he leaves his wife in charge. He says:

"She is fearless in her advocacy of the doctrine of State's Rights Democracy. She is strongly in favor of re-opening the African slave trade, if upon no other grounds, so that we may be able to buy a few. Taking everything into consideration, we consider her 'sound on the goose.'"

GEORGIA ELECTION. — *Augusta, Ga., Oct.* 4.—The Democrats have conceded the 3d Congressional district to the Opposition. The other districts are believed to have been carried by the Democrats, the 7th and 8th by a close vote.

Augusta, Oct. 6.—James, Dem., is elected to Congress in the 8th district by a majority ranging from 250 to 350. In the 7th district, Hill, Opp., is elected by 250 majority. Governor Brown's majority is fully 15,000. The Democrats are successful in all except the 3d and 7th Congressional districts.

ONE OF THE JUDGES.—Among the California items by the last arrival is the announcement of a duel between Senator Broderick and Judge Terry. The Judge challenged the Senator. This is the same Judge who declared the "Sunday law" unconstitutional, and he is said to be mortally wounded. The duel don't seem to agree with his constitution.

THE TOBACCO TRADE.—Whether chewing, smoking, or snuffing are destined to become universal accomplishments or not, it is certain that the tobacco trade is immense, and rapidly increasing. Two hundred years ago, the "filthy weed" was the production of an insignificant island on the continent. Now it is the necessity, the luxury, the tyrant, and the chief destroyer of nearly all the nations of the earth.—*Life Illustrated.*

☞ A house belonging to John Spear was burnt in Dorchester, Mass., (Neponset Village,) on Thursday evening, and two children were burnt to death, viz., a boy of 7 years and a girl of 2 years, children of Wm. Harris, a tenant.

It is with feelings not akin to pride that we reflect that the democracy of the sovereign state of Maine will be represented at Charleston, in part, by a person so insensible to propriety, so devoid of honor and so false to democratic usage as to go into a Convention of which *he was not a member*, and actually vote to exclude those who had been elected to seats by a caucus of the people.—*Bath Times.*

☞ The Allen pear tree, in Salem, 219 years old, has produced five bushels of its favorite orange pears, the present season.

BALTIMORE, Oct. 6.—A town meeting to sustain the Mayor in his opposition to the reform, was held this afternoon in Monument square. The gathering was quite small, and was regarded as a failure in point of numbers. The resolutions and speeches were moderate in tone. There was no disorder.

ST. LOUIS, Oct. 6.—The planing mill of Higginbotham & Co., Leavenworth, Kansas, was destroyed by fire on Sunday. Loss $20,000; insured $17,000.

NEW YORK, Oct. 6.—Barque Zephyr arrived here to-day with the first cargo of Malaga fruit of the season, which will be sold at auction to-morrow.

Patent Indelible Pencil,
FOR MARKING CLOTHING.
Patented May 31, 1859.
This article has the following claims to public attention: It can be used with greater ease in writing upon all kinds of cloth; will not dry up like ink; will sharpen well without breaking, in being used as a Pencil; one box of pencils will mark THREE THOUSAND articles.
Many persons have found it difficult to procure an article that will be permanent—they will find this all they can desire. It does not cost one-third as much as ink.
The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of House keepers. This pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked, and it will leave an indelible mark thereupon.—[Scientific American, June 11, 1859.

Special Notices.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,
Dr. Wistar's Balsam of Wild Cherry.
Says a well known Editor:—"This is truly a Balsam and a blessing to invalids. It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."
CASSVILLE, GA., Feb. 26, 1858
Messrs. SETH W. FOWLE & CO., Boston, Mass.
Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of DR. WISTAR'S Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.
For Coughs and Colds in children I *know* it to be an excellent medium.
Respectfully yours,
JOHN H. RICE.

Dropsies.
There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Bilious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.
Sold by druggists and dealers generally, everywhere.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.
SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.
The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 30th of May, twenty-one days after she commenced its use,
SHE WAS SOUND.
Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.
Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

PEOPLE'S LYCEUM FOR 1859–'60.

Tickets for the course of Ten Evenings, $1. Evening Tickets, 25 cents.

Rev. T. STARR KING, Tuesday, Oct. 11. Lecture on 'Personal Power and its Voices.'

☞ B. J. Lang, the talented and popular Pianist, of Boston, organist of the Handel and Haydn Society, is engaged to perform at the opening of the Lyceum.

Rev. J. C. FLETCHER, Tuesday, Oct. 18. Lecture on the "Land of Tell," illustrated with appropriate music.

Hon. HAMPDEN CUTTS, Tuesday, Oct. 25. Readings from Shakespeare and others.

GILMORE'S SERENADE BAND will give one of their splendid Concerts.

Dr. WINDSHIP will also lecture and illustrate "Physical Education."

Rev. J. G. Adams will lecture.

Albert Laighton will read a new Poem.

And there will be three other lectures or concerts, (ten in all) of an equally high order with those named.

Distinguished lecturers who may visit Boston or other cities during the winter, will be engaged to occupy evenings not otherwise filled; and no effort will be spared to provide the best entertainments circumstances will admit of.

Good Music will be supplied every evening—the character and expense of which must necessarily depend in some measure on the patronage extended.

JOSEPH M. EDMONDS,
FRANK W. MILLER.

☞ The Original New Orleans and Metropolitan Burlesque Opera Troupe, consisting of four star delineators of Ethiopian characters, and a Brass Band of ten talented musicians, will give two concerts at the Temple, on Wednesday and Thursday evenings, Oct. 12th and 13th. It will be remembered that this Company have been here several times, and have always given great satisfaction. The Brass Band will play in front of the Hall each evening.

☞ Miss Mary Bickford, about 19 years of age, daughter of Augustus W. Bickford of Stratham, while engaged in the card room of the Exeter Factory, caught her right hand in the gearing, which makes 300 revolutions a minute, and her hand was terribly lacerated.

MIDNIGHT DEPREDATIONS.—The people of Stratham have of late been greatly annoyed by nocturnal visitors, who go about robbing houses, barns, henroosts, &c. They probably make their visits in a wagon, as fresh wheel tracks were observed the morning after their visitations.

THE "SEXTANT'S" REPLY TEW "GASPER.'

O Gasper! your 'peal is heard, but not yit
Acted on, for reasons plain as nozes on foax fases.
Don't you think i no which side my bred is butterd?
Spose i drop the winder & let in "pewer Are,"
A mouful apiece or so, or let the bad Are out,
(Witch is the same thing in Duch or Inglish.)
Whoad sta threw sarmon time in wether cold as zero,
Or even in a windy day in Summer?
The foax would leave the metinhouse,
Children, men & wimmin, specially the latter.
Tha dont want "pewer Are," no such thing,
Dont i no thats tended metinhouse
This 40 year & over, most all my life?
Wy, tother Sunda, when the fires was blazin
In the stoves as hot as peper, ize told
Tew *shet the dore* that wasnt open ½ an inch,
& dont i no that when the parson looks
That wa, he menes the same & more tew?
& tother da, ize told to putty up
That winder, cause the wind blue in.
Bad bretha is bad cuuf but not so bad
As cold, so people thinks & so do i.
Metinhouses is grate placis for ketchin colds,
& takin konsumpshuns and such like ales.
Taint nothin tew *me*, i tends for the hull
Kongregashun, & not for 1 nor 2 nor 3.
Ef *tha* want the winder up or down or dore open,
Wy dont tha say so and tha shall have it,
Awl the dores and awl the winders & *holes cut tew.*
Wy dont you talk tew *them* & not tew me,
Mebby tha dont no, & mebby i dont no
Wat tha want & wats good for 'em.
Mi bizness is to give them wat tha *tell me.*
The preacher tells them how to act at meetins,
& ef you no more nor *him* wy dont you *preach.*
Now mebby you is rite, & i are rong:
No matter, i shall dew as i are told.
Ive bin tew school tew long tew disobey

THE SEXTANT.

*Our readers will remember the "Appeal to the Sextant," by A Gasper, published in the Chronicle several months since. They will no doubt be glad to see the reply. Rare poetic genius characterizes both the appeal and answer; but there is much more *truth* than poetry in either.

LATE FROM UTAH.—Matters were as quiet as usual in the valley. Murders of the most atrocious character had become so frequent as to hardly cause any discussion. Out of some twenty that had taken place in the vicinity of Salt Lake City within the last six weeks, not a single person has been arrested and committed. The crops throughout the Territory promise abundance. The Saints are exhorted by the "Twelve" to lay by one-quarter of the product of the season to meet the emergency of the expected famine. The U. S. Judicial Court adjourned on the 27th of August, without accomplishing anything tradows the punishment of the numerous murders and outrages.

☞ Daniel Barry, mate of ship Mary Hammond of Boston, was assaulted, and dangerously if not fatally wounded, by three drunken ruffians on the levee at New Orleans, on the 28th ult. He had only been on board the Mary Hammond a day or two, having arrived lately as mate of the ship Henrietta Marcy of Boston. One of the men has been arrested.

RAILROAD LEASE.—It is reported that the Boston & Maine Railroad have leased the Georgetown for a hundred years. They have probably done it in connection with the Eastern; and if so it will prove more profitable to the roads than the people.—*Newburyport Herald.*

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

CONCORD & PORTSMOUTH RAILROAD.

The Directors submit their Annual Report as follows, commencing with the first vote passed by the Board.

One of the last acts of the Board which immediately preceded the present, was the passage of the following vote, viz.:

"That the Treasurer be authorized to pay to Messrs. Dow and Hill one thousand dollars, to be applied by them towards payment of the expenses of the Committee heretofore appointed by the Bondholders, consisting of Charles L. Woodbury and others."

As we did not think that the Corporation could be liable for a claim of this kind, we immediately passed a vote to suspend said vote and stop the payment of the money till further action of the Board. No such claim has been presented to this date, and of course no further action had in relation to the matter.

At the commencement of the year there were many unsettled claims against the Corporation, the largest of which was made by the owners of the Iron between Epping and Raymond. This claim has been compromised according to the advice of some of the largest stockholders, and paid, with the exception of a small portion for which it is believed that the Corporation is not liable. The sum paid on this account is $13,262,58.

The sum of $2,893,13 has been paid for land damages, thus discharging a debt which has long existed, and concluding all claims that will probably be made on this account.

The Receipts and Expenditures of the year have been as follows:

RECEIPTS.

From late Treasurer	$8,102 49
Lessees of Road	15,500 00
Assessment on Stock	45 00
Materials sold	2,357 85
	$26,005 34

EXPENDITURES.

Paid for sleepers bought prior to lease	$121 30
Balance due for freight cars bought prior to 1858	1,712 90
Sundry persons for land damages	2,893 13
Discount on rent rec'd in advance, &c.	195 23
Damages and injury to person prior to October, 1858	797 51
Law expenses, printing, &c. do.	312 41
Expenses Candia Branch do.	198 52
Iron between Epping & Raymond	13,262 58
State tax 1858, assessed prior to lease	946 45
Expenses of organization	493 05
	$20,433 08
Bills receivable	142 00
Cash on hand	5,430 26
	5,572 26
	$26,005 34

On the first instant a Dividend of two and a quarter dollars per share was declared on 2289 Shares, the number of shares issued, leaving a balance of cash $280 01.

The lessees of the Road are obliged by the contract to expend the sum of $2500 per annum in permanent repairs in addition to the rent. They have expended to the 31st August last, the sum of $6,231 94, according to the statement furnished to us.

By vote of the Stockholders, the Capital Stock was fixed at $250,000, represented by 2500 Shares. The number of Shares issued is 2289, which at par gives $228,900, leaving 211 shares on hand.

The Directors recommend the cancelling of 200 shares, and fixing the Capital Stock at $230,000, leaving eleven shares on hand.

There are no claims to our knowledge and belief now existing against the Corporation which can prevent the future payment of regular semi-annual dividends of three per cent. during the continuance of the lease.

ALFRED W. HAVEN,
for the Directors.

PORTSMOUTH, N. H. Oct. 6, 1859.

From the N. H. Gazette.

A NEW ARTICLE OF FREIGHT.—Years ago, when all the Portsmouth ships returned to this port in the fall, it was the custom for each of them to go south with a cargo of hay and potatoes. In later years we have had the hay, but no ships to carry it away, and the potatoes were too much subject to the rot to render them a safe venture. The new ship Georgiana, just launched by Messrs. Marcy & Petigrew, is taking on board, in addition to about 50 tons of hay, a cargo of 500 tons of Cape Ann granite in small blocks, which are to be used in paving the streets of New Orleans. The city of New Orleans has contracted for 100,000 tons.

The Georgiana is supplied with Cunningham's Patent reefing gear on all three topsails. We witnessed a very successful trial of the mizzen topsail in the gale of Thursday afternoon, when the sail was close-reefed several times in succession, less than half a minute of time being required for each operation, the sail being kept "full" all the time.

☞ Pickpockets were busy at the State Fair in Dover. We have heard of several cases of loss by these light-fingered gentry—in one case of a gold watch and chain. Mr. Wm. Lane, of Exeter, well known to our citizens as a dealer in sheep skins, while in the cars from Dover, had his pocket picked of a wallet containing $300.

BACKED OUT AGAIN.—Our valiant brother of the Patriot has again fled the field, covered all over with laurels and glory. We had hoped after he was induced to renew the contest that we should be able to hold him to the scratch until he should meet the issue and reconcile the doctrine to which he stands committed, of the inherent right of the people of the Territories to establish or abolish slavery "in their own way and *time*," with the Constitution and the Dred Scott decision, the repeal of the Missouri Compromise, the necessary and undisputed power of Congress over the Territories, and the Cincinnati platform; but it was "no go." From the commencement of the (by us) unsought controversy, he has dwelt upon side issues and assailed us with a vast amount of epithets, vituperation and abuse, but has steadily avoided the main question—not daring to meet it. His discretion here is certainly to be commended. If he had manifested half as much prudence in beginning the discussion, there would have been no controversy between us, and he would not now occupy the position on the record of a supporter of the absurd and indefensible dogma of inherent and uncontrollable squatter sovereignty.

Dr. C. P. Bronson's New Cures

—FOR—

Consumption, Liver Complaints, Dyspepsia, and all other Chronic Diseases arising from excessive, General Debility, or Nervous Prostration.

These new and successful preparations of Food for the Blood (based upon its analysis in HEALTH, which gives the true standard, and in different DISEASES, when we ascertain the deficiencies in each case and then supply them with the proper materials for making pure and healthy Blood,) are among the most important discoveries of the age. They are destined to produce a revolution in the treatment and cure of CHRONIC DISEASES. Having a perfect scientific foundation, they are far removed from the sphere of all Nostrums and Patent Medicines. Physicians of all schools are using these PREPARATIONS (not *Medicines*) with the most satisfactory results. They are taken by drops, not spoonfuls.

THEIR RANGE OF CURE:

CONSUMPTION, THROAT DISEASES, BRONCHITIS, COUGHS, COLDS, DYSPEPSIA, LIVER COMPLAINTS, HEADACHES, DEPRESSION OF SPIRITS, HEART, NEURALGIA, LOSS OF APPETITE, INABILITY TO SLEEP, DEPRESSION OF SPIRITS, IRREGULARITIES, and MALE AND FEMALE WEAKNESS, &c. In all cases of Chronic Complaints peculiar to FEMALES, these Preparations will be found invaluable.

THEIR PARTICULAR SPHERE.

It is not claimed that they will cure all diseases; but in those specified above, (as thousands can testify,) they are the most efficacious of any now known.

Be particular, in ordering, to mention which of the three Preparations are required. If for Consumption, &c., the first and third alternately are best; if for Liver Complaints, &c, the 2d; or Dyspepsia, (when inveterate) the 2d and 3d in alternation, are more successful. In moderate cases, *one* will suffice.

There are three preparations, one for Consumption in all its various forms; one for Liver Complaints and their attendants; (to which particular attention is called,) and one for Dyspepsia. Out of nearly two thousand strongly marked cases there have not been 20 failures.

From numerous testimonials we select the following:

A VERY INTERESTING CASE.

Mr. D. L. ELDRS, (of this city,) is well known as one of the most hopeless cases of Consumption. Messrs. Horace Greeley and W. C. Bryant, (of the *Tribune* and *Post*,) are familiar with the following facts and circumstances:

Mr. ELDRS was actively engaged in the last Presidential campaign, and his intense labors, day and night, broke down his health, which had not been good for many years; this was followed by a severe cough and bleeding from the lungs, which continued till December, when he commenced using one of these Preparations.—For the previous two months he bled every day, sometimes quite profusely, and his cough was terrible. In a month's time he was able to be about through the city during all weathers, and in less than two months after beginning to use the remedy, he was engaged in canvassing the city, and was on his feet nearly all the time from 9 o'clock in the morning till 4 in the afternoon, conversing with hundreds of persons, and transacting a large amount of business. He is now as hearty a looking man as one in a thousand. His present residence is at 562 Hudson-street, New York.

Dr. Bronson can be consulted either by letter, addressed to Box 3268, P. O., or at the office of the General Agents from 9 to 12.

These Preparations can be obtained through any respectable Druggist in the United States or Canadas. Price $1 per Bottle, with full directions. All orders must be addressed to

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, BLOOD'S BLOCK of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has secured me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made ON TWICE REJECTED applications, SIXTEEN APPEALS, EVERY ONE of which was decided in THE PATENTEE, by the Commissioner of Patents.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure*. My *fac simile* signature is upon every bottle.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for ITS GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Chest, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M. Beck BURRILL & HUNTING, SOLE PROPRIETORS,

No. 6 Tremont Street,

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headaches, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & Co.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 404 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPARED BY DR. SANFORD.

COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all suffering, or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 315 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the fine views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

S. B. FIFES, Proprietor,
au25w formerly of City Hotel, Newark, N. J.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous medicines, who still suffer from the reluctance to make known their complaints and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REGULATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The public are cautious the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by mercenary pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Pure Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at this season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and numerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,
LOWELL, MASS.
PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tean assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a diuner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick wan the best aid there is for them, and they should have it.
All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word.

Portsmouth, N. H.

MONDAY, OCT. 10, 1859.

SIR JOHN FRANKLIN.

By the arrival of the Canada from Liverpool, we learn that the screw steamer Fox, Capt. McClintock, sent by Lady Franklin to the Arctic regions in search of traces of the Franklin Expedition, has returned to England, having been completely successful. At Point William, on the northwest coast of King William's Island, a record was found dated April 25th, 1848, signed by Captains Crosier and Fitz James. The record says the Erebus and Terror were abandoned three days previously, in the ice, five leagues to the N. N. W., and the survivors amounting in all to 105, were proceeding to Great Fish River. Sir John Franklin had died June 11th, 1847, and the total deaths to date had been 9 officers and 15 men.

Many deeply interesting personal relics of the expedition were found on the western shore of King William's Island, and others were obtained from the Esquimaux, who stated that after the abandonment, one ship was crushed in the ice and sunk, and the other was forced on shore, where she remains.

The Fox was unable to penetrate beyond Bellot Straits, and wintered in Brentford Bay. The search included the estuary of Great Fish river; and the discovery of 800 miles of coast line, uniting the former explorations, was performed by sledge journeys last spring. Minute and interesting accounts of the expedition are published. Several sketches of Franklin's men, large quantities of clothing, &c., and a duplicate record up to the abandonment of the ships, were discovered.

THE GREAT EASTERN.—By the latest arrival from England, it appears thirty of the crew of the Great Eastern were arrested and tried at Weymouth for mutinous conduct, in refusing to wash decks when so ordered. They were imprisoned for a fortnight with hard labor, two of the ringleaders being sentenced for three weeks and a month respectively. The evidence showed the ship's crew to be far from complete.

The English papers strongly denounce the incomplete and hurried manner in which the ship was sent to sea. Vague rumors had been current that her first voyage would be postponed till next year, and that in the interim she would be exhibited at the principal ports in the Kingdom. This is authoritatively contradicted, and she is still advertised to leave Holyhead for Portland on the 20th of October.

It is announced that, on the way back from Scotland, the Queen will visit the Great Eastern at Holyhead on the 17th, and stay at Penrhyn Castle, as the guest of Col. Pennant.

THE SUNDAY QUESTION.—The Mayor of Pittsburgh is giving an entirely new aspect to the Sunday question. He has been appealed to to enforce the observance of the Sabbath, and having stopped the running of the railway cars, he last Sunday took in hand the glittering carriages of the aristocracy, and while the owners were devoutly worshipping in the churches, the police were taking the names of the liveried coachmen at the door, the rank and station of the master, &c., with a view to the enforcement upon them also of the law of 1794. The movement is rather a curious one, but there is fairness in it; and what adds to the zest of the proceeding is the fact that among the coachmen for whom warrants were issued on Monday are those of the Rev. Dr. Lyman, Pastor of the Trinity Church, and other clergymen equally zealous in opposing Sunday travel, Chief Justice Lowrie of the Supreme Court, and quite a number of affluent citizens. The parties were to have had a hearing Wednesday.

The literary Association of Princeton, N. J., has offered Mr. James Gordon Bennett $100 for a lecture. He refuses, saying the time is worth $5000 to him, and that lecturing is the business of none but literary loafers.

The above item is, we suppose, about a fair specimen of Mr. Bennett's courtesy in private life. He is, as appears from this, exactly as much of a gentleman now, as he was when Uncle Toby first knew him, forty years ago. A poet says, "Pigmies, though perched on Alps, are pigmies still." And Uncle T. would use the line, varying only one word, viz., "Pigs, though perched on Alps," &c.

MASSACHUSETTS SCHOOL LAW.—In the House, Oct. 6th, a motion was made for leave to introduce a bill repealing the laws of last winter, which abolish the School District System. The House refused to grant leave by a vote of 51 to 76.

☞ A Vermont paper says the strawberry vines are in blossom in that State, for the second time this season.

☞ Ginger, says an exchange, has become a favorite garden plant in the Southern States.

"HIS EXCELLENCY."—Massachusetts is the only State in the Union, which by a constitutional provision grants the title of Excellency to its Governor. Newspapers sometimes speak of the President of the United States as His Excellency the President, but there is no legal sanction for this, the founders of the government having decided after discussion to bestow no title upon the President. A committee of the Senate reported in favor of the style "his highness," but the House opposed any other title of office than those expressed in the constitution. So says the New American Cyclopædia.

We cut the above from the Boston Transcript; and append to it by way of correction, a little extract from the Constitution of New Hampshire, showing that we have the title His Excellency here. It is Art. 41.

There shall be a supreme executive magistrate, who shall be styled Governor of the State of New Hampshire; and whose title shall be *His Excellency*.

WATER GAS.—Last Saturday evening, the city of Wilmington, Del., was lighted with gas manufactured from *water*. The demonstration was in every way satisfactory, and the light, it is said, was superior in color and staength of flame to that obtained from coal gas. The cost of making this gas ranges from 30 to 50 cents per thousand cubic feet, while the lowest price of coal gas as furnished to cities, is something like four times as great. The process of manufacture is described as follows:

"Water, as steam, is decomposed by being passed over red-hot charcoal, and the resulting gases (hydrogen, carbonic oxide, and light carburetted hydrogen) are chemically combined with heavy carburetted hydrogen or light-giving gas, by the decomposition of rosin or coal vapor, simultaneously with and in the presence of the decomposition of the vapor of water."

☞ The Bath Times states that Mr. John Rogers of Phipsburg, has raised this season potatoes weighing two pounds each. Mr. R. had a single potato of the kind which he planted, which weighed one pound, and contained fifteen eyes. These he separated and planted in different hills, and he has dug seventy pounds of sound, handsome potatoes, as the product of the one planted. It is the California potato, so called.

Mr. Cyrus Wheler, of Waterville, Me., has this season grown in his garden about three hundred bushels of onions, of a very large size and of good quality. He found in the course of the season that the insects were depositing their eggs and that a few toads in his premises were making a feast of the mother insect, and he collected a large number of toads for this purpose, but they did not like to remain and hopped off to other locaities. He then placed chickens near his onions, and thus saved his crop.—The drougth was at one time very severe in his grounds, or he thinks his crop would have been much larger and earlier.—*Kenebec Journal.*

☞ Rev. Mr. King's elegant work on the White Mountains will be entitled "The White Hills; their Legends, Landscape, and Poetry. By Rev. T. Starr King. Illustrated with sixty exquisite engravings on wood, by Andrew, from drawings by Wheelock." The volume will be a small quarto, printed in the most elegant style on tinted paper. It will be published in a few weeks by Crosby, Nichols & Co., Boston.

A poor widow's little boy wanted a slate at school, but she could not afford to buy him one. The next day after he had asked for it, seeing one in his hands, she inquired in some surprise, "Why, Tommy dear, where did you get that slate?" "I beern you say, marm, when papa died," he answered, "that now he was gone we *must look above* when we wanted anything; so I went up and hooked this slate off the roof. I wish I had a frame to it."

☞ When sailing in a balloon, you are utterly unconscious of motion, unless you can see the earth. Nor can you tell by a compass in which direction you are travelling, unless you are sufficient of an astronomer to judge from the shifting angles formed by certain stars. If you cannot see the earth, you cannot tell how fast, nor in what direction, you move.

Judge Terry, who is supposed to have been mortally wounded in a duel with Senator Broderick, was a violent man, and was at one time in the hands of the Vigilance Committee in San Francisco, when Broderick interposed to save his neck. He now dies at the hand of the man who then befriended him.—*Bath Times.*

HORSE CHESNUT STARCH.—Dr. Jewett has left in the counting-room of the Traveller, where it may be seen by those interested in the matter, an ounce or two of fine starch, extracted from only eight horse chesnuts, picked up in the street. The experiment shows this nut to be so abundant in starch, that it may be turned to valuable account.

WHY CAN'T THINGS STOP?—Wouldn't it be a delightful thing, in this toiling, tugging, work-day world, when everybody gets "tired just about to death" with the digging, and delving, and driving, if things could only stop for a week or so, and give the world a little rest? A young lady at our elbow thinks it would be, decidedly.—*Nashua Telegraph.*

EVERYBODY'S LAWYER.—This is a new book by Frank Crosby, "a Philadelphia lawyer,"—and is in a neat volume published by John E. Potter, Philadelphia; and contains a vast amount of useful information in regard to the laws of different States and of the Union, in regard to property, forms of legal instruments, &c.

ELOPEMENT FROM THE SULTAN'S HAREM.—Galignani's Messenger states that the master of the Sultan's band, an Italian, arrived at Geneva, with his wife, a beautiful Circassian, early in the present month. According to a letter from Constantinople this woman, whose name is Sersefras Hanum, was for sometime in the harem of the Sultan, and was one of his favorites.

"One day she called for her carriage, and accompanied by two female slaves and a male attendant, went to Ortakie. There she stopped at a house which she indicated, and she was received by two women with marks of the most profound respect. She entered the house, followed by the two slaves, while the other remained at the door. She was introduced into a sumptuously furnished drawing room and there she dismissed the two slaves, who went with the domestic of the house to an apartment where they were entertained with cakes, cigarettes and coffee. All the domestics quitted the room from time to time as if to see that nothing was wanting in the drawing room, and after a while they all left. The two female slaves continued to amuse themselves with their coffee and cigarettes. At last, getting surprised at not seeing any of the servants return, they went out in their turn, and finding all quiet, advanced on tip-toe to the drawing room. Hearing no noise they entered, and to their astonishment found that their mistress had disappeared. They called out but received no answer—the house seemed deserted. They then commenced a seach in the different rooms, and presently found in boudoir their mistress's dress. They were thunder-struck, as it was evident that she had fled. They then raised loud cries, and the male attendant entered. Hearing what had happened he searched the house throughout, but was unable to discover the fair favorite.—Hastening back to the harem, he told the black Aga of her disappearance. That functionary, in his turn, went and searched the house with great minuteness, but could not trace the Circassian, and after awhile, he perceived that the house opened on the port. An investigation having been instituted, it was ascertained that several persons dressed in European style had been seen in a caique, near the house, and had suddenly left it. It also turned out that a handsome Italian, named Guatelli, director of the music at court, had disappeared.—The kiosque of the fugitive was examined; the gold, silver, jewelry and sumptuous presents of all kinds which the Sultan had made her had been carried off. The beautiful Sersefras, it is said, possessed a splendid voice, which the Sultan admired greatly; and as she has gone away with an Italian maestro, it is not improbably that she may some day appear in the theatres of Western Europe."

WOODPILE FIRE.—A fire broke out in Hyannis, Friday afternoon, about 40 minutes past 2, in a large pile of wood belonging to the Railroad Co., extending to the wood shed and adjoining the engine house. In consequence of a strong southerly wind all efforts to extinguish it were unavailing, and the wood shed and engine house are entirely destroyed. The car house and several dwelling houses were in great danger. Loss not ascertained.

☞ The arrival of the "lost balloonists," LaMountain and Haddock, at Watertown, N. Y., was made the occasion of extraordinary demonstrations of rejoicing. The people shouted, bonfires were lighted, cannon fired, sky-rockets sent up, &c., &c. Haddock made a speech, and so did La Mountain.—Botk looked very much bearded, worn, emaciated and shabby.

☞ As was the case with our Mexican war, the late war in Italy has demonstrated the uselessness of all extra display in army uniform, and a commission is now sitting in Paris which has for its object the alteration of the present uniform of the French army, with a view to making it as simple and durable as practicable. The subject commands almost as much attention as a change in the fashion of a lady's toilette.

MICHIGAN STATE FAIR.—The Michigan Agricultural Fair closed at Detroit, Friday, having been the most successful ever held in the State. The annual address was delivered Thursday afternoon, by Gov. Banks of Massachusetts, who, with Gen. Wisner and Senators Bingham and Chandler, were escorted to the grounds by the military and firemen.

☞ One of the English cricketers, now at Montreal, essaying to eat an ear of green corn—a new article of food to him—stuck it *endwise* between his incisors. Imagine his disappointment at finding a cob in the centre of the luscious morsel!

Patent Indelible Pencil,
FOR MARKING CLOTHING.
Patented May 31, 1859.

This article has the following claims to public attention: It can be used with greater ease in writing upon all kinds of cloth; will not dry up like ink; will sharpen well without breaking, in being used as a Pencil; one box of pencils will mark THREE THOUSAND articles.
Many persons have found it difficult to procure an article that will be permanent—they will find this all they can desire. It does not cost one-third as much as ink.
The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of House keepers. This pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked, and it will leave an indelible mark thereupon.—[Scientific American, June 11, 1859.

Special Notices.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,
Dr. Wistar's Balsam of Wild Cherry.
Says a well known Editor:—"This is truly a Balsam and a blessing to invalids It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."
CASSVILLE, GA., Feb. 26, 1858
Messrs. SETH W. FOWLE & CO., Boston, Mass.
Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.
For Coughs and Colds in children I *know* it to be an excellent medium.
Respectfully yours,
JOHN H. RICE.

Dropsies.
There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Billious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

R. R. R.
Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.
SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.
The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,
SHE WAS SOUND.
Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.
Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.
R. R. Remedies are sold by Druggists generally.

For the Chronicle.

☞ At a meeting of the Democrats of Ward One, in this city, held last Friday evening to elect delegates to the Democratic State Convention, A. H. Hoyt was chosen Chairman, and N. P. Thacher Secretary. The following gentlemen were chosen delegates:—Amos S. Alexander, Elias Ayers, Kittredge Sheldon. The following Resolutions were passed unanimously:—

Resolved, that the Democracy of this Ward agree with James Buchanan in the opinion expressed by him in his letter of acceptance, declaring popular sovereignty a principle as ancient as free government, and hold with him to the doctrine that "the people of a Territory like those of a State shall decide for themselves whether slavery shall or shall not exsist within their limits."

Resolved, that the Democracy of Ward One have full and unabated confidence in the patriotism and statesmanship of Stephen A. Douglas.

☞ The gentlemen who criticized and corrected Uncle Toby's statistics of Portsmouth politics and liquor trade, and who said all our apothecaries were republicans, will please to take notice that one apothecary appears as Secretary of a Democratic caucus.

CHARACTERISTIC.—The late Rev. Elias Hutchins, of Dover, was a man not only of liberal feelings, but of equally liberal actions. The following record is found among his papers:

From 1834 to 1859, I gave $2570 for charitable and benevolent purposes, besides purchasing pews in five meeting houses to the amount of $535. [This makes a total sum of $3100.] My second wife, by whose means I was furnished with a considerable portion of the above sums, heartily approved my appropriations of this kind, as did my first wife those I made while she lived with me.

At a caucus of the Democrats of Ward 2 held at the Gazette office, Saturday eve., the following gentlemen were elected delegates to the State Convention; Jacob Walden, John R. Redding, J. Warren Towle.

At the Democratic Caucus in Ward 3, on Friday evening, Daniel Marcy and William Marvin were chosen delegates to State Convention.

MAMMOTH CALF.—A calf, mixed Ayrshire, Durham and native, 5 1-2 months old, owned by Thomas Cushing, Esq., of Dover, and exhibited at the State Fair last week, girts 5 feet and weighs 656 pounds.

☞ The New Hampshire Fair was entirely successful, pecuniarily, the receipts amounting to over six thousand dollars.

☞ The New York Tribune, in a recent article on "The Great Source of Crime," gave the following facts:

That twelve hundred and eighty-nine policemen of all sorts and sizes have to be salaried, because seven thousand seven hundred and seventy-nine rum-shops and barrooms are kept open, according to law, in the city of New York, is a stupendous fact.

☞ At the Cincinnati Trotting Park, Friday afternoon, Flora Temple and Ike Cook were matched for $1000 a side. The race was won by Flora in three straight heats. Time—2:27 1-4, 2:27, 2:21 1-2. The last heat was the fastest on record, and the first half mile of it was made in 1-09 1-2.

☞ A year ago, Leroy Taylor of Cass county, Ill., eloped with his sister-in.law, the wife of Wm. B. Higgins, of Richmond, Ind., and now the deserted mates, having severally got their divorce, have consoled themselves by marrying each other.

EVEN SAILING. — The clipper ships Nightingale, Capt. Peterson, and Sweepstakes, Capt. McGill, both sailed from San Francisco June 3d, and both arrived at Hong Kong July 20, having been in sight of each other every day during the whole passage.

A London journal, discussing American politics, has the following valuable information:

"The Presidential nominations form the chief topic of conversation in America.—There are three candidates in the field—Wire, Douglas and Bolts. At the last accounts Bolts was a little ahead."

It is no very uncommon thing in this country for *bolts* to go ahead of regular candidates.—*Atlas.*

☞ One of the charges brought against a weak shepherd by the indignant parishioners in a town in Massachusetts, is "borrowing a shirt and not returning it."

Benton once said that Senator Douglas would never be President "because his coat tails were too near the ground." The "little giant" evidently acting on this hint, has adopted a *round-about* habit.—*Spirit of the Times.*

☞ There is a Bartlett pear tree in Fal River from which its owner has picked the present season no less than seven hundred and fifty-nine pears.

The individual who tried to clear his conscience with an egg, is now endeavoring to raise his spirits with yeast. If he fails in this it is his deliberate intention to blow his brains out with the bellows.

☞ One hundred barrels whale oil were sold in New Bedford, Friday, at 45 and 50 cents per gallon.

PEOPLE'S LYCEUM FOR 1859-'60.

Tickets for the course of Ten Evenings, $1. Evening Tickets, 25 cents.

Rev. T. STARR KING, Tuesday, Oct. 11. Lecture on 'Personal Power and its Voices.'

☞ B. J. Lang, the talented and popular Pianist, of Boston, organist of the Handel and Haydn Society, is engaged to perform at the opening of the Lyceum.

Rev. J. C. FLETCHER, Tuesday, Oct. 18. Lecture on the "Land of Tell," illustrated with appropriate music.

Hon. HAMPDEN CUTTS, Tuesday, Oct. 25. Readings from Shakespeare and others.

GILMORE'S SERENADE BAND will give one of their splendid Concerts.

Dr. WINDSHIP will also lecture and illustrate "Physical Education."

Rev. J. G. Adams will lecture.

Albert Laighton will read a new Poem.

And there will be three other lectures or concerts, (ten in all) of an equally high order with those named.

Distinguished lecturers who may visit Boston or other cities during the winter, will be engaged to occupy evenings not otherwise filled; and no effort will be spared to provide the best entertainments circumstances will admit of.

Good Music will be supplied every evening—the character and expense of which must necessarily depend in some measure on the patronage extended.

☞ Tickets may be had at Preston's, N. P. Thacher's, J. H. Thacher's, and the Door.

Doors open at half-past 6—Music at 7—Lecture at half-past 7.

JOSEPH M. EDMONDS,
FRANK W. MILLER.

☞ The Original New Orleans and Metropolitan Burlesque Opera Troupe, consisting of four star delineators of Ethiopian characters, and a Brass Band of ten talented musicians, will give two concerts at the Temple, on Wednesday and Thursday evenings, Oct. 12th and 13th. It will be remembered that this Company have been here several times, and have always given great satisfaction. The Brass Band will play in front of the Hall each evening.

Dr. C. P. Bronson's New Cures
—FOR—
Consumption, Liver Complaints, Dyspepsia, and all other Chronic Diseases arising from over-use, General Debility, or Nervous Prostration.

These new and successful preparations of Food for the Blood (based upon its analysis in HEALTH, which gives the true standard, and in different DISEASES, when we ascertain the deficiencies in each case and then supply them with the proper materials for making pure and healthy Blood,) are among the most important discoveries of the age. They are destined to produce a revolution in the treatment and cure of CHRONIC DISEASES. Having a perfect scientific foundation, they are far removed from the sphere of all Nostrums and Patent Medicines. Physicians of all schools are using these PREPARATIONS (not *Medicines*) with the most satisfactory results. They are taken by drops, not spoonfuls.

THEIR RANGE OF CURE:

CONSUMPTION, THROAT DISEASES, BRONCHITIS, COUGHS, COLDS, DYSPEPSIA, LIVER COMPLAINTS, HEADACHES, PALPITATION OF THE HEART, NEURALGIA, LOSS OF APPETITE, INABILITY TO SLEEP, DEPRESSION OF SPIRITS; IRREGULARITIES, and MALE AND FEMALE WEAKNESS, &c. In all cases of Chronic Complaints peculiar to FEMALES, these Preparations will be found invaluable.

THEIR PARTICULAR SPHERE.

It is not claimed that they will cure all diseases; but in those specified above, (as thousands can testify,) they are the most efficacious of any now known.

Be particular, in ordering, to mention which of the three Preparations are required. If for Consumption, &c., the first and third alternately, are best; if for Liver Complaints, &c, the 2d; or Dyspepsia, (when inveterate) the 2d and 3d in alternation, are more successful. In moderate cases, one will suffice.

There are three preparations, one for Consumption in all its various forms; one for Liver Complaints and their attendants; (to which particular attention is called,) and one for Dyspepsia. Out of nearly two thousand strongly marked cases there have not been 20 failures.

From numerous testimonials we select the following:

A VERY INTERESTING CASE.

Mr. D. L. ELDER, (of this city,) is well known as one of the most hopeless cases of Consumption. Messrs. Horace Greeley and W. C. Bryant, (of the *Tribune* and *Post*,) are familiar with the following facts and circumstances:

Mr. ELDER was actively engaged in the last Presidential campaign, and his intense labors, day and night, broke down his health, which had not been good for many years; this was followed by a severe cough and bleeding from the lungs, which continued down to last December, when he commenced using one of these Preparations.—For the previous two months he bled every day, sometimes quite profusely, and his cough was terrible. In a month's time he was able to be about through the city during all weathers, and in less than two months after beginning to use the remedy, he was engaged in canvassing the city, and was on his feet nearly all the time from 9 o'clock in the morning till four in the afternoon, conversing with hundreds of persons, and transacting a large amount of business. He is now as hearty a looking man as one in a thousand. His present residence is at 562 Hudson-street, New York.

Dr. Bronson can be consulted either by letter, addressed to Box 3398, P. O., or at the office of the General Agents from 9 to 12.

These Preparations can be obtained through any respectable Druggist in the United States or Canadas. Price $1 per Bottle, with full directions. All orders must be addressed to

THE
BAY STATE RANGE.
COMBINING
ALL THE GOOD QUALITIES
—OF A—
RANGE AND STOVE.

The Subscriber invites the attention of the public to the BAY STATE RANGE, a new cooking apparatus of great capacity, having
TWO LARGE OVENS
AND
SIX BOILING PLACES.

The Ovens will bake SIXTEEN LARGE LOAVES OF BREAD AT ONE TIME—and are superior to any Stove Oven for Roasting Meats.

A Water Back can be added to the Range, with which a barrel of water can be kept boiling without any increase of fuel.

Wood or Coal may be used for fuel, the castings being of
DOUBLE THICKNESS,
will resist the action of a coal fire and the abuse of servants.

These Ranges have been in use in this city during the past year, and been found perfect in operation.

THE RANGE IS PERFECT IN ITSELF,
and can be set in a chimney or out in the room as is most convenient.

It will warm the coldest kitchen in the city, and an extra room if desired.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, or any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will insure a large sale, that our aggregate profits will make our business sufficiently remunerative.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

The News.

☞ Advices from Arizona, Sept. 20, state that large and enthusiastic meetings had been held on the Rio Grande, and at Tucson, declaring that the gentlemen who received a very small minority of the votes of the people of Arizona for the Legislature of New Mexico, do not represent the Territory. In answer to a call from the people at Tucson, Lieut. Mowry made a speech in which he said that "the election just held finally settled the question of separation from New Mexico." This was received with great applause.

The Vicar General of New Mexico has written a letter saying he has made an accurate census of the population of Arizona by direction of the head of the church, and that it exceeds 11,000 souls, exclusive of Indians. This confirms Lieut. Mowry's last year's estimates.

☞ The latest foreign news is by the Canada from Liverpool 22th Sept.

Ship Josiah Quincy, from Leghorn for Boston, was abandoned at sea on the 4th of September, leaking badly. The crew and a small portion of her cargo was taken on board the ship Eddystone, and had reached Liverpool.

At the Agricultural Show, Lewes, a steam chaff cutter exploded, killing four persons.

Upwards of 1000 marines, detachments of the rifle brigade, two light infantry regiments, &c., were about to leave England for China by the overland route. The first of the squadron for service against China had already sailed. Government intends despatching 30 gunboats, besides frigates and other vessels.

An order for two million ball cartridges, paced in 2100 boxes, has been executed at Woolwich. These go to China overland, and a second order, to a much greater extent, was progressing for a sea voyage.

The Times' Paris correspondent again draws attention to the activity in the French dockyards, and states that there are now building, or under orders to build, 20 ships of the line,—all strictly fighting vessels, steel plated and provided with iron peaks or prows.

The Paris correspondent of the London Spectator asserts that Napoleon accepts the plan of the King of the Belgians, to give the fortresses of Peschiera and Mantua and the States of Parma and Modena to Sardinia; to reinstate the house of Lorraine in Tuscany, and to restore the Legations to the Pope. After introducing a variety of reforms, Venetia is to have Governmental institutions, and an army of its own under Arch Duke Ferdinand Maximilian, with the title of Grand Duke of Venetia. This stipulation has the concurrence of Austria. A Congress is also to be to be held at Brussels, presided over by the King. This letter is dated the evening of the 22d.

ITALY.—The Sardinian government has addressed a circular to the great powers denying the reported cession of Savoy to France. The Sardinian government is also said to have protested against secret aid afforded by Austria in recruiting soldiers for the Pope.

The Pope remained in a very alarming state, and Cardinal Antonelli declared him unfit to attend to public affairs.

The Economist Belge says that the harvest in Belgium is far from being so satisfactory as was expected. Wheat will only be two-thirds of an average crop.

The Paris correspondent of the Times says that Cherbourg is to be armed completely and put on a war footing; rifled cannon being provided for all its batteries.

NEW YORK, Oct. 8.—(Herald Washington correspondence.)—Dispatches are being prepared at the Department of State for our Minister in China. The government will enlighten him upon the subject of neutrality and what is meant by it, so that in any future emergency which may arise he will comprehend and understand his duty. His instructions were clear and emphatic, the same in substance as those of Commissioner Reed, in which our government peremptorily declined, under any circumstances to co-operate or in any manner become complicated with either England or France in their movements against the Chinese. The dispatches now in preparation will reiterate this policy. The statement that the administration approve of the course of Commodore Tatnall and Minister Ward in the affair at Peiho, is incorrect.

Dispatches from Gen. Scott are received at the War Department, dated Key West. The old hero was in excellent health, as were the different members of his staff.—The suggestions contained in the advices of Gen. Scott are very important, and dispatches of great gravity of character have been telegraphed to him in reply. These orders are based on official news received from England by the mail steamer which arrived soon after the sailing of the Star of the West, and are very decisive as to the action of the General on his arrival at the scene of the San Juan difficulty. He is to proceed at once from Key West to the territory in dispute, and conduct his course as the emergency may require.

☞ At the meeting of the American Board of Foreign Missions, at Philadelphia, there was an excited discussion of the slavery question, which resulted in a midnight session, and the Choctaw and Cherokee missions were cut off.

Concord and Portsmouth Railroad.

The annual meeting of this corporation was holden in this city, on Thursday the 6th inst. The report of the Directors shows, that all the debts of the corporation are paid; and as the road is leased for several years at 15,500 a year, which is more than six per cent on the stock, the affairs of the corporation may be said to be in a prosperous condition. A dividend of two and a quarter per cent has been made from the last year's receipts of the corporation, besides having the balance of its old debts. If the directors now confine themselves to the safe and legitimate business of the road, there seems to be no reason, to prevent the payment henceforward of regular dividends of six per cent per annum. To facilitate this desirable object the stockholders voted:

First, That the Directors henceforth contract no debts on account of the road.

Second, That two hundred shares of the stock not issued be cancelled, and the capital of the corporation be reduced to $230,000.

The latter vote will raise the annual dividend to nearly seven per cent, if no money is wasted in expenses or foolish litigation.

Considerable excitement was manifested respecting the choice of Directors, the reason of which we did not distinctly understand, as the duties of the board must for sometime to come be almost nominal, and the best service they can render the stockholders is to leave things as they are. An entire new board of Directors was elected without opposition as follows:

Charles L. Frost, of New York; Charles Thompson, of Boston; Josiah Stevens, of Concord; S. Plumer Dow, of New Market; Aaron H. Hill, of Portsmouth.

It is understood that the Directors have since chosen Mr. Frost to be President of the road, Thomas D. Bailey, Esq., Treasurer, and Wm. H. Hackett, Clerk.

The most noticeable circumstance in the constitution of the new Road is the fact, that but one of the gentlemen composing it resides in Portsmouth.—The reason of this change is not very apparent; we hope it does not indicate a design to adopt any policy which may be hostile to the interests of the city. Our citizens have made heavy sacrifices to secure the construction of this road for the benefit of our trade and people, and justice seems to require that the same object shall continue to be pursued, as far at least as can be consistent with the reasonable interests of the present proprietors and managers.

In may not be inappropriate now to remark that the Directors who seem now to have finally retired from the management of the Road, deserve great credit for the perseverance they have manifested in the ten years struggle to build and place it in a self-sustaining position. The enterprise has not been remunerative to those who originally invested their money in it, but the Directors, in addition to their personal labors, have cheerfully borne their full share of the losses, and have not hesitated to pledge their individual credit to raise funds, at times when the railroad must otherwise have been left unfinished. By their efforts mainly this great public enterprise has been completed. To the town and the country it is worth all that it cost; and if the sacrifices, that have attended the construction of the road could be fairly divided, we think our people would be disposed to do great honor to all the gentlemen, whose enterprise projected this work, and whose exertions have completed it, and secured its performance.

At the close of the stockholders meeting a discussion arose, respecting the controversy, in which the Railroad seems about to engage with the Aqueduct Company. It seems, that, when the Railroad was built, the excavation of the gravel bank just beyond the Plains discovered a large spring or rather vein of water. This was regarded as a misfortune to the Railroad. Several wells in the vicinity were drained, and the Directors made good the damage as well as they were able. For ten years, the water was suffered to flow quietly and uselessly in the ditches at the side of the Railroad. A few months ago, however, the Aqueduct Co., desiring a further supply of water, bought a piece of land adjoining the Railroad, and have since excavated a large reservoir on their own land into the same vein of water, with the intention of bringing it to the town by their pipes. This seems to have opened the eyes of some gentlemen connected with the Railroad to the supposed value of the fountain.

Failing to induce the Aqueduct Co. to pay a large price for their rights to the water, the managers of the Railroad have dug a pit at the side of the road lower than the new reservoir of the Aqueduct Co., and, by means of a deep ditch, now drain away the water and waste it in the Great Swamp. There the matter now stands; but it is evident, that if wise and prudent counsels do not intervene, the two corporations will soon be involved in very serious litigation.

THE DEMOCRATIC STATE CONVENTION.—This body will meet at Concord next Tuesday. It will be an important gathering, and we hope every town in the State will be represented. We observe that some of our cotemporaries are counselling the endorsal of the Douglas heresy fully up to the mark of last year, while others express the hope that the Convention will declare for a "sound and constitutional popular sovereignty." We do not suppose that any word of ours will influence the action of the Convention. We suppose it is a fixed fact that the proceedings of last year will be repeated, and Douglas squatter sovereignty be re-endorsed and the Administration practically repudiated. This heresy, like the measles, is a disease which must have its run, and there is, perhaps, but little use in opposing it until it turns. Nevertheless, we feel that we should fail in our duty did we neglect to advise the Convention to be careful of their action in this regard. They will have the experience of last year and the late results in Vermont and Maine to guide them; and if they shall think these will warrant them in repeating the experiment of the last Convention, let this by all means be their course.

Our opinion, however, is that if the Convention are wise they will leave Douglas and Douglasism alone, and cordially sustain the Administration, and approve the Popular Sovereignty of the Cincinnati Platform—a doctrine in agreement with reason and the Constitution, and not at war with both, and to which all Democrats can readily subscribe. Mr. Douglas has followed his doctrine to its legitimate result, practically into the Black Republican ranks; and in our humble view it will be exceedingly unwise to recommit the Democratic party of New Hampshire to an absurd and exploded dogma, which points in such a direction and can promise only defeat.

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE completely recovered, eight have died, and six are still under treatment. HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice will not my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Liver Invigorator.

PREPARED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of mercury after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicine.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tean assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick wan the best aid there is for them, and they should have it.
All our renedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

MRS. WINSLOW,

RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine. —NEVER HAS IT FAILED, IN A SINGLE INSTANCE, to EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any who used it. On the contrary, all are delighted with its operations, and speak in terms of the comendation of its highest magical effects and medical virtues. We speak, in this matter, "*what we do know,*" after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found within fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not specifily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. TUESDAY, OCT. 11, 1859.

DEATH OF SENATOR BRODERICK.—It now appears, contrary to the first report from California, that Broderick was mortally wounded in the duel, and not Terry.

The Overland Mail of the 16th, reached Jefferson City on Saturday. The duel between Senator Broderick and Chief Justice Terry, took place near San Francisco on the morning of the 13th. Broderick fell at the first fire, having been pierced through the lungs. He lingered till half past nine o'clock, on the morning of the 16th, when he died. The community was profoundly agitated by the melancholy event. Judge Terry escaped unhurt. He has been arrested. The funeral was the most imposing ever witnessed in San Francisco.

Some of the San Francisco papers evince a disposition to make it appear that Mr. Broderick was the victim of a conspiracy, but the most prominent ones assert that the duel was conducted in strict accordance with the code duello. Nevertheless, the Boston Atlas says:

We have conversed with a gentleman of this city, from California, since the receipt of the news of Mr. Broderick's murder, and he fully confirms the opinion we had previously formed, that this was only an important part of the programme of a few designing political tricksters there, for a series of political successions, for their own honor and emolument. It has been suggested that the plan is probably this—Gov. Weller will appoint Terry, who has resigned his judgeship, to the unexpired term of Mr. Broderick. Mr. Latham succeeds Weller as Governor in January ensuing.—Then Weller, who cannot succeed Broderick immediately, on account of the Governorship, is to succeed Terry, for the next Senatorial term, and at the expiration of Gwin's Senatorial term Latham can succeed him, his office of Governor by that time having expired, leaving Gwin, who can never again be elected Senator, to follow out his aspirations for the Vice Presidency, a place in the Cabinet, foreign mission, or, failing in all these, he can fall back upon his first ambition, the Governorship of California, or his scheme to seize Arizona and bring it within his own political control.

Broderick's pistol went off before raised into line with his antagonist. Terry's shot took effect two inches from the right nipple, carrying away part of the breastbone. Mr. Broderick suffered intense agony from the time he was shot till he died. When the mail left, two hours after his death, it had been announced that all the flags in the city would be displayed at half-mast, and emblems of mourning were beginning to appear in all parts of the city.

FIRE AT EPPING.—On Friday night, Mr. John Parshley, of Epping, was awakened by fire, and he and his wife left their bed and board in extreme haste, getting out only a few things. The house and barn were a total loss, together with his hay, cow, hog and fowls. The fire seemed to have originated in the barn, and the cause being unknown to the owner, he suspects incendiaries—but a pipe, or a match, or a hundred other causes, are more likely.

The buildings were small, and not worth much money—but they are a serious loss to those who have but little to lose.

POISONOUS PAPER HANGINGS.—Hall's Journal of Health says: "From one square of the paper taken from a room which was papered with one of the tufted or flock green papers, thirty grains of the powder was scraped off and sent to a chemist; and the amount of solid arsenic in it was eleven grains, more than one-third. These green paper hangings are more poisonous to the air of a room when they are not glazed, but velvety, and have the figure standing out from the paper."

☞ The correspondent of the New York Times writes that the coroner's investigation, popularly supposed to be about the cause of the Great Eastern explosion, has degenerated into a miserable squabble between the lawyers, as to whether the ship was in the hands of the Company or of the contractors during the late trip.

HARD TIMES IN MINNESOTA.—A gentleman just from Minnesota states that hard times still continue in that State, and that Eastern people have but an imperfect idea of the universal depression in business that exists there.

☞ A Connecticut editor, having got into a controversy with a cotemporary, congratulated himself that his head was safe from a "donkey's heels." His cotemporary inferred from this that he was unable "to make both ends meet."

☞ "Young's Spirit of the South" has been merged in Porter's Spirit of the Times, and Col. Young, the editor and proprietor of that paper, is now associated with Porter's Spirit.

☞ The people of Rockport, Mass., propose to build a railroad to connect with the Gloucester branch of the Eastern Railroad.

There is nothing which hurts the moral tone of the mind more than doing things which go against our conscience, even in immaterial matters.

STEAMSHIP QUAKER CITY.—A Norfolk (Va.) dispatch of Oct. 9 states that nearly one hundred passengers of steamer Quaker City, Capt. Shufeldt, from New York bound to Havana, have arrived there. On the 7th inst, fifty miles south of Cape Hatteras, her engine was smashed; the excitement was very great, and the boats were manned, provisioned and equipped; as it was supposed the ship was leaking badly, the pumps were set to work, and ten inches of water was thrown out of the ship, but it was found she was not leaking. The ensign was set Union down, which brought to her relief the bark Dunbarton, Captain Chadbourne, of Boston, from Turk's Island bound to New York.

She took on board the passengers and plenty of provisions, under charge of S. Z. Hargous and Dr. Finnell, surgeon of the Quaker City, and arrived safely in Hampton Roads. Twelve of the passengers and all the officers remained on board the steamer, which was last seen forty miles south of Cape Hatteras, near the Gulf Stream, the wind being light, though a heavy sea was running. No serious danger to the ship was apprehended, and no loss of life had occurred.

The details of the accident, given in the dispatch, are very curious, but too long for us; we therefore compress them into an item, after this fashion:

First, one thing broke down—next, that broke down another—this broke a third—and so on till everything was smashed up, the passengers waked up, and the ship brought up, all standing.

At Norfolk, at the latest date, Captain Chadbourne reports a gale blowing outside the Roads, from N. E., and is very anxious for the safety of the Quaker City. He thinks she will drift in the Gulf Stream to the northward and eastward. Steamers should be sent immediately to her relief from various points along the coast. If drifting, she must be between Sandy Hook and Cape Hatteras, well out in the Gulf Stream.

☞ The Newburyport Herald says that within a week there have been two cases in that city, "practically demonstrating the narrow space between rum and death. In one house two men lived, who for some years had tested the power of the worst kind of rot gut, and some thought they had gained the victory; but the excess of one day changed the result against them. First one and then the other was seized with delirium, and when the first was dying the second was raving in agony with the idea that the devil was about to take him. He was, however, spared to help fill a workhouse, while his friend and mate filled a grave. Two weeks have passed since that, and within our knowledge two women, who might have lived happily with their families, by the neglect and abuse of their drunken husbands have been hurried to the same goal; and so they fall all around us, some the victims of rum, others the victims of rum-drunkers. One man this week attempted to cut out his heart at the police station. That was horrible; but it was not the worst thing he could do."

LONG DRESSES.—The 'Autocrat' of the Atlantic Monthly throws off the following in the last number:—

"But confound the make-believe women we have turned loose in our streets; where do they come from? Not out of Boston parlors, I trust. Why, there isn't a beast or bird that would drag its tail through the dirt in the way these creatures do their dresses. Because a queen or duchess wears long robes on great occasions, a maid-of-all-work, or a factory girl, thinks she must make herself a nuisance by trailing through the street, picking up and carrying about with her—bah! that's what I call getting vulgarity into your bones and marrow.

Show over dirt is the attribute of vulgar people. If any man can walk behind one of these women, and see what she rakes up as she goes, and not feel squeamish, he has got a tough stomach. I wouldn't let one of them into my room without serving them as David did Saul at the cave in the wilderness—cut off his skirts!

Don't tell me that a true lady ever sacrifices the duty of keeping all about her sweet and clean, to the wish of making a vulgar show. I don't believe it of a lady. There are some things that no fashion has any right to touch, and cleanliness is one of these things. It is an insult to a respectable laundress, to carry such things into a house for her to deal with.

☞ The City Government of New Bedford have appropriated $5000 for the purchase of a steam fire engine. The engine which met the approval of the committee was that manufactured by the Amoskeag Company, Manchester, N. H.

The man who plays at once on the trump of fame and the horn of a dilemma, got his first idea of music on hearing a hay-cock crow, while he was tying a knot in a cord of wood.

A CASE OF CONSCIENCE.—The Assistant U. S. Treasurer at Boston received from some unknown source, twenty-five dollars, with a request that the same should be placed to the credit of the government, on account of unpaid duties.

True religion takes care not only of a man's working life, but also of his leisure and rest. It takes care not only of his solemn hours, but of his mirthfulness. It takes care of the whole man.

STOVES AND FURNACES.

FRANK JONES,
61 *MARKET ST., PORTSMOUTH,*
Having received a part of his Winter Stock of
SUPERIOR COOKING STOVES,
would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found
THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,
with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

The Calebrated Magee Patent Ventilating Parlor Stove.

All sizes—acknowledged by every one to be the BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.
STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,
7 Sizes---Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,
Coal Fixtures and Fire Brick.
HARD WARE AND CASTINGS generally.
TIN, SHEET IRON & COPPER WARE, manufactured to order.

☞ Prices as low as at any other establishment in this vicinity, and satisfaction guarantied in all cases.

BULBOUS FLOWER ROOTS,
FOR AUTUMN PLANTING.

J. F. SHORES, JR., No. 1 CONGRESS BLOCK,
Has just received a supply of
BULBOUS FLOWER ROOTS, comprising the following varieties:
Double Red Hyacinths of various shades;
Double Blue "
Double White "
Double Yellow "
Extra Early Tulips;
Double "
Single "
Parrott "
Double Jonquills—very fragrant;
Blue Crocus; White Crocus; Yellow Crocus;
Violet Crocus; Ranunculus;
Double Snow Drops; Single do;
Hardy Gladiolus.

These bulbs are in fine order. For flowering in the spring, plant this fall in the open ground—placing them from 2 to 5 inches below the surface, with a good supply of sand around the bulbs.

For winter flowering, put them into pots or boxes with any common garden soil mixed with a little sand; then place them in a dark closet for 4 or 5 weeks, watering but little: after they begin to sprout, place in the sun and freely water and they will bloom in February or March.

Patent Indelible Pencil,
FOR MARKING CLOTHING.
Patented May 31, 1859.

This article has the following claims to public attention: It can be used with greater ease in writing upon all kinds of cloth; will not dry up like ink; will sharpen well without breaking, in being used as a Pencil; one box of pencils will mark THREE THOUSAND articles.

Many persons have found it difficult to procure an article that will be permanent—they will find this all they can desire. It does not cost one-third as much as ink.

The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of House keepers. This pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked, and it will leave an indelible mark thereupon.—[Scientific American, June 11, 1859.

Special Notices.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 26, 1858.

Messrs. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,
JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Prepared by S. W. FOWLE & CO., BOSTON. and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. F. Packer, Greenland; and dealers everywhere. spuot 4wd&w

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Billious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

WATER-WORKS.

Messrs. Editors:—Having noticed some emarks relative to a fountain of water wned by the Concord & Portsmouth R. R. o., and thinking they may mislead the blic mind as to the controversy between e corporate bodies, I will state some of the cts. The spring referred to was discov- red ten or fifteen years since, but the Rail- ad Company being in a situation that ould not allow or justify any increase of penditure, made no attempt to ascertain e value of the spring.

The Aqueduct Co. having, at a later pe- od, discovered the value of the spring, ade to the Concord & Portsmouth R. R. o. *the liberal* offer of twenty-five or fif- *dollars* for this valuable spring, which charges about one barrel of water per nute, amply sufficient to supply the whole n—and were somewhat indignant at hav- their offer rejected.

They resort to other means to obtain the ter by purchasing a narrow strip of land the side of the railroad, contiguous to e spring; and digging a deep reservoir to tain the water by drawing it from the gual fountain. By undermining in this y, they succeeded in getting a large por- n of the water.

The Railroad Co. on learning this fact, mediately cleared the spring and deep- ed their drain, which carried off the ater, causing it to return to its original urse.

The R. R. Co. are now making arrange- ents to have this water brought into the y in iron pipes, and when this is accom- shed, the R. R. Co will be disposed to l the same to the city.

If the city refuse the offer, the R. R. Co. ill so arrange the concern that it will net em some five or ten thousand dollars, fur- sh the city with water at much less pri- s; keeping a constant supply, and being le to give most of the dwellings water in eir second stories.

We are not disposed to condemn the queduct Co. for charging so high a price r water as to make their stock to advance om $92 to $300 or $400 per share, be- ause it was not generally known, and be- ause no means have offered any relief un- now; but we do feel disposed to con- emn the measures they have resorted to, bove stated, to get it by means such as ey are now engaged in. So decided and licious is the course taken by the new resident of the road, Charles L. Frost, that e are able to say with confidence, no time ill be lost in the completion of this enter- rise,—and that no promise or prospects f lawsuits will change the purpose of the oard.

As the train arrived in Lynn, Cram put head into the door and said, "Passengers Lynn." It was no fault of the Brah- n that he thought Cram said, "Passengers l in," and he arose, as he conceived, to ke a part in some grand procession, whose ject he was to discover. The train moved and when he turned to take his seat, he nd it engrossed by about eighteen feet crinoline. The Brahmin moved into smoking car.—*Sat. Eve. Gaz.*

MRS. MACREADY.—This talented artiste has just returned from an extended tour through the British Provinces. The English critics are most enthusiastic in their praise of the high order of talent she displays, and proclaim her success as most signal. Mrs. Macready proposes making one more tour of the United States, previous to her departure for Europe, and will give one of her entertainments at the Temple, next Friday evening. She has selected for the occasion Shakspeare's magnificent play of the Merchant of Venice, when she will give her celebrated representation of Shylock; — and she will also give an accurate impersonation of all the different characters in the play. The rendering of the play has been proclaimed by the critics of the whole country as her master-piece, and a treat of no ordinary character may be expected.

The Boston Evening Transcript, in speaking of her after a series of evenings in that city, says:—

We listened with unalloyed delight last evening to this accomplished lady. Her selections were calculated to please a popular audience, so to speak, but she gave ample evidence of her power to enchain the interest and attention of the most intelligent and cultivated in the community; undoubtedly her noble efforts will meet their just reward; the cordial and hearty recognition and approval of an appreciative public.—Her rendering of the scenes in Macbeth was done with the nerve and mastery of a Kemble or a Cushman. Her fine physique, in which grace and power are harmoniously blended, wins the heart of the spectator at one glance, but the intellect developed in her wonderful performance takes captive also the understanding and judgment.

A cart known as the "Hard Debtor's Cart" has been established for the purpose of collecting bills of those who don't pay up. It is peculiar in its construction, and the collector calls upon his customers, sends in his bill and waits till the debtor pays up. A crowd collects to read the placards on the carts and to institute inquiries as to the personality of the sufferer. It is found very effective.—*Boston Sat. Gaz.*

When lovely woman, hooped in folly,
Grows more expansive every day,
And makes her husband melancholy,
To think what bills he'll have to pay:
When in the width of fashion swelling,
With air-balloons her skirt may vie,
The truth (what hinders Punch from telling)
Is, that she looks a perfect—Guy!
—*Punch.*

"THE ODDS MAKE THE DIFFERENCE." An attorney, about to make out a bill of costs, was requested by his client, a baker, to "make it as light as possible." "Ah!" replied the attorney, that's what you say to *your* foreman, but that's not the way I make *my* bread."

When two goats met on a bridge which was too narrow to allow either to pass or return, the goat which lay down, that the other might walk over it, was a finer gentleman than Lord Chesterfield.—*Cecil.*

Why does a door generally stand in the subjunctive mood? Because it is mostly wood, or should be.

Theodore Parker says that "a grain of corn is better than a diamond." Every barn-door fowl in the country would agree with him.

THE
BAY STATE RANGE.
COMBINING
ALL THE GOOD QUALITIES
—OF A—
RANGE AND STOVE.

The Subscriber invites the attention of the public to the BAY STATE RANGE, a new cooking apparatus of great capacity, having
TWO LARGE OVENS
AND
SIX BOILING PLACES.

The Ovens will bake SIXTEEN LARGE LOAVES OF BREAD AT ONE TIME—and are superior to any Stove Oven for Roasting Meats.

A Water Back can be added to the Range, with which a barrel of water can be kept boiling without any increase of fuel.

Wood or Coal may be used for fuel, the castings being of
DOUBLE THICKNESS,
will resist the action of a coal fire and the abuse of servants.

These Ranges have been in use in this city during the past year, and been found perfect in operation.

THE RANGE IS PERFECT IN ITSELF,
and can be set in a chimney or out in the room as is most convenient.

It will warm the coldest kitchen in the city, and an extra room if desired.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

The News.

AN OUTRAGE IN DOVER.—Last June a divorce was granted to the wife of Dr. Farrar, herself one of the most respectable ladies in Dover, and from one of the best families, and the custody of a child, four years old, was given to the mother. Dr. Farrar has since threatened to kill the mother and to obtain and kill the child, on which account the lady was in constant alarm. On Saturday evening—it being dark and rainy—he suddenly rushed into the house of the wife's mother, with whom she was living, and firing a revolver at her, caught the child from her arms and commenced a retreat. In the struggle the clothing was torn from the child, and the women followed, making a great outcry.—Upon the sidewalk Farrar fired a pistol at a passer-by who stopped to see what was going on, and fired again at the women following. A carriage with a second person in it, was in waiting for him near by, and he rapidly drove off toward Great Falls, carrying the child with him. Immediately an alarm was given, and the fast horses of Dover were on his track; but he has not been arrested. The excitement there was intense, and should he be taken he will probably be made an example long to be remembered.

On Sunday Mrs. Farrar's friends offered a reward of one hundred dollars for his arrest, and the Mayor of Dover has also offered a reward. He is described as about six feet high and slim, has long light curly hair, blue and deep-sunk eyes, and a florid complexion.

THE FILLIBUSTERS.—*New Orleans Oct.* 8.—The Fillibusters have arrived in the custody of the United States Marshal. Captains Maury, Fassaux and Scott, and Col. Anderson have been held to bail in three thousand dollars each to answer. The rest of the men were left at the barracks below the city, and have since decamped there being no guard there, the fillibusters having made the soldiers leave the steamer while coming up the river. They state that they were on a fishing party.

KANSAS. — *Leavenworth, Oct.* 7.—The Denver City express of the 23d has arrived with $9000 in gold, but no news of importance.

The adoption of the Wyandotte Constitution is rendered certain by the reception of news from the most important counties.—The majority in its favor will probably reach 4000.

FROM THE FAR WEST.—The election in Nevada Territory came off on the 7th ult. The constitution framed in July was adopted by about 400 majority, and a full Territorial ticket elected, headed by Isaac Roupe as Governor.

Victoria dates are to the 7th ult. The Colonist says that the U. S. troops on San Juan Island were throwing up a fortification on the summit of a hill below the Hudson Bay Company's station.

The Portland (Oregon) papers of the 10th ult. publish a reply of Gen. Harney to Gov. Douglas' letter of Aug. 30, in which he accepts Douglas' explanation as an apology for his past conduct, but evidently reposes no faith in the Governor's professions, and declines to withdraw his troops from San Juan until the pleasure of President Buchanan is known on the subject.

From the Journal.

MISCELLANEOUS POEMS.—The writer of the poem on "Sympathy" in our paper to-day, it is well known to most of our readers, has been almost deprived of his eyesight for many years, and subjected to that seclusion which his case requires. The pictures of life which were enjoyed and deeply imprinted in earlier years, have given vivacity to the effusions of his immagination in his hours of retirement, while looking only on the half closed volume of nature.

A few months since, on the suggestions of some gentlemen of good literary taste, Mr. Drown was induced to make a selection of about two hundred of his poems, for the purpose of giving them in book form to the public, and Messrs. Walker & Wise of Boston, have them now in press. They will make a handsome 12mo volume of 240 or 250 pages. His friends have subscribed at $1 per copy for a sufficient number of copies to meet the expense. Such copies as may be sold in addition will be for the direct personal benefit of the poet, who duly appreciates the *sympathy* of his friends, and "treasures up each kindly word or action ever done."

"The Poems," says the Boston Gazette, "have been written in darkness and gloom, but they are spiritually bright, and abound with beauties that the eye alone cannot see. We hope the friends of the author will exert themselves to give it a wide circulation."

For the Portsmouth Journal.

SYMPATHY.

How sweetly words of sympathy
Fall on the sufferer's ear,
Like silvery music heard at night,
On zephyrs floating near;
They gently calm the troubled breast,
And bid the tumult cease;
They wake responsive strains, most dear,
Which ever whisper peace.

True sympathy, like precious balm,
Dispels foreboding fear,
And bids the clouds of sadness flee,
With all their shadows drear;
It brings warm sunshine to the heart
Oppressed with bitter woes,
And soothes the troubled waters fast,
To sweet and calm repose.

It drives the cares of life away,
Or makes their burden less,
And brings to weary pilgrims oft
Some gleams of happiness.
Amid the hours of pain and gloom,
Tis like a star of night,
Which glistens in the dome above,
To make the darkness light.

I treasure up each kindly word,
Or action ever done,
As pictures bright to look upon
When loving friends have gone;
And gratefully within my breast
Shall fondest memories dwell,
Concerning those whose deeds have proved
Their generous feelings well.

While in these thorny paths I stay,
While journeying to my home,
May I never fail to often hear
An angel footstep come,
With words of cheer to soon beguile
A weary hour of pain,
And bid my drooping spirits rise,
And joy in hope again.

MORE NAVY OFFICERS.—The Secretary of the Navy has made arrangements for the reception of about forty midshipmen at the Naval Academy; and Members of Congress from the districts which have been the longest time without appointments, as far back as 1855, will be requested to make nominations of youths for admission, in accordance with the existing law.

Dr. C. P. Bronson's New Cures

—FOR—

Consumption, Liver Complaints, Dyspepsia, and all other Chronic Diseases arising from over-work, General Debility, or Nervous Prostration.

These new and successful preparations of Food for the Blood (based upon its analysis in HEALTH, which gives the true standard, and in different DISEASES, when we ascertain the deficiencies in each case and then supply them with the proper materials for making pure and healthy Blood,) are among the most important discoveries of the age. They are destined to produce a revolution in the treatment and cure of CHRONIC DISEASES. Having a perfect scientific foundation, they are far removed from the sphere of all Nostrums and Patent Medicines. Physicians of all schools are using these PREPARATIONS (not *Medicines*) with the most satisfactory results. They are taken by drops, not spoonfuls.

THEIR RANGE OF CURE:

CONSUMPTION, THROAT DISEASES, BRONCHITIS, COUGHS, COLDS, DYSPEPSIA, LIVER COMPLAINTS, HEADACHES, PALPITATION OF THE HEART, NEURALGIA, LOSS OF APPETITE, INABILITY TO SLEEP, DEPRESSION OF SPIRITS, IRREGULARITIES, and MALE AND FEMALE WEAKNESS, &c. In all cases of Chronic Complaints peculiar to FEMALES, these Preparations will be found invaluable.

THEIR PARTICULAR SPHERE.

It is not claimed that they will cure all diseases; but in those specified above, (as thousands can testify,) they are the most efficacious of any now known.

Be particular, in ordering, to mention which of the three Preparations are required. If for Consumption, &c., the first and third alternately, are best; if for Liver Complaints, &c, the 2d; or Dyspepsia, (when inveterate) the 2d and 3d in alternations, are more successful. In moderate cases, one will suffice.

There are three preparations, one for Consumption in all its various forms; one for Liver Complaints and their attendants (to which particular attention is called,) and one for Dyspepsia. Out of nearly two thousand strongly marked cases there have not been 20 failures.

From numerous testimonials we select the following:

A VERY INTERESTING CASE.

Mr. D. L. ELDER, (of this city,) is well known as one of the most hopeless cases of Consumption. Messrs. Horace Greeley and W. C. Bryant, (of the *Tribune* and *Evening Post*,) are familiar with the following facts and circumstances:

Mr. ELDER was actively engaged in the last Presidential campaign, and his intense labors, day and night, broke down his health, which had not been good for many years; this was followed by a severe cough and bleeding from the lungs, which continued down to last December, when he commenced using one of these Preparations.—For the previous two months he bled every day, sometimes quite profusely, and his cough was terrible. In a month's time he was able to be about through the city during all weathers, and in less than two months after beginning to use the remedy, he was engaged in canvassing the city, and was on his feet nearly all the time from 9 o'clock in the morning till four in the afternoon, conversing with hundreds of persons, and transacting a large amount of business. He is now as hearty a looking man as one in a thousand. His present residence is at 562 Hudson-street, New York.

Dr. Bronson can be consulted either by letter, addressed to Box 3326, P. O., or at the office of the General Agents from 9 to 12.

These Preparations can be obtained through any respectable Druggist in the United States or Canadas. Price $1 per Bottle, with full directions. All orders must be addressed to

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENCY VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. BECK BURRILL & HEMMENWAY, SOLE PROPRIETORS,

No. 6 Tremont Street,
(Two doors south of Court st.,) BOSTON.

Will be found at all Apothecaries and Family Stores in the country. o15 1y

JUST RECEIVED

A LARGE LOT OF

GOLD AND JET BRACELETS.

by A. L. BENNETT, 7 Congress St.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and is used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & Co.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of other persons who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 404 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest, well. PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, all thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. Its pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express, or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is prompt and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 d1y

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which lurk in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even when no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsparilla, but often no curative properties whatever. Acute bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly cspised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick wan the best aid there is for them, and they should have it.
All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and can say, *in confidence and truth,* of it, what we have never been able to say of any other medicine, never has IT NEVER HAS IT FAILED, IN A SINGLE INSTANCE, to EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest comendation of its manifold virtues. We speak, in *this matter, what we do know,* after ten years *experience, and pledge our reputation for all we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found within fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLED NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, WIND AND COLIC,
and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

WEDNESDAY, OCT. 11, 1859.

WILL SET ASIDE.—Mrs. S. S. Edwards, of Westboro, was accidently killed three months ago. She left property estimated to be worth $30,000, and her husband took out letters of administration thereon. Subsequently a will was discovered which appears to have been written by the lady herself. The Fitchburg Reveille states that the wishes of the testatrix are not very definitely expressed, except that she places the greater part of her property in the hands of Geo. W. Ela, Franklin B. Gale, William P. Tilden, and Frederick D. Huntington, to be applied by them for the education of needy youth of both sexes. The will was presented for probate but rejected, on the ground that there was no evidence of publication, that the two witnesses produced did not know whether or not the document was signed by Mrs. Edwards when they witnessed it, or whether the document presented to the Court was altogether the one they witnessed. The will is written on seperate half sheets of paper, and has no seal. Mr. Ela, a brother of the deceased, intends to appeal from the decision of the court.

☞ The latest news from Europe is from Liverpool, 28th September.

The repairs on the Great Eastern are going actively forward at Portland, but it is doubtful whether the ship could be got ready for sea during the month of Octh of October. The fitting and all matters connected with her sea-going equipments had been placed entirely in the hands of the Marine Department of the Board of Trade, and this it was supposed would increase the expected delay. It was thought probable that in a few days the ship would proceed to Southampton for convenience of receiving materials from London, and for the gratification of excursionists who continued to visit her by thousands.

The telegraph cable between Malta and Sicily had been successfully laid, and business had commenced upon it.

Earl Derby had carried out his threat to clean his Doon Estate in Ireland, so far as to have every tenant served with a formal notice to quit. The incentive, it will be remembered, was the difficulty experienced in tracing out a murderer, and the conviction that the tenantry threw impediments in the way of the discovery. The case attracted much attention.

The Zurich Conference drag their slow length along. It is understood that Austria will cede Lombardy to France, and France will then annex it to Sardinia. The English Government purpose to send troops to China to India,but not from England direct. The French Government will send 5000 men. The whereabouts of our American Minister is uncertain, one report stating that he is still on board the ship in the river, and another that he is in confinement at Pekin. The Bey of Tunis is dead.

☞ A very hot fire took place on Monday night, in Boston, loss about $50,000. It began about 11 o'clock, in the mahogany and rosewood establishment of William R. Carnes, 22 Canal and Merrimac streets.—The fire broke out in the third story. It continued to burn till 1 o'clock A. M., defying the most energetic efforts of the firemen, aided by two steam engines. The building is six stories in height, and contained a large stock of mahogany and rosewood, in the shape of veneer, board, plank and log. The two lower stories were not touched by the fire. The four upper ones were entirely burnt, with contents. The origin of the fire is not known.

☞ "A letter from Cassel in the Journal de Frankfort, mentions the sudden death of Mr. Habicht, a protestant minister of that town, from the puncture of a fly.—The wound was inflicted near the corner of his eye. A tumor formed, which was followed by erysipelas, and speedily caused death. It is presumed that the fly had been feeding on some dead carcass in a state of decomposition, and had imbibed a poisonous virus, which had entered the wound."

☞ The Mayor of Pittsburgh having been appealed to to enforce the observance of the Sabbath, and having stopped the running of the railway cars, last Sunday took in hand the carriages of the aristocracy.—Among the coachmen for whom warrants were issued on Monday, were those of Rev. Dr. Lyman, pastor of Trinity Church, and other clergymen, Chief Justice Lowrie of the Supreme Court, and quite a number of affluent citizens. All but the Chief Justice quietly paid the fine imposed.

☞ The Puritan Recorder (Calvinist) charges Henry Ward Beecher with having made, in a recent discourse, an "open avowal of the main principle of Universalism—which is, that all the Scriptural assertions of the sure and eternal punishment of the wicked fail to make us know that they will thus be punished."

FROM CALIFORNIA.—San Francisco papers of the 19th give a long account of the funeral of Senator Broderick, which took place on the 18th.

The remains were followed to the grave by about three thousand persons on foot, forming, with long lines of carriages, the largest and most impressive procession ever witnessed in San Francisco. The streets were densely thronged, and the buildings along the line of the procession were all draped in mourning.

FROM SANTA FE.—*St. Louis, Oct.* 10.—The Santa Fe mail of the 15th ult. reached Independence this morning. Messrs. Ottero, Porter, and Creashaw arrived, and confirm the attack on the mail party. The Indians took all the mules, provisions and clothing, but did not molest the mail, which was taken forward by the next going party. The incoming party found the dead bodies of four men, supposed to have been Pike Peakers. Two subsequent attacks on the outward bound mail caused the detention of the incoming party, owing to their waiting for the ox train behind them, having been apprised of the difficulties ahead by a Mexican. The combined strength of the two trains probably prevented another attack. A company of cavalry had been ordered to march immediately from Fort Riley to chastise the Indians.

☞ Steamer Vanderbilt, from New York for Norwich, on Monday P. M. run into a sloop, then went upon a rock, and damaged herself $10,000. Passengers all safe. She is said to have been racing.

NEW YORK, Oct. 10.—Steamer Thomas Powell, Saturday afternoon, while coming down the North River, ran into a small boat and sunk it. Four persons were in the boat, three were drowned.

Commodore Vanderbilt has bought the interest of Mr. Garrison in steamships Orizaba, Cortes, Uncle Sam and Sierra, on the Pacific side, for four hundred and fifty thousand dollars. These four added to their present number, give the new Atlantic and Pacific Steamship Company seventeen steamers wherewith to carry on the opposition to the Pacific mail.

☞ At the Democratic State Convention held in Concord, on Tuesday, Hon. Asa P. Cate was nominated as candidate for Governor, and Fred. Vose for Railroad Commissioner.

The N. Y. Tribune says the "News wants to know if it is true that Col. Fremont has written a letter declaring that he is not and will not be a candidate for President in 1860. We can assure the News that it is *not* true. Col. F. is giving his whole time and energies to his own private affairs, and is writing no letters at all about the Presidency. We believe we may further assure the News that he *will* write none, nor take any steps intended to influence in any way the action of the Republican National Convention. Presidential letter-writing is not his speciality; he leaves that amusement for those who have a taste for knocking out their brains in that particular way."

SKINFLINT—A man who had made a fortune by industry and close economy, in a retail business, at length retired from trade and used to loan money on interest. One day, in mid summer, a friend hapened to say to him: "How pleasant it is to have such long bright days!"

"Why y-e-s," replied he, "but these long days the interest comes in so slow!"

☞ Ginger is becoming a favorite garden plant in the southern States, it being discovered to grow luxuriantly. Scarcely a garden will be found, ere many years, that will not have its "ginger bed." The green bulb makes the best of preserves.

The pulse of children is 180 per minute; at puberty is 80; and at 60, only 60; Dr. Lettom ascribes health and wealth to water; and happiness to small beer; and all diseases and crime to the use of spirits.

☞ Rev. James Hobart of Berlin, 94 years of age, walked from Berlin to Washington, a distance of fifteen miles, on Friday, the 3d inst., to preach the following Sabbath.

"Gentlemen take a look at my worthy opponent there. A beautiful specimen, truly, to set himself up as a pattern for this honorable assembly. Why gentlemen, I could pick my *teeth* with his coat-tails."—*Illinois Legislative Debates.*

On Saturday a fellow was taken to Rochester from Albion, en route for the penitentiary, in which institution he is to be confined for six months. His offense was stealing some rings and jewelry from the dead body of a lady—a victim of the late bridge disaster.

Queen Elizabeth, of England, had at one time eighty wigs. It was the fashion of the time to wear different colored false hair.

☞ The Martin, which generally leaves South Carolina early in August, remained there this year until towards the end of the month. From this the wise ones argue late seasons.

Why are young ladies at the breaking up of a party like *arrows?* Because they can't go off without a *beau*, and are in a *quiver* till they get one.

☞ A Mobile paper says that negro laborers are in great demand in that city, and that deck hands on the rivers are getting sixty to seventy dollars per month.

There is no blessing like that of health, particularly when you are sick.

☞ Punch says that Rarey, the horse tamer, is, 'The Philosopher of the Stable mind.

If ladies are not in favor of intemperance why do they encourage it? Why do they not firmly resolve never to associate with those who use intoxicating liquors? The cause of temperance would be more prosperous and young tipplers would soon decrease if every lady would adopt such a resolution. Better die an old maid than be joined first to a tippler and at last to a drunken sot.—*Templars' Companion.*

George Colman, getting out of a hackney coach one night, gave the driver a shilling. "This is a bad shilling," said Jarvey.—"Then it is all right," said George, with his inimitable chuckle, "yours is a bad coach."

MARRIED.

In this city, on Tuesday morning, by Rev. Dr. Lamson, Mr. DANIEL W. JONES to Miss EMMA CLEAVES, adopted daughter of Hon. Saml. Cleaves.

In New Durham, Mr. Gilman S. Ellis of Alton, to Miss Caroline M. Randall of New Durham.

DIED.

In Newburyport, Mrs. Hannah Dennis, widow of the late Capt. Amos Dennis, aged 76.

☞ The funeral of Mr. Daniel Marden will take place on Thursday morning, at 10 o'clock, from his late residence, No. 2 Ann St.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE, EMPIRE STATE, WHITE MOUNTAIN, REPUBLIC, BANNER, &c., with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

The Calebrated Magee Patent Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;

BOX AND CYLINDER do.

SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction.

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally.

TIN, SHEET IRON & COPPER WARE, manufactured to order.

☞ Prices as low as at any other establishment in this vicinity, and satisfaction guarantied in all cases.

Special Notices.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 26, 1858

Messrs. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,

JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Prepared by S. W. FOWLE & CO., BOSTON. and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Billious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

THE SUNDAY SCHOOL SOCIETY [Unitarian] will meet in this city this day.

The first meeting will be at the Chapel of the South Parish, on Court street, at 11 o'clock A. M., and will be for organization only.

This meeting will then be adjourned to meet in the Stone Church, at 2 1-2 P.M., at which time there will be discussions on various subjects intended to promote the welfare of Sunday Schools.

In the evening Rev. Dr. Thompson, of Jamaica Plain, will deliver an address before the Association. Services to commence at 7 1-2 o'clock.

On Thursday there will be a conference and prayer meeting at the Chapel, at 8 1-2 A. M., and the discussions will be continued in the Church at 9 1-2 A. M.

The meetings are open to all interested in the religious improvement of the young.

☞ The Lyceum opened very successfully, on Tuesday evening—with a highly respectable and appreciative auditory, rather larger than has been usual on similar occasions here of late. Mr. Lang never plays without playing well; and Mr. King of course did not fail to interest his hearers. This lecture, which was certainly one of his most original and striking efforts, we regard as among the best.

☞ The Railroad and Water Controversy, as between corporations, is one in which we have no direct interest. The communication this morning signed "Merrimack," is from a responsible writer, and expresses his views. We insert it, as we do other advertisements, without endorsement or protest.

By order of the author of that article, who wishes his statements put thoroughly before the public, we issue a considerable number of extra copies of the Daily Chronicle this morning, and have endeavored that every house and store should be furnished with a copy. We will inform any of our citizens not now on either of our lists, that we will "keep doing so" every Day for a year for $4, or once a Week for only $1. Send in your names.

MRS. MACREADY.—The following flattering notice will give our readers some idea of the interest that our talented country-woman has created among our British neighbors:

Mrs. Macready gave her first dramatic recitation at the Temperance Hall last night. The occasion was honored by the presence of His Excellency the Lieutenant Governor and lady, the Mayor, and the *elite* of our city generally. We went prepared to expect good, even tasteful recitation; great was our surprise to find ourselves once more in the presence of an accomplished *artiste*. The audience in general entered the Hall entered the Hall with no higher anticipations than ourselves, and the success of the performance was correspondingly great.—To the most perfect self-possession, Mrs. Macready unites a good delivery, great compass and flexibility of voice, with an action never wanting in energy, but always controlled by good taste. The versatility of her talent was well exhibited in passing so rapidly from the criminal ambition, the stern resolve of Lady Macbeth, to the volatile gaiety, now caressing, now satirical, of Lady Teazle, and all without the aid of stage machinery, or the usual advantages of costume.

PEOPLE'S LYCEUM FOR 1859–'60.

Tickets for the course of Ten Evenings, $1. Evening Tickets, 25 cents.

Rev. J. C. FLETCHER, Tuesday, Oct. 18. Lecture on the "Land of Tell," illustrated with appropriate music.

Hon. HAMPDEN CUTTS, Tuesday, Oct. 25. Readings from Shakespeare and others.

GILMORE'S SERENADE BAND will give one of their splendid Concerts.

Dr. WINDSHIP will also lecture and illustrate "Physical Education."

Rev. J. G. Adams will lecture.

Albert Laighton will read a new Poem.

And there will be three other lectures or concerts, (ten in all) of an equally high order with those named.

☞ Tickets may be had at Preston's, N. P. Thacher's, J. H. Thacher's, and the Door.

Doors open at half-past 6—Music at 7—Lecture at half-past 7.

JOSEPH M. EDMONDS,
FRANK W. MILLER.

☞ The Original New Orleans and Metropolitan Burlesque Opera Troupe, consisting of four star delineators of Ethiopian characters, and a Brass Band of ten talented musicians, will give two concerts at the Temple, on Wednesday and Thursday evenings, Oct. 12th and 13th. It will be remembered that this Company have been here several times, and have always given great satisfaction. The Brass Band will play in front of the Hall each evening.

SWEET POTATOES. — On board the schooner Gazelle, at The Spring, in rear of Messrs. Robinsons' store, is a cargo of about 1300 bushels of first quality Sweet Potatoes, direct from Virginia. They are in good order, and are selling rapidly at the low price of 80 cents per bushel, or at that rate for even a smaller quantity. A prime article, at a cheap rate.

For the Chronicle.

C. & P. RAILROAD MATTERS.

CONCORD, Oct. 10.

Messrs. Editors:—A writer in the last number of the Gazette, referring to the recent election of directors of the Concord & Portsmouth Railroad, says "that the most noticeable circumstance in the constitution of the new board is the fact that but one of the gentlemen composing it resides in Portsmouth, and the reason of the change is not very apparent." As a foreign Stockholder, I propose to enlighten him.

It will be remembered that this coporation was formed by the "Bond-holders of the Portsmouth & Concord Railroad," or so many of them as would comply with the condition of the organization. The capital stock was placed at $250,000, say 2500 shares, at $100 each; but only 1968 shares were taken by the bond-holders, who surrendered their bonds and coupons, at 50c on a dollar, and paid $15 per share pr agreement to pay prior claims held by Directors of the old corporation, which they demanded in addition to 315 shares of the Stock of the new corporation, given them by paying their the cash assessment, before they would surrender their "iron grasp" upon the property of the old company, although the mortgage which secured the bonds, was represented by themas a first mortgage bond.—Many holders of Bonds, from inability to pay the assessment required to pay the Directors, were compelled to sacrifice the entire debt. Others lost the right from neglect, and there is now no alternative for them, except they look to the "trustees" of the Bonds, who may yet be compelled in law to account for their stewardship for the two years and four months and a half which they held and operated the road for the account of the bond-holders. They have rendered no account except to the Directors who put them in power, and have claimed and received all the earnings of the Road while under their management.

The history of the operations of the three principal directors in managing the affairs of the corporation are too well known to the victimized holders of preferred and transportation stock, and to the unfortunate widows and orphans who were led to invest on their representation, in the supposed first mortgage bonds, without needing any further comments from me. Suffice it to say, that after the loss of original subscription, prefered stock and transportation stock, a few of the victims of these Directors' gross mismanagement were fortunate enough to save something by subscribing to a new Company, with the Bonds palmed off upon them as first mortgage, with the distinct understanding that it should be under competent and disinterested management. But not a single dollar would have been secured from all the various investments put upon the citizens of Portsmouth by the managing directors, had not "Foreign" Stockholders came to the rescue. The records of the Court will show this fact.

By reference to the Stock Subscription book, I find the subscribers as follows:

Portsmouth victims	389 sh.
Directors and their associates	85
Victims of New Market	65
" Concord	85
" Raymond, Rye, Epping	60
" Other places in State	60
Foreign victims	1230
	1974
Given to managers of Ports. & Concord Road, above referred to	315
Making whole amount issued	2289 sh.

From the above figures, the author of the Gazette article will perceive that a very large majority of the Stock is owned out of Portsmouth, and a clear majority out of the State, and that consequently the stockholders out of Portsmouth had a right at the annual meeting to turn out of power parties obnoxious to them, and who elected themselves into office at the annual meeting last year against the express wishes of a majority of the stockholders who came to the meeting, but were unable to vote by reason of the laws of the State regarding proxies, of which they had not been informed before the meeting. The late party in power would not then listen to the majority, but taking undue advantage, installed themselves into office against the most kind admonitions of a Boston stockholders. These Directors then boldly declared their principles that "might made right." The stockholders are much indebted to the newly elected President for the bold stand which he took against the self-elected directors in preventing their depleting the Treasury to satisfy an illegal demand made against the corporation, in which they had large personal interest.

It is pretty certain that the obnoxious Three could not have elected themselves last year, even with the 315 shares of stock given them, had not some of the Portsmouth stockholders, spaniel-like, fawned and licked the hand that had lashed them so repeatedly.

It was from this circumstance that the "Foreign Stockholders" deemed it prudent this year to come with power sufficient to control their own property. They had no other idea in view, and the writer in the Gazette may rest assured that they have no design upon him, and that they will adopt no policy except such as will be for the best interest of Portsmouth.

By the stock subscription book, as referred to above, it will be perceived that the rich directors were very shy about holding many of the bonds, which they had so often recommended to "their friends" as first-class security. The natural question is, Did they invest in them knowing they were not "first mortgage," or did they receive them for services, or are they a part of the *lot "left over"* after the trade made with Messrs. Davis & Brooks, New York, for the "Sandusky iron" bought with the Bonds, and sold for cash to Peter Hayden of Columbus, and Worthington & Co. of Cincinnati? Who knows? Where is the old Bond Book?

The writer in the Gazette says, further—"The directors, in addition to their personal labors, have cheerfully borne their full share of the losses." This may apply to some of the directors, but it certainly cannot apply to the managing part of the board. If I am mistaken in this statement, it would give me great pleasure to make the correction.

From the figures I have before me, it appears they must have made quite a profitable thing in the winding up of the business, besides the large sums of money made upon land investment along the line of the road at the time of its location, and their handsome operations in ice, wood, sand and granite at the expense of the corporation.

Their last published statement of the affairs of the road, made to the stockholders, June, 1856, show memoranda of debts for which the directors deemed them responsible, as follows, viz.:

For notes, with security,	$23,353.15
Note with liability of Directors,	44,010.00
Pretended individual liabilities,	2,653.30
Making a total of	70,016.45

Now let us see how much they have received from their servants, "the Trustees," and how much from the new corporation—and then we shall easily see how the account stands:

To the Trustees, Messrs. Emery, Tullock and White for nett earnings,		
1st year, say	$22,100	
2d year,	19,650	
4½ months,	7,000	
		48,750
From new corporation cash to pay mortgage,		20,806,50
315 shares stock in new company, valued at $80 each,	$25,200	
Less assessment,	4,725	
		20,475
		90,026,25
Leaving a clear surplus as profit of		20,010.95

A pretty good business truly for "a peanut" railroad. If my figures of the receipts from the Trustees are not correct, will the Treasurer please publish a full and accurate statement? as I have other reasons more than mere curiosity for knowing.

The nett earnings of the road for year ending May, 1855, were $26,390.50—deducting salaries and commissions to President and directors; consequently my figures for the years afterwards are more than probably too low. But they can easily be corrected if the Trustees will publish a full statement, which is much wanted at this time by parties interested, If the Trustees have not time to make up the account, will not the Directors of the Portsmouth & Concord Railroad Co. please render a full and final acccount of their valuable services, so that the stockholders can see how much they are indebted, or what may be coming to them upon a final adjudication of all accounts.

In relation to the notice respecting the controversy between the proprietors of the Portsmouth Aqueduct and the Concord & Portsmouth Railroad Co., I am fully satisfied that the gentleman is not well posted upon the subject matter, and I would most respectfully recommend him and all others interested to go upon the ground and look for themselves.—The facts of the case are that the Railroad Co. have a full warrantee deed to a piece of land adjoining the track, upon which is a boiling spring of great value, and which has not been used by the Company for the reason that the extreme poverty of the Corporation did not warrant the expense of bringing the water to the depot.

The President of the Aqueduct Co. wished to purchase the spring of the corporation some months ago, and made an offer to the Board (of which he also was a Director,) of the *very liberal* sum of $25.—It was refused. But a sum was fixed which was thought would be satisfactory, viz., three hundred dollars per annum rental.—Nothing, however, was heard upon the subject from the Aqueduct Co., and the matter was dropped. In August last the Aqueduct Co. bought an acre of ground directly opposite the spring, and commenced digging a reservoir for the avowed object of taking the R. R. property by force.

Notice was at once given to the President of the Aqueduct Co. that the Railroad would hold that corporation responsible for damages caused by their unwarrantable proceedings, and that officer replied that the Co. had a right to dig on their own ground, and they intended to do so. Believing it a poor rule that would not work both ways, measures were immediately taken to protect the property of the Railroad by digging upon the grounds owned by the Railroad Co., and the result has been most successful and satisfactory. There is no spring, or even a shadow of one, upon their grounds, and they knew it when they commenced the "reservoir" on the land purchased for the express purpose of taking the R. R.'s property without consideration. The R. R. Co. want the water for their own purposes, and preparations are now being made to bring it to the depot at Portsmouth. The Aqueduct Co. have been offered any surplus water at a fair price; but having declined the liberal offer of the Railroad corporation, are not in a position to complain of their operations. This water is much wanted in Portsmouth, and, doubtless, arrangements will soon be completed for its introduction into the city. One thing is certain: the stockholders of the Concord & Portsmouth Railroad are able to protect their rights, and will do so at all hazards.

MERRIMACK.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, UNCONTINUED 15 YEARS.
76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Boston, Jan. 1, 1859. R. H. EDDY.

Dr. C. P. Bronson's New Cures
—FOR—
Consumption, Liver Complaints, Dyspepsia, and all other Chronic Diseases arising from over-use, General Debility, or Nervous Prostration.

These new and successful preparations of Food for the Blood (based upon its analysis in HEALTH, which gives the true standard, and in different DISEASES, when we ascertain the deficiencies in each case and then supply them with the proper materials for making pure and healthy Blood,) are among the most important discoveries of the age. They are destined to produce a revolution in the treatment and cure of CHRONIC DISEASES. Having a perfect scientific foundation, they are far removed from the sphere of all Nostrums and Patent Medicines. Physicians of all schools are using these PREPARATIONS (not *Medicines*) with the most satisfactory results. They are taken by drops, not spoonfuls.

THEIR RANGE OF CURE:

CONSUMPTION, THROAT DISEASES, BRONCHITIS, COUGHS, COLDS, DYSPEPSIA, LIVER COMPLAINTS, HEADACHES, PALPITATION OF THE HEART, NEURALGIA, LOSS OF APPETITE, INABILITY TO SLEEP, DEPRESSION OF SPIRITS, IRREGULARITIES, and MALE AND FEMALE WEAKNESS, &c. In all cases of Chronic Complaints peculiar to FEMALES, these Preparations will be found invaluable.

THEIR PARTICULAR SPHERE.

It is not claimed that they will cure all diseases; but in those specified above, (as thousands can testify,) they are the most efficacious of any now known.

Be particular, in ordering, to mention which of the three Preparations are required. If for Consumption, &c., the first and third alternately, are best; if for Liver Complaints, &c, the 2d; or Dyspepsia, (when inveterate) the 2d and 3d in alternation, are more successful. In moderate cases, *one* will suffice.

There are three preparations, one for Consumption in all its various forms; one for Liver Complaints and their attendants; (to which particular attention is called,) and one for Dyspepsia. Out of nearly two thousand strongly marked cases there have not been 20 failures.

From numerous testimonials we select the following:

A VERY INTERESTING CASE.

Mr. D. L. ELDER, (of this city,) is well known as one of the most hopeless cases of Consumption. Messrs. Horace Greeley and W. C. Bryant, (of the *Tribune* and *Post*,) are familiar with the following facts and circumstances:

Mr. ELDER was actively engaged in the last Presidential campaign, and his intense labors, day and night, broke down his health, which had not been good for many years; this was followed by a severe cough and bleeding from the lungs, which continued down to last December, when he commenced using one of these Preparations.—For the previous two months he bled every day, sometimes quite profusely, and his cough was terrible. In a month's time he was able to be about through the city during all weathers, and in less than two months after beginning to use the remedy, he was engaged in canvassing the city, and was on his feet nearly all the time from 9 o'clock in the morning till four in the afternoon, conversing with hundreds of persons, and transacting a large amount of business. He is now as hearty a looking man as one in a thousand. His present residence is at 562 Hudson-street, New York.

Dr. Bronson can be consulted either by letter, addressed to Box 3398, P. O., or at the office of the General Agents from 9 to 12.

These Preparations can be obtained through any respectable Druggist in the United States or Canadas. Price $1 per Bottle, with full directions. All orders must be addressed to

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest since they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in these points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over a 1 others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Patent Indelible Pencil,

FOR MARKING CLOTHING.
Patented May 31, 1859.

This article has the following claims to public attention: It can be used with greater ease in writing upon all kinds of fabrics; it will not clog the ink; will sharpen well without breaking, in being used as a Pencil; one box of pencils will mark THREE THOUSAND articles.

Many persons have found it difficult to procure an article that will be permanent—they will find this all they can desire. It does not cost one-third as much as ink.

The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of House keepers. This pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked, and it will leave an indelible mark thereupon.—[Scientific American, June 11, 1859.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY OR THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill *says*: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure*. My *facsimile* signature is upon every bottle."

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck. BURRILL & HUNTING, SOLE PROPRIETORS.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & Co.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and find that it have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use you remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GEMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

One dose often repeated, is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. Its pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some opprobious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 ely

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is repaired to cure. It is believed that such a remedy is wanted by those who suffer from strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA—OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly cpised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,
LOWELL, MASS.
PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we do not think it can assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costivenesss, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick wan the best aid there is for them, and they should have it.
All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine,—NEVER HAS IT FAILED IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know a dissatisfaction by any one who used it. On the contrary, all are delighted to speak in terms of highest commendation of its medicinal effects and medical virtues. We speak, in this matter, "*what we do know,*" after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, WIND AND COLIC.
and overcome convulsions, which, if not speedily remedied, end in death. We believe of all the REMEDY IN THE WORLD that will SOOTHE MITIGATE AND HEAL THE SUFFERING CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper Sold by Druggists throughout the world.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, OCT. 13, 1859.

N. H. DEMOCRATIC CONVENTION.

The New Hampshire State Convention of the Democratic party met at Concord on Tuesday, and for the third time nominated Hon. Asa P. Cate, of Northfield, for Governor. The Boston Post says:

"The convention was a very full one, and its proceedings were marked in an eminent degree by *enthusiasm* and *harmony*."

Hon. Walter Harriman was president of the Convention, and positively refused to be a candidate for the nomination as Governor. In his address he favored popular sovereignty, and said "the nominees of the Charleston Convention were as sure to be elected as the sun to rise."

The ballots for Governor were as follows: whole number 224; necessary to a choice 113. Jas. S. Cheney 94, Asa P. Cate 102, scattering 28—no choice.

Second ballot—whole number 225; necessary to a choice 113. There were three scattering. James S. Cheney had 99, Asa P. Cate 123.

After the balloting, Mr. Williams, from the Committee on Resolutions, announced his readiness to report, whereupon

Mr. Alexander of Portsmouth moved that the Convention adjourn.

Objection was made to this motion, when Mr. Alexander stated that the resolutions about to be presented could not be adopted without a serious fight.

After a little excitement, during which an appeal to the chair was taken, the motion to adjourn did not prevail.

The Committee on Resolutions then reported, and it was brief in its report, giving one condemning the want of sincerity in Republican professions and practice; one commending President Buchanan for his efforts to suppress fillibusterism, and one reaffirming the Cincinnati platform of 1856, and slightly favoring *popular sovereignty*.

The first resolution was:

Resolved, That we re-affirm our steadfast adherence to the Cincinnati platform—to the great principle of popular sovereignty, subject only to the limits of the Constitution and to the wise and salutary rule of non-intervention by Congress in the local and domestic affairs of the States and Territories.

Upon the question of adopting the resolutions, Mr. Alexander of Portsmouth took the floor in opposition to their adoption.—He did not believe the resolutions expressed the opinions of even a minority of the Democrats of the State. The first resolution was adroitly drawn; it was drawn as a swindle would be drawn, with a back-door out of which to creep. He moved an amendment to the first resolution by adding the following:

Resolved, That the Constitution of this Republic is neither a pro-slavery nor an anti-slavery instrument, and recognizes slavery as a local institution existing in certain States "under the laws thereof," and we repudiate the undemocratic doctrine that slavery exists in the Territories beyond the power of the people to modify, limit, or exclude the same.

The gentleman who drew the first resolution reported by the Committee, declared that it was his intention to express the doctrine of popular sovereignty concisely and explicitly, without unnecessary verbiage.

Mr. Morrison of Manchester followed in similar language, characterizing the amendment as superfluous. The amendment was rejected.

The Atlas report says:—

The resolutions as originally reported were then adopted, amid considerable confusion. Bets of two to one, were offered that Asa P. Cate would fall behind his vote of last year one thousand votes. Shouts of "dead horse" were heard through the hall, and other remarks that showed the dissatisfaction of the Cheney men. An attempt was made to make the nomination unanimous, but it was unsuccessful.

The Traveller's report says:—

There was marked opposition to the tone of the resolutions, and efforts were make to defeat them, but they were adopted with many *noes* ringing against them, and the Convention was by no means harmonious in feeling or action.

☞ On Sunday afternoon last, in Manchester, N. H., at the close of his discourse, Rev. B. M. Tillotson reviewed the troubles of the society, and then resigned his office as pastor of the Lowell St. Universalist Church. The troubles grew out of certain anonymous letters, which made a great talk in Manchester, and which were attributed to Mr. T. His friends are to hold meetings in a hall, for the present.

☞ Admiral Hope, lately defeated by the Chinese, commanded the frigate Endymion, when in 1815, that vessel with three others, captured the United States frigate President. He fought bravely in that engagement, but his ship was much disabled by the cannon of the President.

☞ The Market Day and Horticultural Exhibition, at Newburyport, on Tuesday, was a marked success in every particular, and the Herald says, may be looked upon as an inauguration of a new and desirable feature in the policy of the agriculturists for the future time.

THE U. S. SUPREME COURT.—The territorial controversy, as a political issue, is disposed of by a writer in the Journal of Commerce, who shows to his *cost* satisfaction that the President and Congress could exercise no authority over the matter in controversy, and then says:

By whom, then, can this disputed question be settled? The answer is a plain one. It can be finally settled by the Supreme Court of the United States, by the judiciary, constituted to settle ALL legal questions. It being a strict legal question, no other tribunal has any power finally to settle it. And when settled by the Court, the question should be considered at rest.—Arguments as now presented are addressed to no such tribunal. They are directed to the tribunal of party *opinion*, which, on whatever side it may preponderate, can have *no influence* on the tribunal established by the Constitution to settle and *finally* determine the validity or invalidity of laws claimed to be in repugnance to the Constitution of the United States.

Is it true that party opinion has nothing to do with that Court? and no *influence* over it? No, not a word of truth in it.—The opinion and decision of the famous Dred Scott case might just as well have been given a year before it was given—but it was *postponed* to get the election of President—and if that election had gone the other way, it is quite possible the case might also have gone the other way.

The chief justice got his place, which he holds for life, by an ingenious plea for an illegal act.

Courts are not such *immutable* things as to make all their decisions *final*. On the contrary, the doctors of laws differ as widely in expounding the civil law, as the doctors in divinity do in expounding the gospel. And the judges, to say the last, are no more infallible than the preachers.

Judge Jeffries and Justice Dogberry, Judge Terry and Judge Stump, may decide cases—but better judges don't take them as precedents.

☞ The Manchester Union Democrat earnestly exhorts all democratic conventions in New Hampshire to "keep the peace"—says, "we have no anxiety whatever in regard to the nominations," and might safely say there is no great danger of the nominees being elected. The paper, however, does not say that, but it does say:

We are much more likely to say too much, or too little, in our resolutions. Still, there may be some danger that *abstractions* may be obtruded, to the detriment of the party. If we entertain any, we shall not be very tenacious in regard to their treatment; and if our friend of the Portsmouth Gazette has a few, we trust he will be equally obliging. Let us *all go* for "popular sovereignty;" and if we are not *agreed* as to its precise *meaning*, we are *content* to take the definition of the Supreme Court, if, indeed, a definition shall ever become necessary.

That is to say, in plain English, popular sovereignty is a clap-trap, abstraction, humbug—let us *say* we believe it, and *then* let us ask the Supreme Court what it means!

They will answer, popular sovereignty means the power of a white man to enslave a negro, who has no rights—and "*we are content*" to take their definition.

Uncle Toby don't make this caricature—the Union Democrat makes it—he only invites the people to look at it.

HANDSOME ACT HANDSOMELY DONE! The Journal of Agriculture says that, on the second day of the firemen's muster at Manchester, Hon. Daniel C. Baker and James N. Jewett of Lynn, and Edmond Chase of Fall River, met Moses A. Cartland of Weare, and quietly placed in his hand a purse containing *seven hundred dollars*, and asked him to accept it as a token of regard and remembrance from a few of his old pupils, at the Friends' School in Providence and at Clinton Ground.

☞ The Washington correspondent of the New York Herald says Judge Douglas is preparing a reply to Attorney General Black's article on popular sovereignty. It is stated that the Harpers have been overrun with articles on the subject from different "distinguished politicians," but that they haven't yet had time to peruse the manuscripts.

NATIONAL HORSE FAIR AT BOSTON.—Tuesday was the first day of the two weeks sport at the Agricultural Fair Grounds on Harrison avenue. The two races excited considerable interest, and were witnessed by about 2000 spectators. Pilot beat Miller's Damsel in 2:32, 2:32, 2:31.

☞ The New York Democrat (German) having published a portrait and eulogy of Mayor Wood, says, in defending itself from the charge of recreancy, that the publication was an advertising job, ordered by the Mayor himself, who agreed to pay fifty dollars for it.

☞ When Paul said to Timothy, "Let the deacons be the *husbands of one wife*," did he intend they should divide one woman between them? The Bath Times suggests that the morality of this advice should be looked after.

☞ The Wilmington, Del., Republican ridicules the statement of the Philadelphia papers concerning the water gas experiment. It says it was a decided failure; gave a very poor light, and emitted a horrible odor.

EDUCATION doesn't consist wholly in learning a few or many lessons from books, but in knowing how to develop the entire powers and capabilities of man or beast. A reporter at a recent Fair says, speaking of the beautiful stallions, Ethan Allen and Draco:—

The horses of the turf were kept carefully covered. No barber in Boston champoos his customers with more care and attention than is bestowed on these horses. Fair maidens take pride and pleasure in arranging their hair; but no maiden bestows more attention upon her raven locks, than Ethan Allen receives at the hand of his groom. I saw "Draco's" hoofs scraped as clean as any particular old bachelor scrapes his finger nails. I venture the assertion that no mortal in New England has attentions equal to those bestowed on the fast trotting horse Ethan Allen.

Does any one ask if a horse is better than a man? The only reply will be that it pays. But here arises an important consideration for man. If vigor, nerve and vitality are dependant on careful grooming in horse training, why not in man training.—The human race have yet to learn that frequent bathing, rubbing, regular feed, temperance in all things, are the conditions of physical development. When shall we learn to treat ourselves as well as we do our horses?

In respect to marriage, experience of conjugal life seems to be of little value in making a wise choice. The widower runs as much risk as the bachelor; and the shrewed widow makes as bad a bargain as the verdant damsel of sixteen. The fact that "Love is a blind deity," doesn't explain the problem—without adding that selfishness is blind also, and frequently deaf besides. Looking too sharply after one's interest, is the very way not to discern where it lies—and it is no novel thing to see people who are so discreet that they can never be wise.—*Post.*

☞ The Bishop of London has closed the Puseyite Church where the congregations have recently been so riotous.

☞ Hon. Charles H. Peaslee, formerly member of Congress from N. H., and lately collector of the Boston Custom House, is about to remove to Minnesota, and take up his residence in St. Paul.

There is a liberality which is the wisest economy, and a saving thrift that is wasteful.

☞ The Board of Mayor and Aldermen at Manchester have refused Joe Pentland's Circus a license to exhibit in that city. A fruit of the gamblers' (firemen's) riot, no doubt.

When some one was lamenting Foot's unlucky fate in being kicked in Dublin, Johnson said he was glad of it. "He is rising in the world," added he; "when he was in England no one thought it worth their while to kick him."

GEORGIA ELECTION.—Brown's majority for Governor of Georgia is 24,000.

☞ Gustavus F. Hall, of Boston recently excited the admiration of the citizens of Naples, by rescuing a number of females from a burning building, into which no one else dared venture.

☞ A farce has been got out in Portland called "Waiting for the Great Eastern."

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids. It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 26, 1858

MESSRS. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen.—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours, JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Prepared by S. W. FOWLE & CO., BOSTON. and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Billious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn case. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq. Weeks & Potter, Boston, General Agents for the New England States.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

☞ The Sunday School Convention, at the Unitarian Sunday School Room on Wednesday, was organized by choosing

Albert Fearing, of Boston, President.

Rev. Warren H. Cudworth, of East Boston, Secretary.

Geo. W. Fox, of Boston, Treasurer.

The report of the Secretary recommended holding the Sunday School exercises in place of the usual afternoon sermon, giving reasons for the change:—and exhibited much information and gave many valuable suggestions relating to Sunday schools.

The discussions in the afternoon were held in the Stone Church, where a good congregation were in attendance, interested in the remarks of several gentlemen, among whom were Mr. Gangooly, the converted Brahmin.

The address in the evening, by Rev. Dr. Thompson, was an able production, and was attended by a large audience.

On Thursday there will be a conference and prayer meeting at the Chapel, at 8 1-2 A. M., and the discussions will be continued in the Church at 9 1-2 A. M.

The meetings are open to all interested in the religious improvement of the young.

☞ We understand that J. C. Gangooly, of Calcutta, a Brahmin of the highest caste, and a convert to Christianity, who is now in this country preparing himself as a christian missionary, will speak at the Sunday School Convention at the Stone Church, this forenoon.

☞ Elder Munger will preach at the Advent Chapel this (Thursday) evening. Friends invited.

☞ The excursion to Concord, on Tuesday, was a complete success. About four cars full left the C. & P. Depot in this city, and large delegations joined them at the way stations, including many from Great Falls. They report a grand time. The affair was gotten up under the auspices and for the benefit of the new Brodhead Methodist Society, and we hope will net them something handsome.

☞ The New Orleans and Metropolitan Burlesque Opera Troupe gave an excellent Ethiopian Concert last evening, and perform again to-night. All lovers of the Nigga songs should hear and see them. Their Brass Band did some spirited playing at the Concert, as well as in the street on Tuesday forenoon, and in front of the Temple at the opening of the doors.

Police Court, Oct. 10.—Before Justice Odell.—John Collins plead guilty to the charge of being unlawfully drunk with force and arms in Pleasant street, and was fined $3; costs 3.09—which he paid.

☞ In locating the school masters, the other day, Rev. Samuel Hoyt was mentioned as teacher of the Woodbury School. He is not the teacher of that school, but is engaged to keep the Plains school. Mr. A. C. Hoyt is the teacher of the Woodbury school.

Mrs. Macready in the "Merchant of Venice."—The rendering without the aid of book or prompter, the entire of this great creation of Shakespeare's will be only equalled by the ability displayed in the impersonation of all the different characters in this play. It will indeed be a gigantic feat, both of memory and dramatic talent; but from the high order of talent already witnessed by our citizens in the efforts of this talented lady on her previous visits here, an entertainment of the deepest interest may be safely counted on. The St. John Globe—critical in such matters—thus speaks of Mrs. Macready in this play.

Mrs. Macready read "The Merchant of Venice" at the Institute on Thursday evening last. Thursday was the most stormy day of the season, notwithstanding which Mrs. Macready had a good house. The audience listened to her recitations with the greatest attention during the whole time she was reading; one might have heard a pin drop upon the floor. Mrs. Macready thoroughly understands the play, and she read it with great power. She ran from character to character with the rapidity of lightning, yet never blending them. When representing Shylock, she was Shylock to the very life, and at a flash she gave forth the grinning tones and polished manner of Portia. The reading of this play was one of the highest triumphs of her genius.

☞ "The Ægis," is the title of a neat paper, issued by the students of Dartmouth College, and containing lists of the secret societies and their numbers, and also of the public societies, the faculty of the college, &c. There is also a page of pertinent editorial matter. The editors for the fall term are B. F. Jenness and W. W. Dow, the latter from Portsmouth.

Political Ondit.—That Col. Forney has been in New Hampshire within a few days on business of a party nature, and some of the knowing ones say to arrange matters with Ex-President Pierce in regard to taking the next Democratic Presidential candidate from New Hampshire.—*Boston Trans.*

☞ Auction sale of valuable Real Estate near the Steam Factory, this day at noon. See advertisement.

The U. S. Circuit Court held a short sesion at Exeter, last week, closing on Monday of this week. The long tried case of Frederick Clark, in Bankruptcy, was closed, as follows:—

Frederick N. Clark v. W.H. Y. Hackett. In equity. The bill in substance alleged that the defendant was assignee in bankruptcy of the complainant; that complainant had a claim against the government of Mexico amounting to some $60,000, which was allowed under the late Mexican treaty; that defendant fraudulently procured in the Circuit Court of the District of Columbia, an injunction restraining the Secretary of the Treasury from paying the money to complainant, and subsequently procured an order for the payment of it to himself.—Whereupon the complainant filed a bill in this Court, alleging the fraud, and praying that the money be ordered to be paid him. Judge Clifford, after recapitulating the facts, delivered a most able and learned opinion, dismissing the bill with costs.

Fernald for complainant; Hackett *pro se.*

George B. Coffin et als. v. the schooner John Shaw. This was a case of salvage.—The libellants claimed $15,000. The Judge decreed to the libellants the sum of $500.—Hackett for libellants; Webster for defendants.

☞ President Buchanan, on his journey to Wheatland, on Wednesday, left the cars at Wrightsville to walk the bridge to Columbia. His foot met some obstruction, and he fell. He was stunned by his fall, and was assisted to rise by his friends; after a few minutes' rest he recovered sufficiently to continue his walk.

The Minister's Wooing.—Mrs. H. B. Stowe's new novel will be issued on Saturday next, Oct. 16th, by Messrs. Brown, Taggard & Chase, the New England publishers.

A clergyman having reproved an Irishman for calling on his Satanic Majesty, Pat replied:

"Och, then, and its yourself that's findin' a fault wid me for sayin' that same, when its yees and the like of yees, that's paid by the year for abusing the ould gentleman all the time!"

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON, Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE, EMPIRE STATE, WHITE MOUNTAIN, REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

The Calebrated Magee Patent Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;

COMBINING

ALL THE GOOD QUALITIES

—OF A—

RANGE AND STOVE.

The Subscriber invites the attention of the public to the BAY STATE RANGE, a new cooking apparatus of great capacity, having

TWO LARGE OVENS

AND

SIX BOILING PLACES.

The Ovens will bake SIXTEEN LARGE LOAVES OF BREAD AT ONE TIME—and are superior to any Stove Oven for Roasting Meats.

A Water Back can be added to the Range, with which a barrel of water can be kept boiling without any increase of fuel.

Wood or Coal may be used for fuel, the castings being of

DOUBLE THICKNESS,

will resist the action of a coal fire and the abuse of servants.

These Ranges have been in use in this city during the past year, and been found perfect in operation.

THE RANGE IS PERFECT IN ITSELF,

and can be set in a chimney or out in the room as is most convenient.

It will warm the coldest kitchen in the city, and an extra room if desired.

The News.

☞ Steamer North Star, at New York, has California news to 20th Sept. and $500,000 in gold.

Judge Terry attempted to make his escape by the overland mail to Texas, but was finally arrested and lodged in San Francisco jail.

Mr. Broderick's death has cast a gloom over the State, and the newspapers are filled with comments on the proceedings.

On the 16th another duel was fought between Dr. Preston Goodwin and Col. Jas. Jef. Gatewood, near San Andreas. Dr. Goodwin was killed.

The treasurer of Humboldt county, Jesse Wells, had absconded with $13,500 belonging to the State.

☞ In Pennsylvania, via Pittsburg, Oct. 11, about thirty districts heard from indicate the election of the Republican State ticket by about 3000 majority.

☞ In Ohio, via Cleveland, Oct. 12, returns indicate the success of the Republican State ticket and a probable majority in the legislature.

☞ Scattering returns from Indiana have a Republican complexion.

Northern Adventures.—Lady Franklin's screw steamer Fox, which lately came back from the Northern seas, was unable to penetrate beyond Bellot Straits, and wintered in Brentford Bay. The search included the estuary of Great Fish river, and the discovery of eight hundred miles of coast line, uniting the former explorations, was performed by sledge journeys during the last spring. Minute and interesting details of the expedition are published. Several skeletons of Franklin's men, large quantities of clothing, and a duplicate record up to the abandonment of the ships, were discovered. The account says:

When in latitude 60 deg. 09 min. N., and lon. 99 deg. 27 min. W., we came to a large boat, discovered by Lieut. Hobson a few days previously, as his notice informed me. It appears that the boat had been intended for the ascent of the Fish River, but was abandoned apparently on a return journey to the ships, the sledge upon which she was mounted being pointed in that direction.—She measured 28 feet in length by 7 1-2 feet wide, was most carefully fitted, and made as light as possible; but the sledge was of solid oak, and almost as heavy as the boat.

A large quantity of clothing was found within her, also two human skeletons. One of these lay in the after part of the boat, under a pile of clothing; the other, which was much more disturbed, probably by animals, was found in the bow. Five pocket watches, a quantity of silver spoons and forks, and a few religious books were also found; but no journals, pocket-books, or even names upon any article of clothing.

Two double-barrelled guns stood upright against the boat's side, precisely as they had been placed eleven years before. One barrel in each was loaded and cocked; there was ammunition in abundance, also some thirty or forty pounds of chocolate, some tea and tobacco. Fuel was not wanting; a drift tree lay within a 100 yds. of the boat.

☞ Brownsville, Texas, was attacked Sept. 28th by a band of Guerillas, who killed five citizens, broke open the jail and freed all the prisoners. The most intense excitement prevailed, and the Mexicans sent aid from Matamoras. The Guerillas were headed by Cartinas, who shot the sheriff of Brownsville last July while he was attempting to arrest him. A party of outlaws, 100 strong, rode through the city on horseback, and posted sentinels. The outlaws were encamped near the city 200 strong. The citizens expect another attack, as the outlaws boasted they had more on the list to kill. An express had been sent to San Antonio for troops.

Pennsylvania Election.—*Philadelphia, Oct. 11.—Midnight.*—The scattering returns received render it evident that Mr. Mann, the opposition candidate for District Attorney, is elected by over 2000 majority. The opposition have also elected one State Senator if not two.

The Opposition party are now parading the streets, with music, &c., loudly cheering.

National Horse Show.— The 2d national exhibition of horses commenced at Kalamazoo, Mich., on Tuesday, and continues through the week. Flora Temple, Princess, Ike Cook, Harvest and Magna Charta were there. The display was fine, and the attendance large.

A man's religious convictions should be a part of himself, and not like a harness which you can take off from the horse and lay it aside for a while and then put it on again when you wish to, but like a man's lungs, which you can't take out of the man but he dies.

Yellow Fever.—The Charleston Courier's New Orleans correspondent says the yellow fever is increasing at Houston, but there are no cases at Galveston. There were nine cases in the hospitals at New Orleans last week.

Tobacco. — This poison is used by a population of two hundred millions!—Whether it is a greater evil than alcohol, war, or pestilence, I am not ambitious to decide. The man is yet unborn who shall take its dimensions, and wake the people of God to any just conception of it!—[Anti-Tobacco Tracts.

☞ An exchange paper says:—The best safety valve to a boiler is a sober engineer; Congress may legislate till doomsday, but as long as the officers carry too much steam the boats will follow their example.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Patent Indelible Pencil,
FOR MARKING CLOTHING.

Patented May 31, 1859.

This article has the following claims to public attention: It can be used with greater ease in writing upon all kinds of cloth; will not dry up like ink; will sharpen well without breaking, in being used as a Pencil; one box of pencils will mark THREE THOUSAND articles.

Many persons have found it difficult to procure an article that will be permanent—they will find this all they can desire. It does not cost one-third as much as ink.

The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of House keepers. This pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked, and it will leave an indelible mark thereupon.—[Scientific American, June 11, 1859.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases in the third or last stage, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and SIX are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all of suffering may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 404 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD.

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken, before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures CONSTIPENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

The Sagamore House, Frost's Point,
IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering unnecessarily in the miserable thraldom of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j3 dly

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMS, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Acuce bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,
LOWELL, MASS.
PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick wan the best aid there is for them, and they should have it.
All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine, — NEVER HAS IT FAILED, IN A SINGLE INSTANCE, to EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of the highest encomendation of its marvelous effects and medical virtues. We speak, in this matter, *"what we do know,"* after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but it invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between you and your suffering child and the relief that will be SURE — yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York
Price only 25 cents per bottle.

Patent Indelible Pencil,
FOR MARKING CLOTHING.
Patented May 31, 1859.
This article has the following claims to public attention: It can be used with greater ease in writing upon all kinds of cloth; will not dry up like ink; will sharpen well without breaking, in being used as a Pencil; one box of pencils will mark THREE THOUSAND articles.
Many persons have found it difficult to procure an article that will be permanent—they will find this all they can desire. It does not cost one-third as much as ink.
The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of House keepers. This pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked, and it will leave an indelible mark thereupon.—[Scientific American, June 11, 1859.

The Chronicle.

Portsmouth, N. H.

FRIDAY, OCT. 14, 1859.

DAKOTAH.—This name has been proposed for an embryo Territory to be organized out of the region west of Minnesota.—An election for a delegate to Congress was held therein on the 13th ult., when J. P. Kidder received a unanimous vote—359—at the St. Joseph and Pembina polls, which are all we have heard from, and which probably comprise the bulk of the voters in the expectant Territory. Mr. Kidder will probably find some difficulty in obtaining his seat.

NEVADA.—This foreshadowed Territory, which has just been electing for itself a Governor and Legislature without saying to Congress, "by your leave," is mainly composed of the western or south-western half of Utah; its population being mainly located in or about Carson Valley. We presume Congress will consent to its organization, though, perhaps, with some modification of its self-defined boundaries. It is likely to increase rapidly in population, be cause of its recently discovered mines of silver and gold.

☞ Speaking of Mr. Broderick and the California election, the Manchester Union Democrat says:

The most gratifying feature in this result is the defeat of David C. Broderick. By running what he called an 'anti-Lecompton' ticket down to the very week of the election, he concealed a purpose which the withdrawal of his ticket at that time, in behalf of the Republican candidates, fully disclosed. It is believed that he has been less successful than Mr. *Douglas* was in playing the *same game* in some of the Atlantic States.

☞ Recent advices from Genoa state that while the U. S. frigate Wabash was lying at that port, a large fire occurred in the city, when her commander, desiring to assist in subduing it, dispatched to the aid of the city, a portion of her officers and crew, with the fire engine of that ship.—Shortly after the occurrence, a letter was received by the Commander of the Wabash from the Vice President of the Royal Chamber of Commerce, attesting their gratitude, as well as of all Genoa, for the prompt services rendered.

AN ERROR CORRECTED.—The omission of a single word, sometimes spoils the meaning of a sentence. We have a case in point. At the Democratic State Convention in Concord, Mr. Alexander offered the following resolution, viz.:

Resolved, That the Constitution of this Republic is neither a pro-slavery nor an anti-slavery instrument, and recognizes slavery *only* as a local institution existing in certain States "under the laws thereof," and we repudiate the undemocratic doctrine that slavery exists in the Territories beyond the power of the people to modify, limit, or exclude the same.

In the report of the matter in the Boston Herald, from which paper we cut the Resolutions, the word *only* was omitted, and the omission changed the sentiment from a very *pointed* statement, to one almost without point.

The resolution as now printed, was from the Boston Journal, and is said by the author to be correct. We have italicized the word *only*.

☞ The Philadelphia City Item says that the most radiant beauty of that city may be seen at the libraries. The finest, black-haired, brown-haired and fair haired girls are to be found in them at intellectual operations, which seem to add new lustre to their smooth, blushing countenances. They go to these places, too, for the exclusive, lofty purpose of reading, not for the little aim of curiosity and display.

☞ George Drake was arrested in Alleghany county, Md., a few days ago, for the murder of a man named Athy, some thirty years ago. Drake was arrested at the time of the murder, and a true bill found against him by the Grand Jury, but he managed to break jail and make good his escape to some part of the West.

A SIGN!—A writer in the Biblical Recorder cites, as proof that there is little searching of the Scriptures and much corrupt theology among the Baptists, the fact that he has heard Baptist ministers "proclaim what is termed 'heavenly recognition,' and degrees of happiness in heaven, and progress in future glory."

☞ Col. Philip Hickey, who died at East Baton Rouge, La., on the 13th ult., aged 82, had lived in Louisiana under the governments of the three great powers of Great Britain, Spain and the United States, without any change of his civil status.

☞ Sir John Franklin was destined by his father for the ministry, by nature for the sea. While at school he walked twelve miles to see the ocean for the first time. He was sent on a trading voyage to Lisbon to cure him of his best. The voyage confirmed it.

QUEER COMPANIONS.—A gentleman in in Hartford has a grey squirrel and a rat in a cage.

FIRES.—On the evening of Sept. 14th, the dwelling-house of Miss Judith Farmer, in Warner, was consumed with all its contents. There was a shed attached to the house, in which was a little hay. The fire broke out in this shed. Incendiarism is suspected. Loss one thousand dollars; no insurance. The loss falls heavily on Miss F.

On the morning of the 4th inst., about 5 o'clock, the barn of the Hon. A. F. Pike of Franklin, was destroyed by fire. A horse, cow, carriages, sleighs, hay and grain, were also destroyed. The L of the house was somewhat injured, and the furniture of the house considerably damaged by removal. There was some insurance, but it will not cover the loss. Incendiarism is supposed to have originated this fire.

☞ For November, we have an extraordinary number of Godey, containing two steel plates; The Old Valentine, as fine a line engraving as ever appeared in any magazine; and the other, The Trial of Effie Deans, the first time this picture has ever been engraved for a magazine. We call attention to these splendid works of art.—Also, the Cloak Fashion-plate, another steel engraving. The diagrams for children's dresses are beautifully printed in colors. There are thirty-four pages of embellishments in this number alone, containing the immense number of 70 engravings. One hundred pages of reading, of a very high order.

CHINAMAN DRINKING BRANDY.—The following paragraph will show how the "Celestials" are becoming accomplished in "topering." They are rapidly fitting themselves for American citizenship according to the California standard. The San Francisco Times says:—

"The Chinese consume great quntities of cheap American brandy. Until recently, we were not aware of the fact, supposing that they, as a class, were remarkably abstemious in the use of liquors; but a reliable wholesale dealer says that they buy largely, and drink it among themselves. At all events, Chinamen are seldom if ever seen in a state of intoxication.

Their method of buying has been to go round to every place where 'Melican' brandy is for sale, and whoever offers to sell the cheapest gets their custom. This, of course, induces many persons to compete for the trade, and to be able to offer the fluid at a rate low enough to suit their ideas of economy. Some of the dealers add a large portion of water, thus reducing what was before nothing else but alcohol and pure spirits, to an even weaker consistency. But gradually John began to smell the rat in this operation, and latterly the Chinese, when they go to buy brandy, proceed in couples, bearing a saucer, with a box of matches. Into the first is poured a quantity of the 'Melican' brandy, and while one holds this, the other applies a lighted match and if it produces no blue flame, he pronounces the liquor 'no good,' and refuses to purchase except at a reduced price. This testing the proof of liquor by fire is a novel idea, and might be imitated with advantage by other dealers in the article."

OBITUARIES.—As obituaries are interesting only to the few friends and acquaintances of the deceased, who may happen to be the patrons of a paper, the Texan Baptist has decided to charge five cents a line for their insertion.

MARRIAGE NOTICES.—The Louisiana Baptist says: "No one ought to send a marriage notice to an editor, without a dollar, or at least the name of the bridegroom as a cash subscriber."

SINGULAR OMISSION.—A religious journal, under this heading, says: "When our brethren send us an account of a revival, it is singular and unaccountable that they should omit to send a list of new subscribers."

D. D's.—It is estimated there are 150 D. D.'s in the Northern Methodist church, while ten years ago, the number was less than a dozen.

LAY REPRESENTATION.—A writer in the Texas Baptist quotes Bishop Pierce of the Southern Methodist church as saying: "Representation involves the necessity of election by popular vote, from which evil may the Lord deliver Methodism!"

☞ An excursion party, numbering about six hundred persons, from Fall River, on Wednesday visited Boston, the Athenæum, Aquarial Gardens, and other places of interest, under the direction of Mr. Perham.

☞ It is rumored that the late Senator Broderick, before the duel, made a will, in which he left all his property to George Wilkes, of Wilkes's Spirit of the Times, in New York.

☞ "Bargain Making" is the title of the lecture the Rev. Henry Ward Beecher will give during his visit to New England this week.

☞ Miss Magdalene Hardy of Delaware county, N. Y., has just recovered $500 damages from Freeland Cochran, who has been "her friend from childhood," for a breach of marriage promise.

Mr. Calhoun took the position that all men are *not* "created free and equal." Said he, "only two men were created, and one of them was a *woman*."

☞ It is reported that Ticknor & Fields will be the new publishers of the Atlantic Monthly, which changes hands in consequence of the failure of Phillips, Sampson & Co.

☞ The amount of lager beer drunk per annum in the city of Milwaukie is estimated at twenty-five thousand barrels.

A GREAT AND GOOD BOOK.

JUST PUBLISHED:
THE PURITANS;
OR,
The Church, Court, and Parliament of England During the Reigns of Edward Sixth and Elizabeth.
BY SAMUEL HOPKINS.
Royal 8vo. ..... Vol. I. $2.50.

The Puritans have at last found a historian adequate for his work. Mr. Hopkins unites thoroughness of research to a style of singular fascination; and his dramatic narrative and life-like portraitures of the preachers, courtiers, and popular leaders of one of the most stirring periods of English history will secure a multitude of admiring readers. The book has all the charm of a romance, while developing with great clearness and force the origin and growth of Puritanism.

It will be a most valuable work, as it is a needed addition to the history of the great Puritan movement in England, which is so vitally connected with the religious and civil history of our own country. The great events are depicted in such lucid and graphic order as to interest readers of all classes."—HENRY B. SMITH, D. D., Union Theological Seminary, N. Y.

"In my judgment the work possesses all the qualities requisite to insure, if published, a wide circulation; and, when completed, will furnish, I doubt not, the most valuable representation of the early Puritans in our language."—ALVAR HOVEY, D. D., Newton Theol. Sem.

Mr. Hopkins has brought to his work the spirit of high appreciation, of candor, and of conscientiousness. He has been patient of that laborious research and keen scrutiny of popular views and accepted relations which alone can discover and rectify any current errors. As his work is one of the fruits made possible for us by the zeal with which annals of times past have been recorded in various places, so its faithful digestion of all existing materials will largely help to the writing of General History for the time to come.

I can speak most heartily of the work, and commend it earnestly to public patronage.—GEO. E. ELLIS, D. D.

Special Notices.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,
Dr. Wistar's Balsam of Wild Cherry.
Says a well known Editor:—"This is truly a Balsam and a blessing to invalids. It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."
CASSVILLE, GA., Feb. 26, 1858
Messrs. SETH W. FOWLE & Co., Boston, Mass.
Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.
For Coughs and Colds in children I *know* it to be an excellent medium.
Respectfully yours,
JOHN H. RICE.

Dropsies.
There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Bilious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that, will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.
Sold by druggists and dealers generally, everywhere.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.
SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.
The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 9th of May, twenty-one days after she commenced its use,
SHE WAS SOUND.
Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.
Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.
R. R. Remedies are sold by Druggists generally.

☞ The sermon of Rev. Dr. Thompson, before the Unitarian Sunday School Convention, was upon The Church, its connection with children, and its duty to them.

The preacher characterized the visible Christian Church as an organized body, with the common bond of a belief in Christ, and the observance of his ordinance.

He professed membership in the Broad Church, (not a *new* institution, but) one broad enough to include many and indeed most churches, without breaking down their respective palings; but *disclaimed* fellowship with the Music Hall platform, as not Christian.

While thus setting aside Theodore Parker, he evidently favored Dr. Bellows, whose Broad Church remark he said had been most ingeniously misunderstood.

The connection of the church with children was that of culture, training, education; and its duty is to raise plants in the nursery to be transplanted into the church below, and thence to that above.

The discussions on Thursday forenoon were founded on two resolutions—one enjoining it upon the Sunday School teacher to *adapt* his instructions to the capacity of children; and the other to direct their efforts to cultivate the higher life, which is based on faith.

The speeches were all pleasant, several of them eloquent—none more agreeable, on the whole, than that of Rev. S. H. Winkley, one of the sons of Portsmouth, now a minister at large in Boston.

☞ We understand that an Excursion to Boston, over the Eastern Railroad, is in contemplation, to take place next week, Thursday or Friday, if pending negotiations can be satisfactorily arranged. The tickets will, if practicable, include admission to the Boston Atheneum, Aquarial Gardens; and the South End Riding Park, where Flora Temple, Princess and Ethan Allen are to trot for a purse of $2000, on Friday afternoon, 21st.

By the way, if such a visit of our citizens and neighbors *should* be made to Boston, would it not be a good idea for the Sons of Portsmouth there, to turn out en masse, and give them a grand reception, as we "at home" did them, a few years ago?

☞ Rev. J. C. Fletcher, the celebrated traveller, writer and lecturer, author of "Brazil and and the Brazilians," and other valuable works, is expected to deliver the second lecture before the Lyceum, Tuesday Evening next, Oct. 18th. Subject, "The Land of Tell."

☞ The Weekly Chronicle is printed this morning. It contains, among other things, that C. & P. Railroad article—and those who failed to get it in the Daily, can now obtain copies. Although we printed a great number of extra copies, in addition to our regular large Daily circulation, we were obliged to refuse scores of applications for them.

☞ Those fogies who "don't believe in advertising," had better move into the back streets, out of the way of live people. Just see how the successful concert troupes go into it—in all sorts of ways. Besides liberally patronizing the papers, (and paying in advance, too,) and building huge bulletin boards to cover with all sorts of bills; they charter a handsome four-horse team at Hadley & Co.'s stable, and get "Old Shannon" (who has got as much music and fun in him as any of 'em) to tote their brass band about town. Their total bill for advertising in all shapes, for the two nights, we should judge must reach $50. Ask them if advertising don't pay.

MRS. MACREADY.—Our readers interested in such matters, will bear in mind the entertainment to be given by this lady this evening. The following is from the Portland Advertiser:—

The Merchant of Venice.—Mrs. Macready gives, this evening, her rendition of this magnificent creation of Shakspeare; and as this has been proclaimed the master piece of her great genius, an entertainment of intense interest may be expected. The rendition of the character of Shylock has always been considered one of the most difficult in the "role of the Drama;" but in this, as in all others, Mrs. Mcready seems to excel. The sensation she created in Boston by her personation of this difficult character was very great, and unanimous praise was awarded to her. An eminent citizen, in speaking of her, says:

"Every part was carried through with naturalness and ease, and an excellence that could only have been expected from a c*ombination* of star actors. But the grandeur of her power was particularly displayed in her rendition of the character of Shylock. As a master piece of art, it was magnificent,—thrilling in the extreme. I have seen Kean, both the elder and younger Booths, and other most eminent actors in this character; but never until last evening when I saw Mrs. Mcready's depth of feeling in this part—would I feel the least particle of sympathy for the sufferings this usurer had to undergo; but, then, in her rendering of this part I could not but feel that he did suffer, and feel a pity for his sufferings; and I think she carried the sympathies of the whole audience with her. Shylock, for once, met with pitying hearts."

In Mrs. Mcready's rendering of this great part this evening a treat rarely offered us may be expected, and none should miss the opportunity of hearing her.

☞ Messrs. Simon R. Marston and Chas. H. Hayes, of Portsmouth, have purchased "the exclusive right" to dispose of the "Buckeye Rotating Harrow," throughout the entire State of Maine; and will start on a tour down east forthwith. The machine beats all the harrows we ever saw, (as well as *all* the earth it is drawn over) all to pieces; and the Maine farmers will find the agents mentioned, highly respectable and responsible young men.

SALE AT AUCTION.—A lot of land, with a good cottage thereon, No. 1 Pearl street measuring 54 feet on Pearl street, and 55 feet in depth, was sold at auction by Henry F. Wendell, Esq., on Thursday, to Charles T. Emery, the occupant, for $2175.

☞ The Street Commissioner and his workmen are doing a good work in battering down the ledge on Market Square, so as to leave a somewhat smoother surface.

☞ We trust the Water controversy will result in giving our city a larger supply of good water—there is need enough of it. We hear the unused charter for an aqueductfrom the Sheafe farm, near Newington, is to be brought into effect.

☞ The N. O. and Metropolitan Troupe had the Temple full of hearers, at their concerts, Wednesday and Thursday evenings; and gave complete satisfaction. They are a strong and well-managed band.

☞ All lovers of *grate* economy, will read and ponder Stevens' and Jones' new advertisements.

☞ Wednesday morning the 7 1-2 o'clock up-train from Salem was switched off the track near the station at Lynn, occasioning an hour's detention to a large number of passengers.

A NEW HAMPSHIRE RIFLEMAN.—The U. S. Rifle Club had its annual shooting at Waltham, Mass., last week. We learn from the Boston Traveller that "the prize of a gold medal was awarded to Wm. Farrington of Lebanon, N. H., who made thirty shots, during the three days, the combined distance of which from the bull's eye was but 35 1-2 inches—an average of but little more than an inch.

THE WEEKLY CHRONICLE,

Containing the news of the week, at home and abroad, as published in the six previous issues of the Daily Chronicle,—is printed on *Friday* morning, and immediately delivered by our carriers to subscribers in the city, or sent by mail to any part of the State or the world.

As the Weekly Chronicle contains most of the matter from our "local" Daily columns, it will be found an attractive paper for natives of Portsmouth living abroad, and all others interested in our city.

Terms of subscription to the Weekly Chronicle, only $1 per year in advance—sent by carrier without extra charge, to any part of the city and vicinity; or by mail, postage free, to any part of Rockingham County. Direct letters, "Chronicle, Portsmouth, N. H.

Single copies, price 3 cts., for sale at tsih office.

☞ Prentice says there are some men who will march up to a cannon's mouth, and some women who walk up to a lover's, without shrinking.

DAMAGES FOR SLANDER.—In the Superior Court, Boston, Mary Roberts obtained a verdict for $2041 61 against John L. Brown, for defaming her character.

☞ The Mobile Tribune castigates one James Fallen because he got drunk on his wife's money, and says he ought to have 39 lashes.

☞ The Cherokee Indians are getting civilized. They have a debt—small, to be sure, but so large that they cannot pay the interest of it.

Worldly happiness is but a picture that is seen by the eye of sense in the false light of the present time, and therefore imperfectly beheld.

☞ Counterfeit bills on the Mechanics' Bank, Concord, N. H., and the Mechanics' Bank of Newport, R. I., have been detected at Brooklyn, N. Y., and parties arrested for passing them.

☞ Admiral Hope, in his report in regard to his defeat by the Chinese, does not mention the civilities extended to him by the American Commodore, Tatnall.

STOVES AND FURNACES.

FRANK JONES,
61 *MARKET ST., PORTSMOUTH,*
Having received a part of his Wintor Stock of
SUPERIOR COOKING STOVES,
would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found
THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
BANNER, AMERICAN REPUBLIC,
with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

The Calebrated Magee Patent Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.
STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally.
TIN, SHEET IRON & COPPER WARE, manufactured to order.

☞ Prices as low as at any other establishment in this vicinity, and satisfaction guaranted in all cases.

The News.

NEW ORLEANS, Oct. 12.—Mr. Kinley, of the Brownsville Flag, is here. He says that the Mexican banditti, near Brownsville on the 8th, numbered 400, and their numbers were increasing. Their object was a general plunder. Fears were entertained that they would burn Brownsville, and whole families were fleeing from the place.

The Austin Gazette has information that the Comanches will attack Northern Texas in the winter.

OHIO ELECTION.—*Cleveland, Oct. 12.* Incomplete returns from 30 counties give a Republican gain of about 5000 over 1857, and indicate a Republican majority in both branches of the Legislature.

A despatch from Columbus says that the Republican State ticket has more than 15,000 majority, and that the returns thus far received indicate a Republican majority in the Senate of 9, and of from 12 to 16 in the House.

Indiana.—The few returns from Indiana show slight Republican gains.

IOWA ELECTION.—*Chicago, Oct. 12.*—There being but four telegraph offices in the State of Iowa, some days must elapse before the result of the election can be definitely ascertained. The vote received thus far is about the same as in 1857, when Low, Republican, was elected by about 2000 majority.

☞ There was much violence at the city election in Baltimore, Oct. 12. The despatch says:

Notwithstanding the rowdies, the Reformers have done nobly, and but for the violence and the illegal voting would undoubtedly have swept the city.

The result shows that the naturalized voters were almost entirely excluded from the polls; but notwithstanding this the Reformers carry seven wards, while, with two or three exceptions, the most objectionable candidates are defeated. There is a vast improvement in the character of the new Council. The Thirteenth Ward Reformers endorsed the American nominee, and claim him as a Reformer.

The friends of reform are greatly encouraged, and hope to achieve a complete triumph in the State election. Leaving out the 20th ward shows that the Americans have only 357 majority, while they had 1900 in the last Mayor's election. But little more than half the votes of the city were polled.

☞ Steamer Quaker City was towed into Norfolk, Wednesday, by steamer State of Georgia—all safe.

A despatch from Key West states that steamer Star of the West, from Aspinwall for New York, has put in there, having broken her shaft, when one day out.

BALTIMORE, Oct. 13.—Two men were shot dead in our streets last night. One was a young Irishman, the other the mate of one of the Bay crafts, lying at Union Dock. No arrests have been made as yet.

☞ The Louisiana Sugar Planter says the yield of sugar this season will be less than that of last year by over one hundred thousand hogsheads. The crop last year was about 440,000 hogsheads.

☞ Liberal subscriptions have been made by Rev. Dr. Chapin's friends in New York, towards buying for him the $24,000 house which he occupies on Thirty-fifth street near the Fifth avenue.

☞ Market Fairs were held at Waltham and Newburyport, on Tuesday. In both places, stock and farm products were offered for sale in large quantities, but the buyers were few, and the sales were not large.

☞ Senator Seward has gone to Egypt. Senator Sumner is at Havre, expected in Paris daily.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no *single instance* have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, *eight* have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is *certified* by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure.* My *fac simile* signature is upon every bottle.

☞ *Price* $2 per bottle, or three bottles for $5, with *full* directions for use. Write for Circulars, which will give RELIABLE INFORMATION, and save from all possibility of deception. CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!"

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertion, to improve if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

GROVER & BAKER'S

Celebrated Family Sewing Machines.

No. 18 Summer Street, Boston.

NEW STYLES.

PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY,

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

TESTIMONIALS.

☞ READ THE FOLLOWING INTERESTING LETTERS.☜

Athens, Greece, July 20th, 1859.

Grover & Baker S. M. Co., Boston:

Gentlemen—My wife is so much pleased with your sewing machine that she has addressed a few lines to you, expressing the high degree of satisfaction it has given her. But as she has written to you in Greek, and thinking it possible that you may not read with facility that language, she has requested me to translate it for you into English, which I have done, and enclose herewith both the original and the translation.

And I must add that I myself even admire your machine, and that it has been of immense use to my family, and to many others, who are poor, and whom my wife has gratuitously assisted in sewing.

Yours truly, JONAS KING.
Missionary of the A. B. C. F. M.

[Translation of Mrs. King's Letter to Grover & Baker S. M. Co.]

Benefactors of the Female Race:

It is now about three years that I have the happiness to use your machine for sewing, and also the pleasure of aiding others, who are poor seamstresses, and all wonder at the rapidity of the work of the machine, and praise and admire the wisdom of the inventor, and bless you also.

I therefore recommend to all families to purchase without fail your machine, and propose to all the ladies to unite with me, and crown you with olive and laurel.

May you have health. A. A. KING.
Athens, 7—19, July, 1859.

HENRY WARD BEECHER SAYS:

"I pity those women whose staff is their needle, for when they lean upon it, it pierces not their side but their heart. * * * I think the needle has claim more than the sword of war."

THE AMERICAN MEDICAL MONTHLY SAYS:

"When we physicians prescribe iron for the pale girls, we send them to Grover & Baker's to order one of Grover & Baker's Sewing Machines in the morning, and a romp out of doors in the afternoon."

PROF. OLMSTED SAYS:

"In the useful arts and comforts of life we have greatly the advantage of the ancients. The *Sewing Machine* alone is worth all their inventions."

What is especially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never know a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds about 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and proves COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two tea-spoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated, is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long confinement.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS type, as it operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid and enclosing the sum at all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 19 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—19 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMS, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,
LOWELL, MASS.
PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tean assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a diuner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick want the best aid there is for them, and they should have it.
All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

Patent Indelible Pencil,
FOR MARKING CLOTHING.
Patented May 31, 1859.
This article has the following claims to public attention: It can be used with greater ease in writing upon all kinds of cloth; will not dry up like inky ink sharpen well without breaking, in being used as a Pencil; one box of pencils will mark THREE THOUSAND articles.
Many persons have found it difficult to procure an article that will be permanent—they will find this all they can desire. It does not cost one-third as much as ink.
The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of House keepers. This pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked, and it will leave an indelible mark thereupon.—(Scientific American, June 11, 1859.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, OCT. 15, 1859.

☞ Speaking of the proposal to erect a statue to Horace Mann on the State House grounds in Boston, the New York Journal of Commerce says:

There is only one further tribute which the modern Athens can pay to modern Art, worthy of the development in that quarter of modern ideas, and that is the erection on the same spot of the ebony statue of a strapping negro. After having placed Webster in such company, it is probable that even the Abolitionists would be contented.

Well, well! says Uncle Toby: let Webster stand there for his eloquence; put Horace Mann there for his honesty and greatness of soul; and put up (as the Journal of Commerce suggests) a statue of Crispus Attucks, the negro who fell the first victim of the American Revolution. Or make a statue of our old negro townsman Prince Whipple, of revolutionary fame, as honest a man and as fair a Christian as Mr. Webster, who would no more think of him as bad "company" than Dives would think so of Lazarus.

The Journal of Commerce wakes up the wrong passenger.

☞ The Chicago Press and St. Louis Democrat are both bitterly complaining of the excesses committed by newspaper representatives, bogus and genuine, at the fairs lately held in their respective cities. The former paper says:

Respect for the craft, even when its representatives are mixed up half and half with "confidence men," forbids us telling how many gallons and barrels of whisky slid down the gullets of newspaper men, real and counterfeit; but it is certain that the only drunkenness and rowdyism complained of was that which had its origin in the reporters' room; and that occasion for the complaints arose almost wholly from the ill manners and uncontrolled appetites of the scalpers who falsely "personated "members of the press."

THE RIGHT WORD IN THE RIGHT PLACE; A new pocket dictionary and reference book; embracing extensive collections of synonyms, technical terms, abreviations and foreign phrases; chapters on writing for the press, punctuation and proof-reading; and other interesting and valuable information. By the author of "How to Write," "How to Talk," etc. Price 50 cents.

This volume contains the essence of three or four heavy works condensed into a size and form adapting it to the desk or the pocket, and afforded at a price which brings it within the reach of all. We hazard nothing in pronouncing it almost indispensable to the writer and speaker. In short, this little work should be a universal pocket and desk companion. Sent by mail, to any address, on receipt of the price, by Fowler & Wells, 308 Broadway, New York.

☞ We have news one day later from Europe, telling of a terrible fire at Constantinople, in which 1000 houses were burned. It broke out in the quarter of Hass Keni, built like an amphitheatre, on the side of a hill, and inhabited by 30,000 Jews. The houses being of wood, the flames spread with the most frightful rapidity. In a very short time upwards of 60 habitations were destroyed. The fire was then, most persons thought, got under, but on the next day it burst out afresh, and very nearly one thousand houses were reduced to ashes. The inhabitants were seen running half naked through the streets, seeking shelter. More than 600 families, who lost all they possessed, are encamped on the hill. The Sultan ordered a number of military tents to be supplied, to afford them temporary shelter.

☞ The Baton Rouge Gazette, speaking of the office of Superintendent of Public Education in Louisiana, says: "This is a very onerous office, requiring the occupant to sign his name as many as four times a year." Now the salary is $3000, so that the lucky incumbent gets $750 every time he signs his name.

FROM KANSAS.—A Leavenworth despatch to the St. Louis Republican says that the Topeka Convention on the 12th nominated a full ticket, headed by Chas. Robinson for Governor, and J. F. Root for Lieut. Governor. M. F. Conway was nominated for Congress. The convention was harmonious. Robinson, who is also Governor under the Topeka Convention, was nominated on the first ballot. The election for State offices takes place in December.

☞ The State of Mississippi is in imminent danger from a carpenter named William Landberg, who actually said, right before witnesses, that "negroes had fellings as well as anybody else." Thereupon Jonathan Weathersby, of Sanders Creek, prints half a column in the Mississippian, warning the whole South against this frightful Abolitionist.

☞ A firm in Boston have just finished a pair of brogans for a slave in a Southern State. The shoes measure 16 1-4 inches in length, 6 inches across the toe, and 17 inches around the instep.

☞ In speaking of the dedication of a Roman Church at Bath, and of the priests who took part, the Times says:—

Father Putnam is a Yankee, son of Rev Dr. Putnam, Unitarian minister in Roxbury, Mass.; Father Eagan we judge to be an educated Irishman—"fair and fat," and a most excellent singer. He officiated at the altar.

The guess may be right about the Paddy, but not about the Yankee. "Father Putnam" is not the son of the Unitarian Dr. Putnam of Roxbury—but of the Rev. I. W. Putnam, D. D. of Middleboro' Mass.; and formerly of this city, an orthodox congregational minister.

WHO OWNS THE TOP OF MOUNT WASHINGTON?—The Coos Republican publishes an order of notice from the last New Hampshire Legislature, relating to the ownership of Mount Washington. David Pingree, Esq., resident of Salem, as the representative of what is called the Jackson Company, and John H. Bellows of Exeter, N. H., respectively put forth their claims. It is alleged by some that it is still owned by the State. The design is to secure a complete survey of all the land around the mountains, as preparatory so fixing the titles. The claim to the top of Mount Washington will be sharply contested.

NEW DEMOCRATIC REVIEW. — Hon. Thomas B. Florence proposes to issue a Quarterly Review, to be devoted to politics and literature. We have no doubt, says the Saco Democrat, that a high-toned political journal would meet with ready appreciation and be useful to the country, and we hope Mr. F. will be successful in establishing such a journal. The difficulty heretofore has been that similar journals have soon allied themselves to the fortunes of particular men, have descened to the level of the meanest partisan newspapers, and then quietly sunk into merited oblivion.

A LITERARY REPUTATION. — Willis cleverly says in one of his sketches, that a literary reputation is to be built at this day, like the walls of Jerusalem—with a trowel in one hand for plastering friends—and a sword in the other for smiting enemies.

☞ It is said that Queen Victoria's second daughter—now the first on the marriage roll—has expressed a wish to resign her "royal dowry" in order to become a professed Catholic. The Court papers insinuate that this is a step to court the young King of Portugal, who lately lost his wife. When Don Pedro was in England a few years ago, the Princess Alice was "smitten;" but religion was in the way, and there the affair dropped.

☞ Dr. Bronson's Blood Food; based on the analysis of the blood in numerous cases. Five different chemical preparations, embracing the new cure for consumption, those for dyspepsia, liver complaints, and for other chronic diseases arising from over-use, general debility, or nervous prostration. See advertisement.

☞ At the Boston Horse Show, a race between Ethan Allen and Columbus, Jr., mile heats, best 3 in 5, to harness; premiums $1300 and $300, was won by Ethan Allen in three straight heats. Time 2:29 3-4 2:34, 2:33. Another race, between Rocky Mountain and Belmont, for a purse of $200, was won by Belmont. Time 2:56, 2:53, 2:51 1-2.

☞ In making pickles, add a cluster or two of green grapes, which will completely preserve the vigor of the vinegar.

A man was telling his wife of the war, and that, in consequence, the price of meal was rising; to which she interrogatively answered—"And what good will raising the price of meal do the war?"

QUERY.—If it is a fact, as some of the newspapers say, that not one of the Congregational pastors of New Hampshire use tobacco, is that not a sign of the times, and an example worthy of all imitation?—*Morning Star.*

It is an ascertained fact, that not one of the pastors connected with the [orthodox] General Association use tobacco—to their honor be it said.

"Perhaps Brother Jonathan does carry his hands in his pockets," said a drawling Yankee in dispute with an Englishman, "but all the difference between him and John Bull is, that Brother Jonathan has his hands in his own pockets, while John Bull has his in another man's."

☞ The government of Holland has published a decree abolishing slavery from the Island of Java. The slaves on the island were about 5000 in number. How could they be so cruel, as to liberate poor creatures who cannot take care of themselves?

BAPTISM OF A NOVELIST.—Sylvanus Cobb, Jr., with all the members of his family, was baptized not long since, by the Universalists, in Norway, Maine.—*Morning Star.*

NEW ORLEANS, Oct. 12.—The Opposition are holding a large and enthusiastic meeting here to-night. Hon. Pierre Soule is the principal speaker.

Some one gives in proof that a hen is immortal, that "her son never sets."

The man who has nothing to boast of but his illustrious ancestors, is like a potato—the only good belonging to him is under the ground.

The cold weather bids us clothe ourselves warmly, and to provide against the wintry blasts which will soon be upon us. Overcoats are strongly in demand, and those who have to furnish themsleves with this necessary garment we would recommend to call at the store of J. W. Smith & Co., corner of Dock Square and Elm street, Boston.—They have a most superior assortment of ready-made first class overcoats, which they sell for several dollars less than they could be made to order for, and are in every respect as good an article.

An inspection of their stock, which is, we think, the largest in Boston, will satisfy purchasers that it is for their interest to invest in the ready made manufactured overcoat. Mr. Smith employs the best artists as cutters, and keeping nothing but a medium and the best qualities of goods, and being withal a gentleman of exceeding taste himself, he is determined that Dock Square shall send forth as good an article of clothing and at a much less price than the fashionable stores of Washington street.—*Trav.*

A lady who makes but a modest spread of crinoline was passing along the street in Richmond the other day, when she was met by a young man full of bad whisky, who in staggering past stepped on her dress.—Turning to the lady, he remarked apologetically, "Hoops take up too much room," to which the lady quietly replied, "Not so much as whiskey, sir," and passed on.

Several nice young gentlemen went to the residence of a young damsel a few evenings since, to give her a serenade. After sometime, tee servant stepped out, and walking up to the harpist, exclaimed, "My folks are al a-bed; *you can't get a cent here to-night.*"

MARRIED.

In Brentwood, Mr. Samuel Evans to Miss Harriet A. Parker, both of Exeter.

BLOOD FOOD.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of phisiology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which, Dr. Bronson was restored to perfect health. Within six months after its introduction, over 2000 consumptives were effectually cured by it. If you have any complaints of a consumptive tendency. *Cough, Cold, Headache, Palpitation of the Heart, Loss of Appetite, or Pain in the Side,* lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from *Nervous Debility,* or your sleep is broken and disturbed, if your Spirits are depressed or your organs relaxed, you will find in this an unfailing remedy, by commencing with *two drops.* If your Liver is torpid or diseased in any manner whatever, *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia,* the patient can here find the most efficacious and grateful relief. A benefit is always experienced after taking *only one bottle.* In *Male or Female Complaints or Weaknesses,* the sufferer, after trying other remidies in vain, may rest assured, that a certain cure will result from the use of *two or three bottles.* The "BLOOD FOOD" is effectual in all cases of Eruptions, Salt Rheum, Scrofulas, and other like complaints. *Pale and emaciated children and adults* are immediately benefitted by its use. It gives strength to the body, and color and beauty to the skin. Physicians of all schools are using it with wonderful success.

For full directions, see circulars. Price $1 per bottle.

A GREAT AND GOOD BOOK.

JUST PUBLISHED:
THE PURITANS;
OR,
The Church, Court, and Parliament of England During the Reigns of Edward Sixth and Elizabeth.
BY SAMUEL HOPKINS.
Royal 8vo.....Vol. I. 82.50.

The Puritans have at last found a historian adequate for his work. Mr. Hopkins unites thoroughness of research to a style of singular fascination; and his dramatic narrative and life-like portraitures of the preachers, courtiers, and popular leaders of one of the most stirring periods of English history will secure a multitude of admiring readers. The book has all the charm of a romance, while developing with great clearness and force the origin and growth of Puritanism.

It will be a most valuable work, as it is a needed addition to the history of the great Puritan movement in England, which is so vitally connected with the religious and civil history of our own country. The great events are depicted in such lucid and graphic order as to interest readers of all classes."—HENRY B. SMITH, D. D., Union Theological Seminary, N. Y.

"In my judgment the work possesses all the qualities requisite to insure, if published, a wide circulation; and, when completed, will furnish, I doubt not, the most valuable representation of the early Puritans in our language."—ALVAH HOVEY, D. D., Newton Theol. Sem.

Mr. Hopkins has brought to his work the spirit of high appreciation, of candor, and of conscientiousness. He has been patient of that laborious research and keen scrutiny of popular views and accepted relations which alone can discover and rectify any current errors. As his work is one of the fruits made possible for us by the zeal with which annals of times past have been recorded in various places, so its faithful digestion of all existing materials will largely help to the writing of General History for the time to come.

I can speak most heartily of the work, and commend it earnestly to public patronage.—GEO. E. ELLIS, D. D.

Special Notices.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 26, 1858

Messrs. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,
JOHN H. RICE.

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Billious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

☞ On account of unavoidable circumstances, the Lecture of Rev. J. C. Fletcher before the People's Lyceum, announced for next Tuesday evening, will be given on some future evening of this Course. No lecture will be given next week; but Gilmore's celebrated Serenade Band have been engaged to give one of their unexcelled Concerts before the Lyceum, on Thursday evening, Oct. 20th.

Tickets for the evening 25 cents—for the Course $1.

Arrangements will also be made for at least one more grand Concert (vocal or instrumental) during the Course.

☞ The scattered and indefinite alarm of fire, Friday evening, we could trace to no particular cause or source, other than the general spirit of rowdyism which is so rampant in our community.

☞ Sales by Auction, this morning, of Trees, Shrubs, Flowering Plants, &c., in Daniel street; and rich Furniture, Wagons, Piano, &c. at Congress Block. See advertisements.

☞ That Excursion Train to Boston is not exactly decided upon as yet. We shall be able to inform our readers of the result, pro or con, on Monday.

LIGHT.

More light; and as light begets life and happiness, even so let us occupy the ground with which we are entrusted, as well as the talent given us as faithful stewards, believing that our Creator never intended water should be made an article of speculation, but kept as free of access by all classes of mankind as possible; as he has given it freely to all men without labor or price; flowing of itself freely from the bosom of the earth in all lands and among all nations of mankind on the face of the whole earth.

Let us see to it, that we citizens of Portsmouth do not allow any man, or body of men, to grasp and secure to themselves for their own private interest all the means which are placed in our hands for conveying one of Heaven's best gifts, that of water, to every man's dwelling, to the poor as well as the rich; at so low a price as can be afforded, free of speculation.

It is not the design of the writer to find fault with any man, or body of men who are at work on fair and honorable grounds, should their enterprise yield them a bountiful harvest.

But when I look and see from whom and for what this abundant yield of profit comes to the Aqueduct Co., it leads me to further inquiries. Having stepped into six places only, out of some eight or ten hundred, where water is sold, in this city, I find from those six places, that the Aqueduct Co. receive seven hundred and forty-five dollars per year.

These six concerns pay the interest of about three thousand dollars over and above the whole capital stock of the Aqueduct Co. leaving some eight or ten hundred other places to help advance this profitable stock. And by those means the Company have been able yearly to make large divisions of property, in addition to the advance of shares, from ninety-two dollars per share to four hundred, at which price I am told they are held.

Now, if property by increasing in value, causes an increase of avarice, or selfishness, so as to lead men beyond the bound of propriety, and especially when it presses heavily on the poor for an article Heaven designed should be as free as water. Are we not called on by all that is good and merciful, to lift up our voices and our hands against placing in the hands of the Aqueduct Co. any more means or power by which the poor may be compelled to pay for water, but let us hold and improve the price put in our hands, by forming a company that will be satisfied with a fair rate of interest; that will meet the approbation of the public, as well as the approval of Heaven.

CITIZEN.

MRS. MACREADY'S SACRED READINGS.—By some of our readers, Mrs. Macready's Sunday Readings are remembered and admired.

To others, we introduce the following remarks, from the Worcester Spy:—

A work that is to *live* is not a thunderbolt to strike the public mind, but grows into the clear sunshine of favor, even as the oak grows up through the night, into the full day of the blue heaven, until it becomes a landmark for mind; and youth and age, from away down the vista of coming time, sit beneath the shadows of its great thoughts, and bless God for the hand that planted it.

Such a work, in its effects, is that of good reading. Its influence extends throught life, and is handed down faom mother to child, for who through life, does not revert to the mother-tones of the childhood home? Mrs. Macready, in succeeding to admiration as a reader alone, exhibits rare talents, cultivated to a high degree of excellence.—She is one of the very few successful artists in this peculiar department. Thus has her progress in this, the most difficult of professions, been marked by the gradual and lasting impression made upon the minds of well-thinking, and even those who have countenanced every kind of public amusement.

These "Sacred Readings" are calculated to do a good which can be done in no other way; for there are those who will attend them, and whose hearts can be reached by the soft tones of her persuasive voice, who will not go near the church edifice, or listen to the admonitions of a professed teacher of the gospel. I am glad to be able to say, her crowded audiences listen to these efforts of hers, and that I believe good has been and is being done by them—for, wherever the mind can be brought to think, good will result therefrom.

NEW BOOKS.

Highways of Travel; or a Summer in Europe. By Margaret M. Sweat, author of "Ethel's Love Life."

This is a beautiful volume, just issued by Walker, Wise & Co., Boston, and for sale by J. H. Foster in Portsmouth. It has all the spirit and interest of a tale, with all the comfort and quiet of a matter of fact narration. As a specimen of really fine writing, it is truly refreshing.

THE PURITANS: or the Church, Court and Parliament of England, during the reigns of Edward VI, and Queen Elizabeth. By Samuel Hopkins. Vol. 1.

The book bearing this title is a noble volume of 550 pages,—just published by Gould & Lincoln, Boston. It is a valuable contribution to authentic and readable History—of especial worth to those who desire to know the root on which grew the tree of American liberty.

OHIO ELECTION.—*Cleveland, O., Oct.* 13.—The Republican majority on the State ticket will be 17,000. To the Senate 25 Republicans and 10 Democrats are elected, and to the House 64 Republicans and 40 Democrats.

Just before the election, the Columbus, O., Statesman spoke in the most encouraging terms of the prospects of the Democratic party in that State. It said:—

"All realize the *danger* to be justly apprehended to the peace and honor of our State, and the *integrity* of the *Union* itself, if the Republican party be not defeated; all feel that duty and patriotism require an unusual effort, and the belief is becoming general among the Democratic party that we can win the victory, elect our State ticket and carry the Legislature. It is quite apparent that our opponents are *alarmed*, that *confusion* prevails in their ranks, and that their confidence in the result is daily becoming weaker."

☞ An advertisement of Dr. E. R. Clark's Pills, Herb Syrup, and famous Sherry Wine Bitters, will be seen in another column.—Dr. Clarke has an extensive manufactory of his various articles, at Sharon, Mass.; and the fact of his long-continued and steadily-increasing business proves his own ability, and the success of his goods. He is a jolly good fellow, and as prompt to meet his agreements as his medicines can be to fulfil their requirements. Success to both. *

THE GREAT MARRIAGE. — The New York papers of Thursday are eloquent upon the subject of the nuptials of Senor Oviedo and Miss Bartlett, which were celebrated at St. Patrick's cathedral in that city on Thursday noon. It is estimated that five thousand persons were inside the cathedral, and the heat was excessive. The bridegroom is a small man, of dark complexion, apparently forty years of age, said to be worth about $4,000,000, owning large sugar and coffee plantations in Cuba, and negroes without number.

Besides the bridal dress there were also prepared, according to the Spanish custom, for the bride's *trousseau*, seventy-five other dresses and "arrangements to match," costing about $300 each. The bridal dress cost $5000. The pair of diamonds that confine the bridal veil was made to order, and the sum of $19,000 cash paid for it.

ARREST OF DR. FARRAR.—*Portland, Oct.* 13.—Dr. Farrar, who kidnapped the child from his former wife, in Dover, N. H., was arested in North Yarmouth this afternoon by City Marshal Ring of Portland, and officer Pearl of Great Falls, N. H.—The child was with him. He will be taken to Dover to-morrow.

☞ The servant girls of New York have struck for higher wages—they want $10 a month. The Journal of Commerce says it is in consequence of assessments for the new Fourth Avenue Cathedral.

THE PRESIDENT SUES FORNEY FOR LIBEL.—*Philadelphia, Oct.* 13.—It is stated on good authority that Mr. John W. Forney has received a notification from President Buchanan of his intention to institute a prosecution for libel on account of the article in the Press on Monday, in relation to the death of Mr. Broderick.

IOWA ELECTION.—*Chicago, Oct.* 13.—There is nothing definite yet from Iowa.—Returns from 13 counties are received, which give about the same majorities as in 1857.

PEOPLE'S LYCEUM FOR 1859–'60.

STOVES AND FURNACES.

FRANK JONES,
61 *MARKET ST., PORTSMOUTH,*
Having received a part of his Winter Stock of
SUPERIOR COOKING STOVES,
would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found
THE CLIPPER, BOSTON & MAINE, EMPIRE STATE, WHITE MOUNTAIN, REPUBLIC, BANNER, &c.,
with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range

One of the greatest inventions of the age, for Cooking purposes.—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

The Calebrated Magee Patent
Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"*Try the Magee.*"

PARLOR STOVES
of the most approved kinds.
STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,
.7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally.
TIN, SHEET IRON & COPPER WARE, manufactured to order.

☞ Prices as low as at any other establishment in this vicinity, and satisfaction guaranted in all cases.

From the Journal.

NOBLE GENEROSITY AND FILIAL RESPECT.—It is regarded a mark of peculiar honesty for a conscientious man, who has once been discharged by his creditors on the payment of a portion of their claims, to come forward afterwards, when more favored by fortune, and pay up the balance. Although this is no more than the golden rule would dictate, yet the instances are so rare that they are noted among memorable things.

A matter has this week come to our knowledge, which takes a stand one grade higher; and we take pleasure in recording it, although we do it at the risk of not receiving the approbation of the gentleman most interested.

About fifteen years ago Joseph W. March, Esq. of Greenland, died. His estate was administered upon as insolvent, and demands amounting to over thirteen thousand dollars were approved by the Commissioner. To meet these demands, there was less than three thousand dollars—so about 15 cents was paid on a dollar,—and the estate fully settled in 1845.

On Saturday last, CLEMENT MARCH, Esq. a son of the above named gentleman, unrolled at our desk the list of claims which had the receipt of each creditor, and finding our claim $60,71 had been discharged by $8,98, he handed us $51,73, for which we very readily gave our receipt, and our thanks. We found as we cast our eye over the paper that he was making full payment to all his father's creditors. His large fortune is ample to pay out ten thousand dollars in this way—but how few could be found with the ability, who would without a moral obligation pay such a marked respect to the memory of a father—and that too so long after his decease that most of his creditors had forgotten that they ever had claims. It is an act of noble generosity, prompted by filial respect, above all praise.

From the N. H. Gazette.

☞ We understand that the Portsmouth Aqueduct Company have obtained from the Judges of the Supreme Court an injunction against the Concord and Portsmouth Railroad, henceforth restraining them from digging any pit, ditch or excavation, whereby the water of the spring on the line of the railroad may be diverted, diminished or wasted, or from doing any act by which it in any way may be deteriorated or rendered unfit for use. This action of the Court stops all further proceedings on the part of the Railroad Co., until a full hearing of the case is had, and the question of ownership of the property decided.

HEROIC CONDUCT.—A letter from Naples, dated Sept. 4, gives an interesting account of an act of heroism performed by Mr. Gustavus F. Hall, a former clerk of John Woodbury & Co. of Gloucester, Mass. and now absent in Italy for the perfection of a musical education:

A large house was in flames, when to the surprise and horror of all, several persons were seen at the window of the third floor. The spectators seemed paralyzed, and no one dared to venture to rescue them, when Mr. Hall threw his coat and hat into the hands of a soldier, and darted up the stairs. Finding that access by the door of the apartment was impossible, he dashed out of the window upon a balcony which led near the room, but did not reach the window within several feet. So striding the railing and bracing himself the best way he could, he called to the lady nearest to him to throw herself into his arms, which she did. It was well for Hall that he is a remarkably powerful man, or he and his burden must have fallen into the street.

After carrying her down, he returned for the two children, and then going up once more he brought down the nurse. The bravos of the admiring but not courageous crowd, when they saw the whole family rescued, were long and loud.—Prince Luigi, a brother of the late King, who was there and witnessed the bravery of Mr. Hall, expressed in voice above all others his delight and approbation. The gratitude of the family to Mr. Hall is very great, and their expression of it touching to witness.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much small, than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

GROVER & BAKER'S
Celebrated Family Sewing Machines.

No. 18 Summer Street, Boston.

NEW STYLES.

PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE
GROVER & BAKER
SEWING MACHINE COMPANY,

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

TESTIMONIALS.

☞ READ THE FOLLOWING INTERESTING LETTERS.

Athens, Greece, July 20th, 1859.

Grover & Baker S. M. Co., Boston:

Gentlemen—My wife is so much pleased with your sewing machine that she has addressed a few lines to you, expressing the high degree of satisfaction it has given her. But as she has written to you in Greek, and thinking it possible that you may not read with facility that language, she has requested me to translate it for you into English, which I have done, and enclose herewith both the original and the translation.

And I must add that I myself even admire your machine, and that it has been of immense use to my family, and to many others, who are poor, and whom my wife has gratuitously assisted in sewing.

Yours truly, JONAS KING.
Missionary of the A. B. C. F. M.

[*Translation of Mrs. King's Letter to Grover & Baker S. M. Co.*]

Benefactors of the Female Race:

It is now about three years that I have the happiness to use your machine for sewing, and also the pleasure of aiding others, who are poor seamstresses, and all wonder at the rapidity of the work of the machine, and praise and admire the wisdom of the inventor, and bless you also.

I therefore recommend to all families to purchase without fail your machine, and propose to all the ladies to unite with me, and crown you with olive and laurel.

May you have health.
Athens, 7—19, July, 1859. A. A. KING.

HENRY WARD BEECHER SAYS:

"I pity those women whose staff is their needle, for when they lean upon it, it pierces not their side but their heart. * * * I think the needle has slain more than the sword of war."

THE AMERICAN MEDICAL MONTHLY SAYS:

"When we physicians prescribe iron for the pale girl who sews all day, let us remember also to order one of Grover & Baker's Sewing Machines in the morning, and a romp out of doors in the afternoon."

PROF. OLMSTED SAYS:

"In the useful arts and comforts of life we have greatly the advantage of the ancients. The *Sewing Machine* alone is worth all their inventions."

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found fault with.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 3, 1858.

MESSRS. O. J. WOOD & Co.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, &c.
D. R. THOMAS, M. D.,
No. 403 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, and retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose taken as a preventive of FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

The Sagamore House, Frost's Point,
IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

S. B. FITTS, Proprietor,

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions are accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are described upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 d1y

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruption, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting ealth. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tean assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER's, and take no other. The sick want the best aid there is for them, and they should have it.
All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* never been able to say of any other medicine NEVER HAS IT FAILED, IN A SINGLE INSTANCE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted to speak in terms of the highest encomendation of its medicinal effects and medical virtues. We speak, in this matter, *"what we do know,"* after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST SKILLFUL NURSES EXPERIENCED and has been used with in New England and THOUSANDS *never-failing success,* in OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects, acidity, and gives tone and energy to the whole system. It will instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York
Price only 25 cents per bottle.

Patent Indelible Pencil,
FOR MARKING CLOTHING.
Patented May 31, 1859.
This article has the following claims to public attention: It can be used with greater ease in writing upon all kinds of cloth; will not dry up like ink; will sharpen well without breaking, in being used as a Pencil; one box of pencils will mark THREE THOUSAND articles.
Many persons have found it difficult to procure an article that will be permanent—they will find this all they can desire. It does not cost one-third as much as Ink.
The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of House keepers. This pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked, and it will leave an indelible mark thereupon.—(Scientific American, June 11, 1859.

MONDAY, OCT. 17, 1859.

CHINA.—There is no later news, but the Paris Patrie publishes the following in regard to the movements of Mr. Ward, the American minister. "The last news from Shanghae establishes beyond doubt, the arrival of Mr. Ward, the American Envoy, at Pekin. This diplomat ascended the Ki-Cehcon-Yun-Ho, one of the principal branches of the Peiho, accompanied by all the members of his legation. Arrived at Ningho-fou, the American corvette which had brought Mr. Ward, was retained in port. The members of the Legation, under guide of a Mandarin, were placed in a huge box, about five metres long by three broad, which was closed everywhere but above, so as to prevent those in it from seeing the country.

This box, or traveling chamber, provided with all things necessary to the comfort of the traveller, was placed on a raft, and taken first up the river, and then up the Imperial Canal as far as the gate of the capital. Here it was placed on a large truck drawn by oxen, and in this way the Minister of the United States and the members of the Legation entered the town of Pekin. They were perfectly well-treated by the Chinese, but were not allowed to see anything. The truck was drawn into the court yard, which would be the residence of the American Envoy, but from which they were not allowed to go out. At the latest dates they were awaiting their interview with the Emperor. They had not been allowed to have any communication with the outer world, but were permitted to send a despatch to Mr. Fish, the American Consul at Shanghae, informing him of their safety. After the interview the American Minister was to be reconducted to the frontier, in the same way as that in which he came.

THE OVERLAND MAIL AND THE TEXAS INDIANS.—The greatest danger to the overland mail is said to be the Camanche Indians, in Texas. The last mail brings accounts that 110 Camanches attacked the mail station near the Concho, drove away the station keeper and his wife, and carried away all the animals, cooking utensils, blankets and stores. They left after firing over fifty arrows and some rifle balls into the house. The stage came along soon after, and found the station people just returned, half scared out of their wits, and no animals for the mail coach. Captain Alden, of Hartford, Conn., and two men with him, going out to the Sonora silver mines, were thus compelled to foot it to the next station, twenty miles, and carry rifles and revolvers, expecting every moment an attack. Capt. Alden and his party reached Tueson in fine spirits, but profoundly impressed with the idea that the overland mail was a "hard road to travel."

☞ At Plymouth, England, a few weeks since, whilst a donkey-driver was giving his ass a potato, he placed his hand partly in the animal's mouth, when he received a slight bite in the fleshy part, between the thumb and forefinger. The wound appeared so trivial that he took no notice of it till Sunday following, when his hand and arm commenced to swell and discolor to a most alarming extent, and despite medical assistance, mortification of the arm ensued, and the poor man expired in great agony.

THE TRADE OF CUBA IN SLAVES AND COOLIES.—The Havana correspondent of the New York Herald, reports the landing of two more cargoes of bozales, one from a Spanish vessel, between three and four hundred in number, near Cardenas; the other near Cienfuegos, seven hundred and fifty in number or thereabouts.

It is understood that thirty-one slavers have been captured on the coast of Africa by British cruisers within the past few months.

The same correspondent says—the last arrival of coolies, per Spanish ship Primera de Espana, was not reported in my last report, it having been omitted from the official published statements previously sent. This vessel took on board at Macao 757 delivered alive here, 537; died on the voyage, 220; making this date shipped 50,880. Received, 43,018; died in transit, 7,862.

☞ The turn-out of the London builders still continues, but the men appear to be losing ground, and it is thought that matters will be settled before long—probably by concessions on both sides. The expectation that the men will be able to obtain ten hours' wages for nine hours' work is now abandoned.

☞ A valuable slave man, belonging to Mr. Benton, of Sharpsburg, Md., hung himself on Monday night last, in consequence of his master refusing to sell him to go south with a colored girl, upon whom his heart's affections had been placed.

☞ The only land where all men are equal, is the land of Nod—the veritable cap of liberty is the night-cap.

A ROTTEN MAN-OF-WAR.—In the Navy Yard at Charlestown, Mass., the Minnesota is in the dry dock, undergoing repairs. A survey of the hull of this vessel shows that she is unseaworthy. Scarce a stroke of the ax upon any part of the hull, above the water line, the knees, deck timbers, and the timbers around the port-holes, but falls into soft, pulpy, rotten wood. There must have been something wrong in the character of the timber used in the construction of the vessel. She was built at Philadelphia, of wood seasoned at Norfolk, the climate of which locality may have been the cause of the defect. It is apprehended that the Colorado, built of the same kind of timber, is in a similar condition.

CONFIRMED.—Some time ago a statement was published, taken from the Newport Gazette, Perry county, Pa., to the effect that a Mr. Black of Newport had died in consequence of an incision made by a rooster with his spurs, in the arteries of the hand, imitating previous to his death the flapping and crowing of a rooster. The statement has gone the rounds of the press, accompanied in most cases by comments of an incredulous nature. But it appears to have been true, nevertheless. The Harrisburg Patriot is informed by a gentleman from Newport, who was present at Mr. Black's death, that the account published in the Gazette of that place is strictly true in every particular; that Mr. Black suffered the most excruciating agony, and that he made attempts to crow, flapping his arms, and making a noise so similar to a rooster that those outside the house were persuaded to believe that it was one, until he was relieved by death.

☞ The San Francisco correspondent of the Philadelphia North American states that Mr. Broderick declared to some of his friends, a few hours previous to the duel, that he did not wish to fight with Judge Terry, and that if he were compelled to do so he would not kill him, as he would shoot at his legs. The following are reported to have been the last words of the Senator:—"They have killed me because I am opposed to slavery and a corrupt administration."

A clergyman of Concord, N. H., met a little boy of his acquaintance on the cars, said to him, "This is quite a stormy day, my son." "Yes sir," said the boy, "this is a very *wet* rain." The clergyman, thinking to rebuke such a hyperbole, asked if he ever knew other than wet rain. The boy answered that he never knew personally of any other, but he had read in a certain book, of a time when it rained fire and brimstone, and he guessed that was not a wet rain.—*Concord Statesman.*

☞ A citizen of Brooklyn bought an old clock at auction a few days ago for ten dollars. On taking it home he discovered that a looking-glass which was in the back of the clock was cracked. He took it out with with the intention of having a new one put in, when to his astonishment he discovered notes of the Bank of England behind it amounting to about $3000.

WASHINGTON, Oct. 14.—The President authorizes the emphatic denial of the truth of the dispatch from Philadelphia, which stated that Col. Forney had received a notification from him of his intention to institute a prosecution for libel on account of the article in the Press of Monday last, in relation to the death of Senator Broderick.

☞ Prof. Joseph G. Hoyt, formerly of Phillips Academy, Exeter, was inaugurated Chancellor of Washington University, at St. Louis, on the 4th of October.

AUSTRALIA. — Telegraphic advices, in anticipation of the arrival of the Australian mail, state that the screw steamer Admilla was totally lost on the 6th of August, near Cape Northumberland. Eighty-seven lives were lost, only twenty-five of the whole number on board being saved.

☞ The new stamped envelopes adopted by the government are out. Only a fraction of a mill is charged for each above the price paid for the old stamped envelopes.

LEGAL DECISION.—*Detroit, Oct.* 14.—In the Supreme Court of Michigan, this day, a decision was rendered, denying the jurisdiction of the U. S. Supreme Court in the well known case of Deputy U. S. Marshal Tyler, charged with killing Capt. Jones, of the brig Condor, last fall. Tyler has been remanded for trial in the State Court.

☞ The Orthodox Congregational church in Keene has unanimously voted to give Rev. Mr. Hamilton, who has preached the past year very acceptably to a portion of the society, a call to settle over them as colleague pastor with Rev. Dr. Barstow.

☞ Rev. Geo. E. Adams has preached in Brunswick, Me., 30 years, and the Telegraph says that in his 30th anniversary sermon on the 25th ult., he said that but *one* person was present who listened to his first sermon in that town.

☞ It is complained that the Market Days, originated the present season, have taken too much the nature of *Shows*. They were started for business.

NEW ORLEANS, Oct. 14.—A Vigilance Committee has been formed at Marksville, La., to aid the police in arresting dangerous characters.

☞ Forty-eight Indian squaws were arrested on Sunday, Oct. 9, in a house of ill-fame in Montreal.

☞ The venerable Peter Parley Goodrich was in New York, on Thursday, leaning on the arm of his son, "Dick Tinto" Goodrich. The old man is fading and failing fast. He wore his spectacles, and had a handkerchief around his throat. His step was unsteady, and the popular author, who has delighted so many hearts and homes, and given to the schools so many pleasant and useful books, cannot long remain among men. It is very rarely now-a-days that the old man leaves his quiet home in Connecticut to make a visit to New York.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

BLOOD FOOD.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of phisiology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which, Dr. Bronson was restored to perfect health. Within six months after its production, over 2000 consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, *Cough, Cold, Headache, Palpitation of the Heart, Loss of Appetite, or Pain in the Side,* lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from *Nervous Debility,* or your sleep is broken and disturbed, if your Spirits are depressed or your organs relaxed, you will find in this an unfailing remedy, by commencing with *ten drops.* If your Liver is torpid or diseased in any manner whatever, *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia,* the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking *only one bottle.* In *Male or Female Complaints or Weaknesses,* the sufferer, after trying other remidies in vain, may rest assured, that a certain cure will result from the use of *two or three bottles.* The "BLOOD FOOD" is effectual in all cases of Eruptions, Salt Rheum, Scrofulas, and other like complaints. *Pale and emaciated children and adults* are immediately benefitted by its use. It gives strength to the body, and color and beauty to the skin. Physicians of all schools are using it with wonderful success.

For full directions, see circulars. Price $1 per bottle.

Special Notices.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, AND PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids. It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 29, 1858

Messrs. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,
JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Billious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Wm. B. Oliver, Esq., F. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

BULBOUS FLOWER ROOTS,

FOR AUTUMN PLANTING.

J. F. SHORES, JR., No. 1 CONGRESS BLOCK,
Has just received a supply.

These bulbs are in fine order. For flowering in the spring, plant this fall in the open ground—placing them from 2 to 5 inches below the surface, with a good supply of sand around the bulbs.

For winter flowering, put them into pots or boxes with any common garden soil mixed with a little sand; then place them in a dark closet for 4 or 5 weeks, watering but little: after they begin to sprout, place in the sun and freely water and they will bloom in February or March.

HANDSOME PRESENT.

We are glad to record that a valuable and useful present has been made to Rev. G. Beebe, missionary and teacher at Gosport, Isles of Shoals.

Prof. Oliver J. Shaw, of Utica, N. Y., has presented him with a beautiful Melodeon, to be used in the church. It was made by Mason & Hamlin, of Boston, who contributed in part towards the present.—Gottschalberg and other eminent professors of music speak very highly of their melodeons.

Prof. Shaw has for several years interested himself in this mission, and during his long summer visits to the Shoals has had abundant opportunity of witnessing the good results of missionary labors there; and to encourage them, he at one time presented the mission with a complete Sabbath School library; at another time he presented a handsome book to each Sunday School scholar, and at various times has rendered pecuniary aid to the indigent sick and also to the missionary; and lastly presented him with the above instrument.

It seems proper publicly to acknowledge the continual kindness of his through the papers, and thus encourage others to assist in the mission.

Rev. Geo. Beebe, the missionary, has been at the Shoals nearly four years. He is the only pastor, teacher, and physician at the Isles. He is sustained principally by the "Society for propagating the Gospel," partially by contributions from the members of Dr. Peabody's society and others in Portsmouth, and partially by the Shoals people themselves, who last year gave him $23. It is a mission that makes but little show; but is, nevertheless, of unquestionable utility.

THE LYCEUM.—The opening entertainment—the lecture by Mr. King, and the piano music of Mr. Lang,—is pronounced by the hearers, to have been one of the best ever offered on any such occasion.

The second, for Thursday (instead of Tuesday) evening next, is a Concert by Gilmore's Serenade Band; which occupies a position second to no other of the sort in the land. They have given a long series of promenade concerts at the Boston Music Hall, the past summer, which the Transcript pronounces the most satisfactory and successful entertainments of the season. Wherever they appear, they excite the greatest enthusiasm, and draw immense houses. In Lowell, last week, hundreds failed to gain much-desired admittance to one of their concerts. They are now in New York, and will not appear in Portsmouth prior to Thursday evening.

Hon. Hampden Cutts will probably come out, with readings,—and we will now only say, that we never heard any other to read so well as he.

Dr. Windship, "the strong man," has proved a very attractive lecturer.

Rev. Mr. Fletcher has a Concert-Lecture, on the "Land of Tell," vocal and instrumental music being interspersed throughout;—rendering it one of the most interesting and refined entertainments. It has been given in many large cities, with great effect and the best sucess.

As to Rev. Mr. Adams, and Albert Laighton,—they are too much at home with our citizens, to need introduction.

It would seem that the entertainments named were sufficient for a single dollar;—the three others, equally good, will be added in due time.

MRS. MACREADY.—The last opportunity to hear this singularly talented lady read, or impersonate, is offered this evening. The entertainments on Friday and Sunday evenings were well attended; and of course we did not fail to give complete satisfaction to all who have any taste for the drama.—The programme for to-night is rich indeed, if it has any fault, it is in "too much of a good thing."

☞ Proposals have been made to the managers of the Eastern Railroad, to run an Excursion Train to Boston, on Thursday next; but the answer of the Superintendent as to terms, &c., was not received in this city on Saturday night, as had been expected.

☞ The New Hampshire Baptist Convention will hold its thirty-third anniversary in the Baptist Church of Nashua, this state, commencing on Wednesday, at 10 o'clock A. M., and closing on Thursday at 4 P. M.

THRUSTING ITS FRIENDS.—Walter Harman, on taking the chair at the democratic convention said, "The gates of hell will not prevail against the democrary. The Nashua Telegraph don't think they need fear anything from that quarter.

The Newburyport Herald thinks Douglas should be "sunk out of reach of daylight, and beyond recovery, unless he has the boldness to repudiate the Charleston Covention in advance, and *put himself* before the people of the country for President." The Black Republicans have been very liberal in offering Judge Douglas advice, but he knows the value of it to well to be influenced by what they say.—*Post.*

PEOPLE'S LYCEUM FOR 1859-'60.

Course Tickets $1. Evening Tickets 25 cts.

☞ Thursday Evening, Oct. 20th, ☜ GILMORE'S SERENADE BAND will give one of their splendid Concerts.

Hon. HAMPDEN CUTTS, Tuesday, Oct. 25. Readings from Shakespeare and others.

Dr. WINDSHIP, Tuesday, Nov. 1. Lecture on "Physical Education."

Rev. J. C. FLETCHER, Lecture on the "Land of Tell," illustrated with appropriate music.

Rev. J. G. Adams will lecture.

Albert Laighton will read a new Poem.

And there will be three other lectures or concerts, (ten in all) of an equally high order with those named.

☞ Tickets may be had at Preston's, N. P. Thacher's, J. H. Thacher's, and the Door.

Doors open at half-past 6—Music at 7—Lecture at half-past 7.

JOSEPH M. EDMONDS,
FRANK W. MILLER.

☞ On account of unavoidable circumstances, the Lecture of Rev. J. C. Fletcher before the People's Lyceum, announced for next Tuesday evening, will be given on some future evening of this Course. No lecture will be given next week; but Gilmore's celebrated Serenade Band have been engaged to give one of their unexcelled Concerts before the Lyceum, on Thursday evening, Oct. 20th.

Tickets for the evening 25 cents—for the Course $1.

Arrangements will also be made for at least one more grand Concert (vocal or instrumental) during the Course.

HIGHWAYS OF TRAVEL.

This new book was briefly and favorably noticed in our columns on Saturday, as published by Walker, Wise & Co., Boston,—and for sale by J. H. Foster in this city. A more extended and critical notice is here copied from the North American Review:

Crowded as the book-market is with records of travel, a new claimant to public favor in that department ought to exhibit some special title to regard and interest;—and we hesitate not to say that in the crowd there is rightful room and an assured welcome for the volume whose early sheets now lie before us, and whose appearance will be announced before these pages of ours see the light. Mrs. Sweat has indeed passed over for the most part only the "*highways* of travel;" but she did not, like most American tourists, dash over them as if pursued by some dire Nemesis, depending on guide-books to supply the numberless *lacunæ* of things not seen. She actually *saw* places, lingered where it was pleasant and profitable to linger, and enjoyed all that was attractive in her successive places of sojourn. Especially in Paris she seems to us to have seen more and better than any other recent tourist whose travels have been given to the press. Her descriptions of buildings strike us as pecularly happy. They are not pseudo-scientific and ostentatiously technical; nor are they subjective, full of what *she* felt under such and such a roof or dome, But they give us just the measurement, estimate and impression which we should derive from the calm and unexaggerated oral narrative of a person of accurate eye and cultivated taste.

What a tourist or traveller brings home, depends on what he carries from home;—and Mrs. Sweat has given us in these pages a rich freight from foreign lands, simply because she started on her travels with a familiar knowledge of what could be known without sight as to the countries, cities and scenery she was going to visit, and with that high and extended general culture which opens the eye and ear, enhances the receptivity, and multiplies to an indefinite degree the results of observation. Then, too, our author brings to this task an experienced pen, the established habit of literary labor, and the prestige of marked success in other departments of literature. Her style is easy, simple, tasteful and elegant, free from offensive egotism, and yet witth just enough of subjectiveness—(we do not like the seeming affectation of this word, but has it a synonyme?)—with just enough subjectiveness to make us feel that we are in communion with an interesting fellow-traveller, and not reading a wholly impersonal statement of facts in topography and art.

MR. IRELAND, in his travels "From Wall Street to Cashmere," says of the costume of the Dutch in Java:

It would rather astonish an American woman's propriety to see a lady promenading a hotel piazza or the deck of a vessel, as they do, with nothing on but a sarone, (over only one other article of a lady's toilette,) kept in place by rolling over and tucking in at the waist what sailors term "the slack" of the skirt, and depending entirely upon the hips and this tucking to keep it in place. Over this, men and women wear a loose grass-cloth sack, that descends about six inches below the waist;—neither sex wearing shoes or stockings, but shuffling along in slippers without heel pieces. The only difference is, the women loosen and let their hair fall down on the back, and the men leave theirs untouched after the night's repose.

A fellow went into the Syracuse police office a few days ago, and asked if there was any penalty against suicide by drowning, adding that he contemplated such an act. "No," said the Chief, "there is no human law against it. Officer, show him the deepest place in the canal."

☞ The charge of manslaughter against Mr. Toledano, for killing Dr. Graham at New Orleans, has been withdrawn, and he has been discharged from custody.

☞ The report that Gen. Peaslee had decided to make Minnesota his home for the future, is contradicted.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE, EMPIRE STATE, WHITE MOUNTAIN, REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

The Calebrated Magee Patent Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"*Try the Magee.*"

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction.

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally.
TIN, SHEET IRON & COPPER WARE, manufactured to order.

☞ Prices as low as at any other establishment in this vicinity, and satisfaction guarantied in all cases.

The News.

☞ The latest news from Europe, comes per steamer Africa, from Liverpool, Oct. 1.

The Great Eastern remained at Portland, and if she is removed from that port before going to Holyhead, the Directors have determined that she shall go to Southampton.

ITALY.—The Times' Paris correspondent says:—The latest and most accredited report respecting Italy is that the Grand Duke of Tuscany will regain his throne, not by forcible means, but by an appeal of universal suffrage, accompanied by the grant of the constitution, and by a general amnesty; that the Duchess of Parma will have Modena, and that Parma will remain annexed to Piedmont. The warmest and most sanguine partizans have now given up hopes of being emancipated from Papal rule.

The Herald Paris correspondent says:—The Duke of Modena is at the head of 10,000 troops, backed by 5,000 more under the Grand Duke of Tuscany.

Kalbermatter has collected some 10,000 men, of whom about one-third are Croats, and the remainder Swiss, and he has gone out to Vienna, it is said, to organize a plan of attack against Fanti's army of Central Italy, now concentrated around Rimini, whilst the Archdukes would operate from the North.

Piedmont is also eagerly preparing for the fray.

It is stated that the reports of disturbances in Naples are unfounded, but that some agitation prevailed and government had taken precautionary measures.

A movement of troops was taking place at Naples, and important commands are said to have been already bestowed.

Rumor says that the Pope contemplates abandoning Rome, and again taking refuge at Gaita.

Naples letters of the 7th state that 15,000 soldiers had been sent to the frontiers, and that 10,000 more would soon follow.

FROM TEXAS.—Advices from San Antonio state that Gen. Twiggs had responded to the call for aid from Brownsville, that he has not enough men at his disposal to drive the Indians from the frontiers, and can therefore do nothing.

The ranches on the Texas side of the Rio Grande have been abandoned, on account of Indian depredations.

The citizens of San Antonio were raising two companies of rangers, and other places were raising volunteers, on account of Gen. Twiggs' inability to protect the country.

LYNCHING IN ILLINOIS.—The papers furnish an account of a murder and the execution of the murderer under lynch law, at Mound City, Hulaski county, Illinois. The murder occurred Saturday night, when a fight took place between a moulder and a carpenter. Another moulder, by the name of Vaughan, was looking on, and perceiving that the carpenter was getting the upper hand, Vaughan deliberately drew a pistol, and shot him through the heart. The murderer was pursued to the Kentucky side, where he was found armed with a shot-gun, and threatened to shoot those who came to take him. He was taken, however, carried back to Mound City, and lodged in jail.—On Sunday night about two hundred of the citizens of Mound City assembled, proceeded to the jail, took out the murderer, gave him fifteen minutes to say his prayers, and then hung him up until he was dead.

Vaughan's father, another desperado, went up to Mound City after the hanging, but was promised the same fate if he did not get away, and made himself scarce.

MINNESOTA ELECTION.—*Chicago, Oct.* 14.—The St. Paul Times of the 13th says: The returns received thus far show gains over last year of Ramsay county 500; for Hennepin county 500; Dacotah county 400; Rice county 170; Washington county 100; Anoka county 100; Cower county 100. The Republicans are known to have gained two Representatives in Anoka, and probably five Republicans in Dacotah.—The Democrats gain four in Winona.—There is but little doubt of the election of Republican Congressmen, Governor and State ticket, and a Republican majority in both branches of the Legislature.

PENNSYLVANIA ELECTION.—*Philadelphia, Oct.* 14.—The official vote of this city elects 12 opposition and 5 Democratic members of the Assembly. The only Senatorial District supposed to elect a Democrat is still doubtful. Cumberland county gives Irwin, opp., 84 maj.; Perry, Mifflin, and Juniata, are to be heard from.

LATE FROM HAYTI.—*New York, Oct.* 14. Late Port au Prince advices state that the country was generally quiet. Some sixty conspirators had been arrested, including the asssasin of President Gefrard's daughter. Their trial was set for Sept. 26th, and the President had declared they need expect no leniency from him.

NEW YORK, Oct. 15.—The Times' Washington correspondent says an official investigation is now being made into the past transactions of the Agricultural Bureau, which will probably result in an expose of a deficit to the amount of $100,000.

CHATEAGUAY, Oct. 15.—Snow fell lively here this morning, to the depth of half an inch.

The State Convention.

The Convention met at Concord last Tuesday agreeably to call, was well attended, and, we are free to say, agreeably disappointed as in its action. We publish the proceedings, including the resolutions, in another column, as reported for the Boston Post, and any error they may contain will be corrected next week, when we will give the list of delegates.

As will be seen, Col. Cate was renominated for Governor, and Hon. Frederick Vose for Railroad Commissioner—the former on the second ballot, James D. Cheney of Manchester being the opposing candidate, and the latter unanimously. This is probably as well as the Convention could have done. We deemed the nominations to be made of far less importance than the platform which the Convention should adopt; and if the resolutions are not quite up to our mark, we think all must see that they come a long stretch nearer the true Democratic standard than those of the last Convention, and that their fault is more in the mode of expression employed than in the substance. It matters but little what particular men are put forward for the suffrages of the Democratic party, if they are honest and capable, so long as the principles of the party are preserved pure and sound, and we think the Convention has made a decided advance towards correcting past errors in this particular.

The resolution endorsing the Administration is not so full and unqualified as it should be, but the more important one, declaring the position of the party upon the great question of the rights and equality of the States as connected with the Territories, could not be made stronger, although it might easily be expressed in clearer language: "Resolved, That we re-affirm our steadfast adherence to the Cincinnati platform—to the great principle of Popular Sovereignty, subject only to the limits of the Constitution." This is all there is of the first and important resolution of the series that means anything, and we most cordially endorse and approve it. It is precisely our platform, and a sound and correct doctrine which all Democrats who appreciate the blessings which the Union confers, and have the peace and prosperity of the country at heart, can cordially unite in maintaining.

The Cincinnati platform declares this "great principle of popular sovereignty" to be "the right of the people of all the Territories, including Kansas and Nebraska, acting through the legally and fairly expressed will of a majority of actual residents, and *whenever the number of their inhabitants justifies it, to form a constitution with or without domestic slavery*, and to be admitted into the Union upon terms of perfect equality with the other States;" the Supreme Court has affirmed the correctness of this definition, and reason sanctions and approves it. It is the doctrine upon which the Democracy of the nation conducted the last Presidential contest to a successful issue. They must stand upon it in the approaching contest, for they can be united and successful on no other platform. We therefore hail the Convention's bold avowal of steadfast adherence to the Cincinnati platform as an evidence of returning sense among the Democracy of the North, and a bright omen that the Democratic party of the nation are to be united and victorious in the coming Presidential struggle.

The proceedings of the Convention seem to have been entirely harmonious, with the exception of a little excitement created by Mr. Alexander of this city, by an effort to engraft his Douglas squatter-sovereignty doctrine upon the first resolution. His amendment, however, was promptly rejected, and the resolutions reported by the Committee adopted.

We repeat, we are very well satisfied with the action of the Convention, on the whole. The proceedings were much above our expectations; and if they shall not effect a Democratic triumph in the State next March, they will exert a due influence for good, in laying the foundation for future success, and in preserving the union of the party North and South, upon which its continued ascendency in the nation is rendered sure.

THE CAUCUSES.—Very little interest was felt by the Democrats of this city generally in the meetings held last week for the choice of delegates to attend the State Convention. The feeling prevailed that, after the experience of last winter, it was unimportant whether Portsmouth should be represented in the Convention this fall or not.

Taking advantage of this state of feeling, a couple of gentlemen in Ward 1, who have been superseded in office by the national administration, by a considerable previous planning and effort, succeeded in rallying twenty sympathisers to the meeting, and with this number, in the apathetic condition of the party which prevailed, had things their own way. They organized the meeting by the choice of A. H. Hoyt, Esq., a present officer of the Government in sympathy with them, as Chairman, chose themselves delegates to the State Convention, and then, being animated by a strong and laudable desire to be reinstated in the service of the country in that bright and glorious era in the future when Mr. Douglas shall sit in the Presidential chair and dispense the coveted favors, quite enthusiastically declared for the "Little Giant" and squatter-sovereignty, in some resolutions which we publish in another place by vote of the meeting. This proceeding is important as establishing the fact, to appearance, that there are *twenty* straightout Douglas men in Portsmouth, and of course the leaders in this great demonstration will only have to appear before Mr. Douglas with their resolutions in hand when he shall be President to secure the reward of their patriotism in their choice of the offices in his gift.

We should have bestowed no notice upon this meeting except for the vote to give publicity to its proceedings in the columns of this paper, and the utter recklessness evinced by its managers of the interests of the Democratic party in this city. In addition to the proceeding mentioned, they assumed the power, under a call simply to elect delegates, to choose a Nominating and Prudential Committee; and we hear of their boastings that no candidates will be nominated in the Ward except such as shall place themselves on the Douglas platform. But whether they attempt to carry out this new-test threat or not, what they have already done cannot but operate to weaken the Democratic strength in the Ward, of which there is none to spare. Men who are thus willing to jeopardize the interests and ascendency of the Democratic party to promote their own selfish ends are entitled to little countenance from honest Democrats, and will receive little, when their motives and aims are understood. If the Democracy of Ward 1 shall experience disaster in the city election which takes place in a few weeks, and the city be thrown into the hands of the Opposition, the managers of this meeting will be responsible for the result.

GROVER & BAKER'S

Celebrated Family Sewing Machines.

No. 18 Summer Street, Boston.

NEW STYLES.

PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY,

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

TESTIMONIALS.

☞ READ THE FOLLOWING INTERESTING LETTERS. ☜

Athens, Greece, July 20th, 1859.

Grover & Baker S. M. Co., Boston:

Gentlemen—My wife is so much pleased with your sewing machine that she has addressed a few lines to you, expressing the high degree of satisfaction it has given her. But as she has written to you in Greek, and thinking it possible that you may not read with facility that language, she has requested me to translate it for you into English, which I have done, and enclose herewith both the original and the translation.

And I must add that I myself even admire your machine, and that it has been of immense use to my family, and to many others, who are poor, and whom my wife has gratuitously assisted in sewing.

Yours truly, JONAS KING.
Missionary of the A. B. C. F. M.

[*Translation of Mrs. King's Letter to Grover & Baker S. M. Co.*]

Benefactors of the Female Race:

It is now about three years that I have the happiness to use your machine for sewing, and also the pleasure of aiding others, who are poor seamstresses, and all wonder at the rapidity of the work of the machine, and praise and admire the wisdom of the inventor, and bless you also.

I therefore recommend to all families to purchase without fail your machine, and propose to all the ladies to unite with me, and crown you with olive and laurel.

May you have health.
Athens, 7—19, July, 1859. A. A. KING.

HENRY WARD BEECHER SAYS:

"I pity those women whose staff is their needle, for when they lean upon it, it pierces not their side but their heart. * * * I think the needle has slain more than the sword of war."

THE AMERICAN MEDICAL MONTHLY SAYS:

"When we physicians prescribe iron for the pale girl who sews all day, let us remember also to order one of Grover & Baker's Sewing Machines in the morning, and a romp out of doors in the afternoon."

PROF. OLMSTED SAYS:

"In the useful arts and comforts of life we have greatly the advantage of the ancients. The *Sewing Machine* alone is worth all their inventions."

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would at some time like to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, thrilling, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fail or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 3, 1858.

MESSRS. O. J. WOOD & Co.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY HERKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving the benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best FURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest, well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS DISEASES are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two tea-spoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 ly

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their live to the baneful influence of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

This medicine can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is recommended to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly discredited, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tean assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick want the best aid there is for them, and they should have it.
All our remedies are for sale by W. H. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

Patent Indelible Pencil,
FOR MARKING CLOTHING.
Patented May 31, 1859.
This article has the following claims to public attention: It can be used with greater ease in writing upon all kinds of cloth; will not dry up like ink; will sharpen well without breaking, in being used as a Pencil; one box of pencils will mark THREE THOUSAND articles.
Many persons have found it difficult to procure an article that will be permanent—they will find this all they can desire. It does not cost one-third as much as ink.
The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of House keepers. This pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked, and it will leave an indelible mark thereupon.—(Scientific American, June 11, 1859.

TUESDAY, OCT. 18, 1859.

☞ The great problem of the sources of the Nile, which has occupied the world during so many ages, may now be considered as definitely solved. Capt. Speke, who has just returned to England from an extended tour in Central Africa, in company with Capt. Burton, discovered a lake, called by the natives Nyanza, but by the Arabs Ukerewe, which appears to be the great reservoir of the Nile. It extends from 2 deg. 30 min. south to 3 deg. 30 min. north latitude, and lying across the equator in east longitude 33 deg. Its waters are the drainage of numerous hills which surround it on almost every side. The new lake washes out the Mountains of the Moon, as at present existing in our atlases.

ELOPEMENT IN LOUDON.—A coorespondent at Loudon Mills informs the Concord Statesman that Rufus D. Allen, a citizen of that place, left home last week, in company with his father-in-law, to attend the Fair at Dover. His wife went to her former home in Gilmanton, to tarry meanwhile. Allen and the father-in-law went to Haverhill, Mass., before visiting Dover, and between those places Allen contrived to quit his company and pass on to Durham, where his wife's sister was visiting, and it is supposed that the two latter eloped together, both being missing. The elopement became known to the people of Loudon last Saturday, when Mrs. Allen returned from Gilmanton, expecting to find her husband, and possibly her sister already there. Instead, the house was vacant, and the missing parties' clothing taken. It is supposed they went from Durham to Loudon, and then made off for parts unknown. The thoughtful and provident husband made a will some weeks ago, bequeathing his property, a few hundred dollars, to his wife.

The parties have all been considered respectable. The sister has resided in Allen's family some years.

☞ The Boston papers give accounts of a defalcation of the Treasurer of the Five Cents Savings Bank, Howard st., Isaac F. Shepard. The amount of his embezzlements is about $15,000. He has been engaged in his fraudulent operations since 1854. He has made a full confession.—Shepard was committed to jail Saturday evening, but subsequently found bail. The discovery of the fraud was made by the Bank Commissioners, who brought the matter before the Supreme Court, when an injunction was issued. The bank will lose nothing, being secure through the Treasurer's bonds.

Shepard states that he committed the first breach of trust in 1855, and that he purchased land in Weymouth and other places, and lost by it. In hopes of retrieving, he continued in various speculations, and these losses, with personal expenses beyond his income, (his salary as Treasurer was only $1400,) have placed him in his present deplorable condition.

Every taste may be corrupted by habit. Perhaps a man may get so accustomed to an offensive atmosphere, that he will stop his nose in passing a garden of jessamines and violets.

That's a fact—for we have more than once heard men who were filthy inside and out with tobacco—who corrupted and defiled the air about them—make loud complaint of passing ladies' perfumery; which might perhaps have been strong, but was clover and roses when compared with the flavor of the fault-finders.

☞ Kansas appears to continue pretty thoroughly Republican. The majority for the constitution, which was a test question, will not be far from six thousand, and there appears to be no doubt that Robinson, who in the former organization was the preference of the people, will be the first governor; and the new State will furnish two senators and a representative, and, next year, three electors of the Republican school.

☞ Messrs. Gould & Lincoln, booksellers, of Boston, have recently published, in a volume of something more than 300 pages, interesting and authentic sketches of four Leaders of the Reformation: Luther, Calvin, Latimer and Knox, the Representative Men of Germany, France, England and Scotland. By John Tullock, D. D. These sketches are in the form of Lectures; and they give the reader more information of the four reformatory heroes, than can be found elsewhere in the same compass.

The people of Holderness announce a Levee, the proceeds of which are to be devoted to the purchase of a hearse. The bill states this to be an enterprise in which every one should take an interest.—*Statesman.*

There are different ways of doing things. The most common way to buy a hearse, is *by* a town tax.

Rum has sunk more seamen than all the tempests that ever blew.

ENGLISH NEWS.—The last arrival is from Liverpool, Oct. 5, and gives us this brief announcement:

A Paris telegram briefly announces that Mr. Mason, the American Minister, died on the third, of apoplexy.

The Directors of the steamship Great Eastern had finally decided that the ship shall not go to Southampton, but leave Portland for Holyhead, on a trial trip, Oct. 8th, arriving at Holyhead about the 11th. If the trial be successful, it is still intended to despatch the vessel to America, Oct. 20.

No passengers are to be taken on the trial trip. It is said that the maximum number of revolutions shall be obtained from both engines, before proceeding to sea with passengers. During the trip from the Thames the paddles never exceeded 84, and the screw more than 32 revolutions per minute, and to obtain a maximum speed, the paddles must perform 14 revolutions.

The London builders' strike continues unabated, and although the masters profess to have 10,000 men working under terms of the anti-Society declaration, matters look quite threatening for the continuance of the strike.

The transport ship Clara, with nearly 400 soldiers, their wives and children, had a narrow escape from being wrecked in the channel. She ran on a rock, but was got off, and reached Plymouth, leaking badly.

The Times says that the agents of the French, Austrian and Sardinian governments, have been soliciting tenders from the leading English iron founders for a very large number of rifled cannon.

THE TURF.— The fastest mile ever trotted was done by Flora Temple, a few days ago, in 2:21 1-2.

The quickest half-mile in double harness also, by Bonner's team, of the New York Ledger, Lady Woodruff and Lantern, in 1m. 14 sec. 2:41 1-4 is the best previous double-team mile with two trotters.

Brown Dick beat Lancet, in New York, the other day, easily, in three straight heats of 2:32, 2:31, 2:32 1-2.

In Boston, last week, Columbus beat the Montreal stallion, Live Oak in 2:35 1-2, 2:36 3-4, 2:40.

At the Horse Fair in Boston, to-day, is the trade sale; trot between stallions Tom Carpenter, Columbus, Jr., Draco, Romeo; and also another between other horses.

Wednesday, trot for premium $500—for double teams—best 3 in 5. Hiram Woodruff is to to drive one team. Also another trot same day.

Thursday, premium $200—for horses that have never trotted better than 2:35. Mile heats, best 3 in five, to harness.

Friday will be devoted to the trade sales.

☞ Last Sunday, at the Music Hall, Boston, a letter was read from Rev. Theodore Parker, resigning his office of pastor, on account of the illness which caused the tour on which he is now absent. The Society refused to accept his resignation, and adopted resolutions accordingly. The attachment between the Society and Mr. Parker appears to be mutual, and stronger than ever before.

FROM HAYTI.—Advices are received from Port au Prince to the 29th ult. It was rumored that the leader of the last attempted revolution had landed at Cape Hayti. Some 25 revolutionists were in jail; it is supposed some would be shot and others banished to the United States. A shock of an earthquake was felt at Port au Prince, on the evening of the 17th.

☞ A few years ago, the Duke of Tuscany imprisoned the Madiai for circulating copies of the Bible; to-day, the Duke is a fugitive from his kingdom, and the Madiai are now engaged in circulating copies of the Scriptures — the provisional government having proclaimed freedom of conscience and full religious license.

☞ Prof. La Mountain, the æronaut, is in New York, relating in the newspaper offices his hair breadth escapes. The wilds of Canada gave him a touch of the rheumatism; otherwise he is said to look and be very well, and able to take his frogs reg'lar.

FROM THE FISHING GROUND.—A letter from the fishing ground says that for the last three weeks the fishing fleet had done but little. The opening of the month was encouraging enough, but several heavy blows in succession have prevented the accomplishment of anything since.

☞ The New York Commercial Advertiser, in moralizing upon the heinousness of duelling and pugilism, holds that duelists are but murderers, whatever sophistry may be employed to conceal the fact, and should be punished as such.

☞ Breeders of animals say the male always confers the external structure of the offspring, while the female gives the internal. The offspring will bear the external conformation and locomotive powers of the sire; and the internal, i. e., the vital organs or constitution, of the dam.

☞ David H. Munsey, of Barnstead, while engaged, last Wednesday, getting mill-logs into Suncook Pond, was either crushed by a log rolling over his body, or drowned. He was about 40 years of age, and leaves a wife, but no children.

☞ In the Legislature of Massachusetts, on Saturday, the resolve granting leave to place a statue of Horace Mann on the State House grounds, was passed to a third reading in the House, several proposed amendments having been rejected.

A SWINDLE.—The advertisement which has gone the rounds of the press, purporting to come from Cary & Smith, Tobacconists, New York, offering active reliable men from $600 to $800 a year, to act as travelling agents.

☞ In the Portland Municipal Court, Friday, the liquors seized a short time since from the premises of Hugh and Andrew McGlinchey were declared forfeited, no person appearing to claim the same.

☞ Mr. Samuel R. Fernald of Portland, was suddenly killed at Saco Friday morning, whither he had gone for the purpose of covering the roof of Calef Block with his Patent Roofing.

☞ A legal gentleman and a scientific whist player, objected to playing against a lady at a party, the other evening, because she had such a "winning way about her." Rather fastidious.

☞ Mr. James C. Dame, aged 89 years, died at Concord last week. He had for many years been a school teacher, and was an estimable man.

☞ The London Times, speaking of "muscle" in the old and new worlds, says physical deterioration is really the law in the United States.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

BLOOD FOOD.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of phislology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which, Dr. Bronson was restored to perfect health. Within six months after its introduction, over 2000 consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, *Cough, Cold, Headache, Palpitation of the Heart, Loss of Appetite, or Pain in the Side,* lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from *Nervous Debility,* or your sleep is broken and disturbed, if your spirits are depressed or your organs relaxed, you will find in this an unfailing remedy, by commencing with *ten drops.* If your Liver is torpid or diseased in any manner whatever, *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia,* the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking *only one bottle.* In *Male or Female Complaints or Weaknesses,* the sufferer, after trying other remidies in vain, may rest assured, that a certain cure will result from the use of *two or three bottles.* The "BLOOD FOOD" is effectual in all cases of Eruptions, Salt Rheum, Scrofulas, and other like complaints. *Pale and emaciated children and adults* are immediately benefitted by its use. It gives strength to the body, and color and beauty to the skin. Physicians of all schools are using it with wonderful success.

For full directions, see circulars. Price $1 per bottle.

Special Notices.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,
Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids. It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 20, 1858.
MESSRS. SETH W. FOWLE & CO., Boston, Mass.
Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,
JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Billious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

THAT EXCURSION TO BOSTON is to take place on Friday next, Oct. 21.

An extra train will be run both ways, which will probably leave the Eastern Depot in Portsmouth about seven o'clock, and leave Boston at 5. Particulars to-morrow.

Tickets $1.50, including fare up and back, and free admission to the Boston Athenæum galleries of rare statuary and paintings, &c.

Tickets are good for that day only, and will be sold at the depots from Portsmouth to Scabrook. Number limited.

☞ A rare treat is offered at the Lyceum on Thursday evening—the Concert by Gilmore's Serenade Band. And yet perhaps the other entertainments following in the list are equally valuable and attractive. A season ticket costs only a dollar, and ensures admission to the whole.

☞ The session of the Supreme Judicial Court begins here to-day; and as the *two* Courts have become one, all the business of the late Court of Common Pleas comes into this the Supreme,—and the Docket is very large.

MOUNT VERNON.—We are happy to announce to the people in and about Portsmouth that Mr. C. S. Tubbs, agent, of Philadelphia, is in this city, disposing of pictures of Mount Vernon, the home of Washington, a large and beautiful lithograph in tints—representing the two hundred acres purchased by the "Ladies' Society," and also the mansion, summer-house, green-house, with many other buildings; the parks, (one of which contains twenty acres,) gardens, trees, the old tomb, and the new and magnificent tomb now containing the remains of the "father of his country."

There rests the hero, who ne'er fought for fame,
Yet gained more glory than a Cæsar's name.
Great, without pomp; without ambition, brave;
Proud, not to conquer fellow men, but save.

What is more dear to every true American than the tomb and home of great Washington? When viewing his resting place, many and dear memories spontaneously fill the mind. We revere, in a moment, his greatness and goodness.

The "Home of Washington" the father, founder and adviser of this republic—should be in every family. T.

ACCIDENT.—Mrs. Sarah Howes, wife of Thomas Howes of Portsmouth, N. H., came to Boston from New York, Friday night, by the Providence steamboat train, accompanied by her sister and two girls from eight to ten years of age. The train arrived in Boston at five o'clock, and was backing out of the depot, when Mrs. Howes, in attempting to get from the train fell between a car and the platform. She was taken out as soon as possible, and found badly jammed in the regions of the hips, and injured internally. Her husband, who went up, from Portsmouth to meet her soon after, visited her at the hospital, and was told by the attending surgeons that they could give him no hopes of her recovery. Mrs. Howes is from England, and has been in this country about four years.

WILL COOKING STOVES EXPLODE?—Certainly they will, when well charged with gunpowder. A worthy and law-abiding citizen of Hampton purchased half a pound of powder the other day, and as he carried it home towards night, he fancied it was not dry enough for good fowling. So after tea, when the fire went down, he proceeded to deposit in the oven, against the protest of his wife, who thought it might be forgotten, and so cause an explosion. The husband persisted, however, and in course of the night there is no doubt the powder became dry. At all events, in the morning the two heads (?) of the family were both a little oblivious of the powder; and so the good woman filled the tea-kettle and put it on, with pots and pans in the usual variety, and kindled a good fire under the whole, which blazed away merrily for ten minutes or so, till the oven was about hot enough to bake the cakes—when all at one—*Whssh! pssh—bang!* went the powder, blowing up the top of the stove, and scattering tea-kettle, covers, pots and pans, hot water and old iron in every direction about the room. The concussion of air knocked the woman down, but strange to say, no fragment struck her, and she is as well as ever.

☞ We are informed that Capt. Simon Spinney, of Eliot, died in a boat while returning home from Portsmouth, on Saturday afternoon. He was about 56 years old, and was well known as master of various vessels from this port, and had lately returned from sea. His wife was with him, and he was rowing his wherry homeward; and while in the act of taking a stroke with his oars, he instantly fell and died, probably from an affection of the heart, to which he was subject.

☞ Holders of Lyceum tickets will not forget that the evening this week is Thursday, and not Tuesday as usual—being changed to accommodate the numerous engagements of Gilmore's Band.

A sharp tongue is the only edged tool that grows keener with much use.

PEOPLE'S LYCEUM FOR 1859-'60.

AT THE TEMPLE.

Course Tickets $1. Evening Tickets 25 cts.

☞ Thursday Evening, Oct. 20th, ☜ GILMORE'S SERENADE BAND will give one of their splendid Concerts.

Hon. HAMPDEN CUTTS, Tuesday, Oct. 25. Readings from Shakespeare and others.

Dr. WINDSHIP, Tuesday, Nov. 1. Lecture on "Physical Education."

Rev. J. C. FLETCHER, Lecture on the "Land of Tell," illustrated with appropriate music.

Rev. J. G. Adams will lecture.

Albert Laighton will read a new Poem.

And there will be three other lectures or concerts, (ten in all) of an equally high order with those named.

☞ Tickets may be had at Preston's, N. P. Thacher's, J. H. Thacher's, and the Door.

Doors open at half-past 6—Music at 7—Lecture at half-past 7.

JOSEPH M. EDMONDS,
FRANK W. MILLER.

A GOOD ONE.—About as good a thing a thing as we have heard lately was got off by "Bones" at one of the Ethiopian minstrel Concerts at the Temple, the other night. In reply to a question, "Brudder Bones" said he had been to sea six weeks, and had eaten only one egg and nothing else all the while. On being requested to explain, he said that while at sea the vessel encountered a storm, when the captain laid-to, and he ate one.

☞ By several dispatches from Harper's Ferry, Va., Oct. 17, we have intelligence of some trouble there. One calls it an insurrection, says a negro and a railroad hand were killed, and an "armed band of abolitionists have full possession of the arsenal. The insurrectionists also stopped two men, and, seizing their wagon, loaded it with rifles and sent them into Maryland. The insurrectionists number about 250 whites, and are aided by a gang of negroes."

A second says, "there is no insurrection—only a difficulty among the employees at the armory, with which the negroes had nothing to do."

And a third, at 1 P. M., says:

It is apprehended that the affair at Harper's Ferry is more serious than our citizens seem willing to believe; the wires from Harper's Ferry are cut, and the Southern train, which was due here at an early hour this morning, has not yet arrived.

It is rumored that there is a stampede of negroes from Virginia. There are many other wild rumors, but nothing authentic as yet.

☞ From California, overland, we have dates to Sept. 23.

Mr. Broderick's estate was valued at $135,000, but is encumbered to the amount of $85,000. He left no will, and it was supposed that he had no relatives, but two persons in San Francisco, named Edmund Welsh and Lucy Brown, claim the estate, being, as they assert, cousins in the second degree.

Denver, Weller and others are candidates for B.'s place in the Senate.

One paper says Broderick, while in his room in San Francisco, and just before receiving the challenge from Terry, said he expected to receive challenges from Messrs. Terry, Gwin and Denver, severally, and that he expected to kill all three of them before leaving for Washington.

HORSE THIEVES ARRESTED.—The Boston police on Monday morning arrested two young men named George Hersey and Edward Parker, on charge of stealing a horse and buggy from Mr. Ezra Hathorne, of Great Falls, N. H. They hired the team on Wednesday last to go to Dover, instead of which they drove to Newburyport and sold it, and went to Boston. They were taken to Great Falls.

MEN.—Women are often poor judges of men. If a man is simply agreeable to a woman, she is apt to invest him with attributes which belong more to herself than to him. An inexperienced and generous-minded girl who is all sincerity and affection herself, is in great danger of attributing to every man who approaches her with a show of tenderness and love, the natural truth and sincerity of her own heart.

A NEW READING.—In one of our Sabbath Schools last Sunday, a scholar in repeating a verse from the New Testament, gave it a somewhat different reading from the original text, although, perhaps, it was not so very far out of the way. The reading of the scholar was this:—"For if you love them which love you, what reward have ye? Do not even the *republicans* so!"—*Portland Argus.*

OVEIDO'S ART OF LOVE.—$4,000,000!

HIGH ART.—Church's Art of the Andes.

SONS OF MADI-TA.—Heenan and Morrissey.—*N. Y. Sat. Press.*

☞ Peterson, for November, 1859, contains 44 contributions, literary and artistic,—frontispiece, Watching the Baby. Peterson is deservedly popular.

Horribble Homicide—Man Stabbed in the Street by Daylight.—*Cincinnati paper.*

"Daylight" ought to be arrested.—*Boston Post.*

CLOAKS, CAPES AND RAGLANS.

It is probably unnecessary for us to call attention to this department of our store. We will, however, state that we have at this time the **largest Stock** of BEAVERS, TRICOTS, DOESKINS & BROADCLOTHS for Ladies' Garments *ever* owned in this city, (which fact we are ready to prove to the satisfaction of any person calling on us.). These Goods we have purchased by the Bale—for Cash—direct from the importers, and from Auctions. We shall sell them by the yard, or made into *any style* of Garment desired at lower prices than similar goods can be sold elsewhere.

Also, splendid **Ten-inch Crochet Fringe,** very heavy. Silks, Serges, Satins, Flannels, Cotton Flannels, &c., for linings. Buttons, Tassels, Binding, &c., suitable for all styles of Cloaks.

To this Stock we call very particular attention, as it has been bought very low, and we are determined to offer all who visit us the BEST GOODS in the market at the LOWEST POSSIBLE PRICES.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE, EMPIRE STATE, WHITE MOUNTAIN, REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as, we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

The Calebrated Magee Patent Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

The News.

☞ The Condition of Continental Europe occupies much space in the late London and Liverpool papers. From the Zurich Conference we learn, that all the six Phenipotentiaries were present at the Conference on the 3d, at which articles of peace were read over.

The Paris Patrie reasserts that the peace treaty will be signed within a few days at Zurich. The treaty will confirm the cession of Lombardy, and contain a settlement of the Lombard debt. There will be three instruments of peace—one between France and Austria, another between France and Sardinia, and a third between the three Powers. Central Italian affairs are to be settled by a Congress.

It is asserted at Paris that the Austrian Government had consented to reduce the debt of Lombardy, to be borne by Piedmont, from 400,000,000 francs to little more than half that sum.

English papers publish an interesting letter from Kossouth, expressing the keenest grief at the Villa Franca arrangement, at the moment when the deliverance of his country was within reach. He says he returns to England again, a poor exile, ten years older from the pangs of disappointment. He derives some consolation, however, from the events of the war, and is strengthened in the conviction that Hungary will yet in free. He states that he insisted on a double stipulation in behalf of Hungarian prisoners of war who enrolled under his banner, namely, that of amnesty and that of exemption from further Austrian military service. France obtained these conditions from Austria.

The London Herald's Paris correspondent says nothing was heard on every side but preparation for war. Not a single man in the French army has yet been sent home on renewable furlough, and only those entitled to a discharge in December next have obtained it. Not a single ship has been dismantled, and active measures of defence are progressing at the Forts.—He gives a similar picture of opperations in Austria and Sardinia. It is rumored in Paris that the Chinese Anti-European movement had extended itself to Japan and Cochin China.

A Paris letter says that the King of the Belgians' visit to Biarritz to arrange Belgium's debt to France was a failure, the ultimatum put to him being that if he did not proceed with the fortifications at Antwerp nothing would be said about the debt, but if the works were commenced payment would be enforced.

ITALY.—The Sardinian government had sent a circular vote to its Representatives at the European Courts for communication to the various governments. The document forcibly sets forth the arguments in favor of a strong and independent Kingdom of Upper Italy, sufficiently powerful to keep in check the domineering tendencies of Austria. Such a State would, it is urged, tranquilize the mind of Europe and fulfil the first wishes of those Italian countries which have lately shaken off tyrannical government.

It is asserted that the Pope, on hearing the answer that the King of Sardinia gave to the deputation from the Romagna, ordered that the Sardinian Minister at Rome should be tendered his passport; and it is further reported that at the news of the cessation of all intercourse between Rome and Piedmont, a collision betwen the Swiss and neutral Italians took place at Cattrolica.

The Paris correspondent of the London Times says Italian affairs approach a crisis; and after referring to the circular of the Sardinian government quotes an order of the day just issued by General Fanati, commander-in-chief of the army of Central Italy, who promises that the tri-color of Italy, preceded by the old cross of Savoy, will precede them in the fresh battles that will forever free Italy from the rule of the stranger. Garibaldi had also issued an address, summoning the Italians of the Legations to arms. A collision is shortly expected, and some think will be produced by the Papal troops invading the Romagna.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

Morning Chronicle.

ROME AND HER REVOLTED PROVINCES. The following is an extract of a letter in the London papers, dated Florence, Sept. 20:—

Do not believe that Cardinal Antonelli has abandoned every hope of reconquering by arms the revolted provinces. He envies, perhaps, the laurels of the fierce Julius II, who, armed with his cutlass and mounted on horseback, entered by the breach made in the walls of a city which he had recovered. In order to punish the obstinate Romagnoli, the crafty cardinal keeps enlisting soldiers as he best can. It is certain that he has let loose I know not how many thousand abandoned criminals from the galleys, and has enlisted them in the army of the Holy Father: and it is also true that Austria, from Trieste, sends to Ancona parties of the volunteers whom she has disbanded, and that clothed in the Pope's uniform they swell the ranks of his army. The latter fact is so certain that the journals have already published documents amply proving its truth. But you may well imagine that an army consisting of such elements is good for very little, and little able to make head against soldiers animated by the love of country, eager for combat, and confident of victory, because commanded by Gen. Fanti, who is reputed the first strategist of Italy, and by Gen. Garibaldi, who has never been wounded, and who, as the Groots believe and affirm never can be wounded, because he has made a compact with the devil."

FATAL ACCIDENT.—Mr. Joseph Bean of Salisbury, N. H., aged 60 years, while picking apples, on the 30th ult., fell from a tree into which he had climbed, and struck the back of his head upon a rock. He arose and went into the house without being aware how serious the injury was, but in five hours after, he lost all consciousness, and died in twelve hours after the accident. —*Manchester American.*

From the Portsmouth Journal.

CAMBRIDGE, Oct. 10th, 1859.

Dear Journal,—We are at last quite settled in Cambridge, as you see, having left our old home at Bowdoin. Would you and your readers like to hear a word from this vicinity, as of east, from Brunswick? If so, we may trespass on their and your patience occasionally.

We find quite a large delegation here from Portsmouth; and what is so extremely gratifying to the natives of that dear old town, we feel assured that they hold her name fully up to the high estimation, with which it is honored in all other places, in which these "Sons of Portsmouth" have made a second home; and where will you not meet with some of them? We number here, as students, twelve; nine of whom, are passing through their collegiate course:—the remaining three are connected—Mr. John P. Treatwell with the Law School, and Messrs. J. J. Laighton, and Wm. G. Nowell, with the Divinity School of the University.

Nine of this number are from the society of the Rev. Dr. Peabody of your city, who has also three other young parishoners, engaged in their studies at other colleges. Quite an array for one parish. We hope they all may prove themselves worthy the noble teachings of their loved and honored pastor, and, we may add, of his faithful co-laborers. We are reminded especially of them now by seeing the announcement of the Sabbath School Convention to be held at Portsmouth the present week. The remembrance of the Sabbath hours, passed at morning and evening, within the sacred precints of the old vestry, in Court st. and later, in the beautiful Chapel, which has taken the place of its time-touched, and service-worn predecessor, is, and ever will be held very dear by those who have now gone forth from its hallowed scenes.—For those who taught us there we breath many a prayer of gratitude; but our recollections of them are too affectionate and too tender for other than private repetition. Even now, we doubt not, their most earnest wish is, that our Father in Heaven may graciously bless their labors, and bring forth the good seed, which *we* know they have sown, into an abundant harvest.

Cambridge, and indeed the whole vicinity of our "modern Athens," looks lovely now. Dame Nature has cast her many-hued autumnal robe over our woods and fields, and the stately old oaks and prim maples seems very proud of their new clothes, as they wave and toss in the October breeze. What matter is it if the breeze is a little too boisterous sometimes, and maybe tears away many bits of these fine robes, and sends them fluttering like tiny clouds of pretty colored rags, to the brown earth beneath. They care not. Why should they? They will have others, that will be bright, and fresh, and green, another spring.—Mount. Auburn, especially, is well worth a day's amble. The view from the Cemetery tower is magnificent.

In the College, a strong Temperance movement is being set on foot, in which some of your Portsmouth representatives are much interested, and for which they labor earnestly. An article appears in the last number of the Harvard Magazine advocating the cause here, and incorporating among its arguments a detailed account of the Temperance Society at Bowdoin. A Society has been formed here, with a constitution modeled somewhat after that of the Bowdoin Society, and a pledge identical, we believe, with its pledge.—We shall be happy to chronicle its success as it progresses; and we hope that the work, so noble begun at Bowdoin, may extend to all our colleges and universities.

In our next letter we may have some news from BOWDOIN.

GROVER & BAKER'S
Celebrated Family Sewing Machines.

No. 18 Summer Street, Boston.

NEW STYLES.

PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE
GROVER & BAKER
SEWING MACHINE COMPANY,
Are of elegant finish, and their operation is rapid and very quiet. The BASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

TESTIMONIALS.

☞ READ THE FOLLOWING INTERESTING LETTERS.

Athens, Greece, July 20th, 1859.

Grover & Baker S. M. Co., Boston:

Gentlemen—My wife is so much pleased with your sewing machine that she has addressed a few lines to you, expressing the high degree of satisfaction it has given her. But as she has written to you in Greek, and thinking it possible that you may not read with facility that language, she has requested me to translate it for you into English, which I have done, and enclose herewith both the original and the translation.

And I must add that I myself even admire your machine, and that it has been of immense use to my family, and to many others, who are poor, and whom my wife has gratuitously assisted in sewing.

Yours truly, JONAS KING.
Missionary of the A. B. C. F. M.

[*Translation of Mrs. King's Letter to Grover & Baker S. M. Co.*]

Benefactors of the Female Race:

It is now about three years that I have the happiness to use your machine for sewing, and also the pleasure of aiding others, who are poor seamstresses, and all wonder at the rapidity of the work of the machine, and praise and admire the wisdom of the inventor, and bless you also.

I therefore recommend to all families to purchase without fail your machine, and propose to all the ladies to unite with me, and crown you with olive and laurel.

May you have health. A. A. KING.
Athens, 7—19, July, 1859.

HENRY WARD BEECHER SAYS:

"I pity those women whose staff is their needle, for when they lean upon it, it pierces not their side but their heart. * * * I think the needle has slain more than the sword of war."

THE AMERICAN MEDICAL MONTHLY SAYS:

"When we physicians prescribe iron for the pale girl who sews all day, let us remember also to order one of Grover & Baker's Sewing Machines in the morning, and a romp out of doors in the afternoon."

PROF. OLMSTED SAYS:

"In the useful arts and comforts of life we have greatly the advantage of the ancients. The *Sewing Machine* alone is worth all their inventions."

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, may even honor, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & Co.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice within out my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds about a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.
PREPERED BY DR SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,
is one of the best PURGATIVE and LIVER MEDICINES now before the public.
These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest, well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.
BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.
One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.
Only one dose taken before retiring, prevents NIGHTMARE.
Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.
One dose taken after each meal will cure DYSPEPSIA.
One dose of two teaspoonfuls will always relieve SICK HEADACHE.
Only one dose immediately relieves COLIC.
CHOLERA MORBUS, and a preventive of CHOLERA.
Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.
One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.
One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.
One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SCRAMMP & BOWEL COMPLAINTS yield almost to the first dose.
A few bottles will cure DROPSY by exciting the absorbents.
We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.
All who use it are giving their unanimous testimony in its favor.
Mix water in the mouth with the Invigorator, and swallow together.
PRICE, ONE DOLLAR PER BOTTLE.
Dr. SANFORD, Proprietor, 345 Broadway, N. Y.
Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

LOTTERIES.
THE LOTTERIES OF
WOOD, EDDY & CO.,
Are chartered by the States of Delaware and Georgia, and have sworn commissioners, appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the lotteries of WOOD, EDDY & CO., are authorized by the Legislature of either State.
A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

The Sagamore House, Frost's Point,
IS NOW OPEN.
This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.
The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.
S. B. FITTS, Proprietor,
au25w formerly of City Hotel, Newark, N. J.

DR. J. B. HUGHES,
Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of secret and the most malignant maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secresy preserved.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.
DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.
P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j4 d1y

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is required by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and humbug. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it will virtue which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick want the best aid there is for them, and they should have it.
All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—jel4

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say,* in *confidence and truth,* of it, what we have never been able to say of any other medicine, — NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted to speak in terms of highest commendation of its magical effects and medical virtues. We speak, in this matter, "*what we do know,*" after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST SKILLFUL EXPERIENCED NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SURESTREMEDY EVER WORN TERY AND DIARREA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that is ABSOLUTELY SURE will follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York
Price only 25 cents per bottle.

Patent Indelible Pencil,
FOR MARKING CLOTHING.
Patented May 31, 1859.
This article has the following claims to public attention: It can be used with greater ease in writing upon all kinds of cloth; will not dry up like ink; will sharpen well without breaking, in being used as a Pencil; one box of pencils will mark THREE THOUSAND articles.
Many persons have found it difficult to procure an article that will be permanent—they will find this all they can desire. It does not cost one-third as much as ink.
The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of House keepers. This pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked, and it will leave an indelible mark thereupon.—(Scientific American, June 11, 1859.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, OCT. 19, 1859.

☞ Wendell Phillips lately called on Massachusetts to take down Daniel Webster's Statue,—and intimated that Horace Mann's would not go up, unless Webster's came down. Whereupon the Portland Argus says:—

The republicans must come to time on this, on pain of defeat in 1860. This is the threat; and it is coupled with the power to execute it. They can defeat the republican party in every State, even in Massachusetts.

No doubt the Argus means this for truth, but it knows little about Massachusetts—and nothing about the political influence of Wendell Phillips.

Webster's Statue will stand—Mann's will go up—but the republican party of Massachusetts are not to be defeated in '60, either by the Argus or by Mr. Phillips. Put it on record and mark the result.

☞ The Newburyport Herald says:—"Full returns of the October elections show the Opposition to be in a firm majority in every free state east of the Rocky Mountains, and the Democratic party literally nowhere. It remains now only for the Republican party to make such a Presidential nomination as to continue the Opposition in one body, and they cannot fail to defeat the democrats in 1860, and with them overthrow the slave power of the land forever. It is to this point that they should direct all attention, and we are glad that the New York Tribune, which is really the national organ of the opposition, sees and labors for that end."

☞ The San Francisco correspondent of the New York Times denies that any "conspiracy" existed to shoot Broderick. The writer says, also, that Mr. Broderick left a property variously estimated from $100,000 to $200,000. By his will he gave $15,000 to the Protestant and Catholic Asylums of of San Francisco, the amount to be equally divided. A legacy of $10,000 was left to the Hon. J. C. McKibben, and the remainder of Mr. Broderick's estate is bequeathed to the widow of his late friend, James Estill, who was left in very moderate circumstances at the death of her husband. This is rather different from the statement previously received.

THE SUNDAY LAW.—Chief Justice Lowrie, of Pittsburg, whose driver was fined $25 for violation of the Sunday laws, driving his family to church, has paid the fine, and publishes a card, in which he says he was quite ignorant that he had been allowing a trangression of the law, though he had studied it carefully, and officially declines carrying the case further, because there may be suitors before the Supreme Court in other cases, and they ought not to be embarrassed by having one of its Judges pecuniarily interested. Judge Lowrie is one of the three Judges who rendered an opinion adverse to the Excelsior Omnibus Co. a few years since for running on Sunday.!

A FAMILY IN CONGRESS.—The Democratic Standard expresses its joy that Mr. Stewart of Maryland is nominated for re-election, and says:—

"We hope he will be re-elected—not altogether on acccount of himself and his constituents, but on account of his very interesting family. Having the good fortune to be a fine looking man himself, he has the still rarer fortune of being favored with a family—a wife and a cluster of daughters—all of rare personal beauty. Those who have stopped at the National Hotel, in Washington, during a session of Congress, cannot fail to have observed this fortunate gentleman with his family gathered around one of the side centre tables in the large dining-hall, constituting a perfect bouquet of female beauty, and the centre of general attraction. And the ladies are as modest and unassuming as they are beautiful.—But Mr. Stewart deserves all this good fortune. He is a sound and true National democrat, and *therefore*, deserving the highest honors, and those rarest of Heaven's blessings, a beautiful and excellent wife, and daughters of the same sort. The *ladies* of Maryland should take great pride in keeping *this family* in Congress. They cannot have fairer and more popular representatives of their *sex* at Washington."

If this be sound doctrine, then our venerable president cannot be a true National, or else he has not met his deserts—as it is currently reported he has neither wife nor daughters.

☞ The Triennial Parade of the New York Fire Department, on Monday, was a splendid affair, and the turnout, notwithstanding the threatening weather, the largest ever witnessed of a similar kind. The procession embraced 109 carriages, including a few from other places, and 57 bands of music.

HIGHWAY ROBBERY.—In New York, Monday afternoon, a young man on his way to the Chemical Bank, to deposit $6300, was robbed of the whole amount. The robber choked him and left him insensible.

The only curse now resting on earth, it seems to me, is the curse of an indolent, idle tyranny, and the curse of down-trodden, back-broken labor.—*N. P. Rogers.*

☞ The Democratic Standard says, in speaking of the late State Convention:—

The Democracy seem to be divided into three factions, to wit, the Administration, the Douglas and the Pierce factions. To the Administration party are attached the old soldiers of the Democratic party, who believe that the only way to secure strength and success is to support and maintain the measures adopted by our Democratic rulers.

To the Douglas faction are attached a few who are composed of the young men in the party.

The Pierce faction are the Concord Clique who are seeking after spoils and plunder, and who do not care for anything save to fill their pockets with whatever they can get. The course of the Patriot is now sensibly felt by honest Democrats throughout the State, and we hope soon to witness some decisive action on the part of the President and his friends towards relieving us of the assassins, who are daily plunging the knife into the very heart of our ranks.

THE GREAT EASTERN.—The information from Portland, of the arrival of an agent of the Great Eastern Company in that city, to prepare for the reception of the steamer, (which is expected to sail during the last week of October,) furnishes good ground for the belief that the mammoth vessel will visit this country before the commencement of winter.

Every one owes it to himself, as well as to his otherwise overburdened and injured neighbor, to do manual labor enough to earn the bread he consumes, and all his support. He must earn it for himself, or somebody else must earn it for him, which is clearly wrong. He may say he pays for his support, but he ought to consider that he pays for what is not is own—for he did not earn it—and social combinations that cast it on him are vicious, and in violation of human welfare and right.—*N. P. Rogers.*

☞ The expression "night-mare" is, Sir William Temple says, from Mara, in old Runic, who was a goblin said to seize upon sleeping men, and take from them speech and motion: for in those days medical science had not made it plain to every one, as it is now, that the goblin in question, is simply indigestion.

A friend wishes to know what we shall do if Douglas and his *doctrines* should be repudiated at Charleston? We should do as other democrats will—go into the minority. We feel as sure as we do that the sun will rise, that the democratic party will succeed only on the doctrine of popular sovereignty, in all its plain and obvious sense; and if this is ignored we would like to know what principle the party will have left?—*Bath Times.*

☞ One of the takers of the school census in Cincinnati, in his perambulations through the city recently, went into a domicil, where he found a lady who said she was one hundred and three years old. On being asked whether she had any children about the house, she replied that she had but one boy, who was at work in the other room, and was eighty-one years of age.

☞ A dangerous building they have at Bath. The Times informs us that "the new High School Building is gradually ascending, and the roof is now being put on." It is bad enough for the joiners to ascend to the roof and work there in peril—but when the building itself ascends, (a la balloon,) it must be high time for all terrestrial beings to descend to terra firma.

No man has a right to be idle, and live on the earnings of others, and no man ought to be obliged to support the idler, or to labor much (if any) beyond support of himself. Men have no right to overwork themselves, if they can help it. It is in derogation of glorious human nature, to overwork it; and more grossly so, to have it slothful and idle, and basely live on the unrequited toil of others.—*N. P. Rogers.*

☞ Mrs. Monnet, Westchester Co., N.Y. was the means of saving a number of valuable horses, worth in all $100,000, from her husband's stables, which were burnt down in his absence. She loosened and got out most of the horses alone. No men were at hand when the fire broke out,—and she sent her maids away for help, and went into the stables alone.

Udolpho Wolfe of New York, sued Emile Goulard for selling gin under the title of schiedam schnapps. The Court (U. S. Circuit) decided last week that Wolfe's schnapps being manufactured in New York, and not imported from Holland, as he claimed in his labels, the imitation was not such as came within the cognizance of the law. Mr. Wolfe has accumulated a fortune, $400,000 by his gin, which has given the snaps to many a luckless fellow's head.—*Manchester American.*

☞ A negro named Wm. Harris, cook of a bark coming home from Africa, is now in Boston jail, charged with murdering Capt. Henry Edwards of Salem; there is little doubt of his conviction; none at all of his guilt.

Getting into a passion upon hearing an opinion avowed contrary to your own, is confessing yourself to be in the wrong.

The fault that you cannot bear to be spoken to about is the fault that is destroying you.

The political system that will not permit itself to be discussed, would fall to pieces if discussed.

The partizan that shuts his ear to his opponent, loves sect more than truth.

An ounce of good humor is worth a pound of logic, and a grain of charity is worth a ton of doctrine.

☞ The New York Saturday Press says Colonel Webb, of the Courier & Enquirer, has got religion, and don't know what to do with it.

THE MISER'S CREED.—In Rhino veritas.

☞ John Calhoun, who figured so prominently in Kansas troubles, died at St. Joseph, Mo., last Wednesday. This was John Candlebox Calhoun, a noted scoundrel.

Wendell Phillips says that the man who should strike off the head of the statue of Webster, would confer honor upon Massachusetts; the Journal of Commerce says that the men who propose to erect a statue of Mann, ought rather to place in the State House grounds the ebony statue of a strapping negro. These are the two extremes of an uncharitable virulent radicalism, and of a bitter bigoted conservatism. Between the two, and equally distant from each, is the liberal, tolerant, magnanimous position of an American patriot, who can honor both the men without forgetting that each had his faults; who can reverence the memory of a friend without insultiong the memory of an opponent.—*Providence Journal.*

☞ Mrs. E. Kidder, proprietress of the "Dysentery Cordial," died on Friday evening of pneumonia, at her residence near Malden, Mass.

Few people look on any object as it really is, but regard it through some fantastic prism presented by their own prejudices, which invests it with a false color.

☞ It is an erroneous idea that a very small foot or hand is handsome. Good taste requires that they should have a reasonable proportion to the rest of the body.

It is undeniable that in America it takes three to make a pair—he, she, and a hired girl. Had Adam been a modern, there would been a hired girl in Paradise to look after little Abel and "raise Cain."

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 35 Maiden Lane, New York, And by all respectable Druggists throughout the country.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them **The Best in the Market!**

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by uncessing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Special Notices.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids. It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CARSVILLE, GA., Feb. 29, 1858

MESSRS. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most effaceious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,
JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Bilious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 30th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

GROVER & BAKER'S

Celebrated Family Sewing Machines

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is slight than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the original *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do better, more expeditiously, and cheaper than it possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to the others. ALLEN & FAIRL

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, if they understand its operation.

SUPREME JUDICIAL COURT.

PORTSMOUTH, Tuesday, Oct. 18.

A session of this court commenced this day, Judge Eastman presiding. Rev. Dr. Lamson offered prayer. No cases were ready for trial; the well-worn Salisbury flowage case was mentioned, and assigned for trial on the Monday of the third week of the session. The court adjourned to Wednesday.

This session will probably last four or five weeks, possibly longer.

☞ In the Police Court, before Justice Odell, a poor fellow (who don't want his name mentioned) plead guilty to being unlawfully drunk, and was fined $3; costs $3.18; rather a dear drink.

☞ A rare treat is offered at the Lyceum on Thursday evening—the Concert by Gilmore's Serenade Band. And yet perhaps the other entertainments following in the list are equally valuable and attractive. A season ticket costs only a dollar, and ensures admission to the whole.

☞ Mr. C. S. Tubbs, an agent, of Philadelphia, is in this city, disposing of pictures of Mount Vernon, the home of Washington, a large and beautiful lithograph in tints—and also a large lithographic picture of Washington himself.

For the Chronicle.

AN ELECT LADY.—Mrs. Hannah Toby, relict of the late James Toby, of Eliot, is now more than ninety years of age, and enjoys very comfortable health. She was the daughter of James Shapleigh, was the oldest of fifteen children, and is now the sole survivor. She numbers her descendants, when children, (all of them still living, the oldest aged sixty-six,) *fifty-one* grand children, and *thirty* great grand-children; not all of these, however, are now living.

The snows of age never melt, but on her they are lightly falling; and in the family of a dutiful son, with a christian's blissful hope, she awaits her removal "to the church of the first-born, in heaven." F. A. C.

☞ A correspondent of the Boston Journal writing from Concord, of the late New Hampshire State Convention, says it was a curious convention. It was not Douglas; it was not Buchanan; but it *was* Pierce! He thinks NewHampshire is ready to play a particular compromise card at Charleston.

DEATH BY RUM.—On Sunday morning an Irishman, fifty years old, living with Mr. Newell Brown, at Seabrook, where he had worked a dozen years, went to Newburyport, and went out of it as do too many poor victims of depraved appetites, with a bottle filled the liquor. He returned to Seabrook, and probably laid down upon the railroad track intoxicated, for when the freight train came along between two and three o'clock on Monday morning, it passed over him, the wheels severing his head from his body so that it hung by the skin. We did not learn his name, though he is said to have a brother residing in Newburyport, and another at Amesbury.—*Newburyport Herald.*

☞ A Dover correspondent of the Atlas thus describes Farrar, the fellow who shot his late wife and ran off with her child:

Farrar was greatly disguised. He always was particularly neat in his appearance, and had very long light colored hair and whiskers. When found he was dressed very poorly, and made a slovenly appearance, his hair being cut short, and dyed dark auburn, as were his whiskers. The little girl had her hair cut, and dressed like a boy, wearing a cap. Farrar is a man who has been very prominent in religious matters, and was formerly a writing master in this city, but lately a travelling doctor.—Since he has been in jail he has spent most of his time in prayer, and by his request a clergyman of Dover visited him in his cell.

This Farrar, we believe, kept a writing school in Portsmouth, a few years ago.

☞ The Peterborough Transcript says that Ex-Gov. John H. Steele was the first man who ever wove cotton cloth in this state with a power loom. This he did in 1817.

LAGER BEER.—The St. Louis Democrat says that lager beer is a drug in the St. Louis market this fall, as the usual quantity manufactured last winter has left a stock on hand that cannot be exhausted by the regular demand. To get rid of this, brewing must be deferred until it is sold, or it must be mixed with the new beer of this winter's brewing. The Democrat infers that there has been a reduction in the consumption of the article.

JOSEPH M. EDMONDS, FRANK W. MILLER.

LABOR ought not to be degraded or to starve. Work ought not to go hungry or naked, but have something to eat, and to wear. Nobody that earns a living by labor, ought to go without it, and nobody, able to labor, but who does not labor, ought to have a living they do not deserve it.—No laborer should want, and no idler should enjoy,—and no man has a right to be idle. He may be for all *me*, but not for all himself. He owes it to himself, to earn his bread at the least,—and to earn it by useful labor, and not useless—and much less mischievous labor,—as too many earn, or get it by now.—[N. P. Rogers.

CHANGE OF NAME.—In view of the skill with which a certain religious organization contrives to dodge all troublesome questions, it is proposed to change its name to *The American Tact Society.—Sat. Press.*

The election news from the West looks anything but flattering for the democracy. In Pennsylvania things are in no better condition. It is impossible to tell what a year may bring forth, but as appearances now are, we confess we should not be willing to bet high on the results. Without a better spirit than prevails in many places, the prospect is very unpromising.—*Bath Times.*

Roast beef, serenity of mind, a pretty wife, and cold water baths, will make almost any man "healthy, wealthy and wise."

It was once an act of unquestioned morality to lie for the glory of God. Such notions now, however, are outgrown; yet there are those who think a man should lie and defraud and cheat for the success of a political party. We doubt, however, if any party in politics or sect in religion is worth preserving at the expense of truth and honor.—*Bath Times.*

The line which divides some Christians from "the world," is truly a mathematical one—without breadth or thickness.

Put no dependence on genius. If you have great talents, industry will improve them; if you have but modeate abilities, industry will supply their deficiency. Nothing is denied to well-directed labor; nothing worth having is to be obtained without it.

A lady, describing an ill-natured man, says, "he never smiles but he feels ashamed of it."

Philadelphia has gone for the opposition in the members of the Assembly, 12 to 5. This defeat does not come of Douglasism, for the contest was waged on extreme administration ground. It is a bad heat.—*Bath Times.*

"Caught in her own net," as the man said, when he saw one of the fair sex hitched in her crinoline.

Passion has its foundation in nature; virtue is acquired by the improvement of our reason.

A people broken down with labor, whether free labor (so called) or slave, must be morally degraded.

MOUTH.—An instrument to some people of rendering ideas audible; and to others of rendering victuals invisible.

Happiness is a bird that owns no cage but the pure bosom.

Fly in all haste from the friend who will suffer you to teach him nothing.

That civility is best which excludes all superfluous formality.

Remember that recreation must not be your business, but a preparation for it.

MAXIM.—Nothing in this world is ever settled till it is settled right.

SLANG.—The witless man's wit.—*Punch.*

BLOOD FOOD.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of phisiology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which, Dr. Bronson was restored to perfect health. Within six months after its introduction, over 2000 consumptives were effectually cured by it. If you have any complaints of a consumptive tendency. *Cough, Cold, Headache, Palpitation of the Heart, Loss of Appetite, or Pain in the Side,* lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from *Nervous Debility*, or your sleep is broken and disturbed, if your Spirits are depressed or your organs relaxed, you will find in this an unfailing remedy, by commencing with *ten drops.* If your Liver is torpid or diseased in any manner whatever, *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia*, the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking *only one bottle.* In *Male or Female Complaints or Weaknesses*, the sufferer, after trying other remidies in vain, may rest assured, that a certain cure will result from the use of *two or three bottles.* The "BLOOD FOOD" is effectual in all cases of Eruptions, Salt Rheum, Scrofulas, and other like complaints. *Pale and emaciated children and adults* are immediately benefitted by its use. It gives strength to the body, and color and beauty to the skin. Physicians of all schools are using it with wonderful success.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE, EMPIRE STATE, WHITE MOUNTAIN, REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

The Calebrated Magee Patent Ventilating Parlor Stove.

All sizes—acknowledged by every one to be the BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

The News.

HARPER'S FERRY RIOT.

Lots of dispatches come over the lines from various places near Harper's Ferry. We copy a few items—out of which we gather only two or three important facts, viz., that the disturbance was very great and high-handed; that it began about a delinquent contractor; and that force enough is at hand to put it down promptly.

BALTIMORE, Oct. 15, 2 P. M.—Another account, received by train, says the bridge across the Potomac was filled with insurgents, all armed. Every light in the town was extinguished, and the hotels closed. All the streets were in possession of the insurgents, and every road and lane leading thereto barricaded and guarded.

Men were seen in every quarter with muskets and bayonets, who arrested the citizens and pressed them into service, including many negroes. This done, the U. S. Arsenal and government pay house, in which was said to be a large amount of money, and all the other public works, were seized by the mob. Some thought that their object was entirely plunder, and to rob the government of the funds deposited, on Saturday, at the pay house.

2:30 P. M.—The western train on the Baltimore and Ohio Railroad has just arrived. Its officers confirm the statement first received, touching the disturbanges at Harper's Ferry. Their statement is to the effect that the bridge-keeper, perceiving that his lights had been extinguished, went to ascertain the cause, when he was pursued and fired upon by a gang of blacks and whites. Subsequently the train came along, when a colored man, who acted as assistant to the baggage-master, was shot, receiving a mortal wound; and the conductor was threatened with violence if he attempted to proceed with the train. The conductor waited until daylight, having delayed six hours.

Mr. Phelps says the insurrectionists num- 200 blacks and whites, and they have full possession of the U. S. Armory.

Mr. Phelps confirms the statement that the insurrectionists had seized a wagon, and loading it with muskets, had sent it into Maryland.

Dispatches have been received from President Buchanan, ordering out the U. S. troops at Baltimore, and a special train to convey them to the scene of the disturbance. He has accepted the volunteered services of Capt. Senicks company, of Frederick, and ordered the troops from Old Point Comfort to proceed immediately to Harper's Ferry.

4 P. M.—An account from Frederick says a letter has been received there, from a merchant at Harper's Ferry, sent by a boy who had crossed the mountain and swam the river, which says that all the principal citizens had been imprisoned, and many had been killed; also that the railroad agent had been shot twice, and that the watchman at the depot had been shot dead.

WASHINGTON, Oct. 17.—In view of the possibility of the disturbances at Harper's Ferry extending to this vicinity, the Mayors of Washington and Alexandria have taken precautionary measures for their suppression. The President, through the Mayor of Washington, ordered a strong detachment of volunteer militia to be posted at the national and company armories, which was promptly done. Two hundred stand of muskets and a supply of ammunition were also placed in the City Hall for emergency. It is suggested by well informed persons that the cause of the insurrection is the reported fact that not long since the contractor for the construction of a government dam at the Ferry absconded, largely indebted to several hundred employees, who have taken this step to indemnify themselves by the seizure of the government funds, which it was supposed were transported thither on Saturday. A gentleman just in from Harper's Ferry thinks the blacks participated in the outbreak only on compulsion.

On the receipt of the intelligence from Harper's Ferry, orders were issued for three companies of military at Old Point, and the corps of marines at the Washington Barracks, to proceed thither without delay.—The marines, 93 in number, departed in the 3:15 P. M. train, taking with them two twelve-pound howitzers and a full supply of ammunition. It is reported that they are under orders to force the bridge tonight at all hazards. Col. Faulkner accompanies them.

It is reported, on good authority, that some weeks ago Secretary Floyd received an anonymous epistle, stating that on the 15th of October the abolitionists and negroes and other disaffected persons would make an attempt to seize the arsenal and hold the place—but the statement was so indefinite and improbable as to cause no fears of such an outbreak.

LATER FROM HARPER'S FERRY.

The following items show the origin of the trouble to be an attempt by "Ossowatomie Brown" to raise a slave insurrection in Virginia.

BALTIMORE, Oct. 17.—Col. Lee telegraphed it would not be necessary to bring on troops from Fort Munroe.

The town has been taken possession of by military companies from Charlestown, Shepardstown, Va., and Frederick. The rioters are entrenched in the Armory. They held Mr. Lewis Washington and Col. Dangerfield as prisoners.

The insurrectionists are commanded by Capt. Brown, of Kansas notoriety. They numbered originally seventeen white men and five negroes. Several of them were shot. Two men of the Martinsburg company were shot dead while charging on the Armory.

A portion of the insurgents have left, under the command of Cook, with a large party of slaves, and are supposed to be moving towards Pennsylvania.

Allen Evans, alias Aaron Stevens, one of the insurrectionists, was dying—shot thro' the breast. He is from Connecticut, but has been in Kansas. He says the whole scheme was got by Brown, who represented that the negroes would rise by thousands, and Maryland and Virginia would be made free States.

Col. Shriver of Frederick had an interview with Brown in the Armory. He asked to be allowed to march out with his men, and avowed the intention of defending himself to the last. They are very strongly posted in the engine house, and cannon cannot be used against them for fear of injuring the prisoners whom they still hold.

Some sixteen persons are known to have been killed. Fountain Beckham, Railroad agent, was shot dead from the Armory.

Three rioters are lying dead under the bridge, shot by the Shepardstown troops in their charge on the bridge.

From an Extra Traveller, received thro' the polite attention of Wm. H. Brewster, Esq., and Jackson & Co's Express, we take the following:

A negro rioter, named James Leary, has just died. He confessed to the particulars of the plot, which, he says, was concocted by Brown, at a fair held in Ohio two months ago.

Three of the rioters are lying dead in the streets, three are lying dead in the river, and several are said to be dying within the armory.

The rioters have just sent sent out a flag of truce, and say that if not protected by the soldiers at present here, they will hang all they capture.

HARPER'S FERRY, Oct. 28—8 A. M.—The armory has been stormed and taken, after a determined resistance.

Col. Shute approached with a flag of truce, and demanded a surrender. After expostulating some time the rioters refused to surrender.

The marines advanced to the charge and endeavored to break the door down with sledge hammers, but it resisted their efforts. A large ladder was then used as a battering ram, and the door gave way.

The rioters fired briskly, and shot three marines, the marines firing in turn through the partly-broken door.

[No later despatch has been received. but the last despatch indicates that the insurrection is at an end.]

Morning Chronicle.

THEODORE PARKER divides women into three classes:—"First, Domestic Drudges—wholly taken up in the material details of their housekeeping, husband-keeping, and child-keeping. Their housekeeping is a trade and nothing more: and after they have done that, there is no more they can do.

"Next, there are Domestic Dolls—wholly taken up with the vain show which delights the eye and the ear. They are ornaments of the estate. Similar toys, I suppose, will one day be more cheaply manufactured at Paris and Nuremburg, at Frankfort-on-the-Maine, and other toy-shops of Europe, out of wax and paper-mache, and sold in Boston at the haber-dasher's by the dozen.—These ask nothing beyond their functions as dolls, and hate all attempts to elevate womankind.

"But there are domestic women who order a house, and are not mere drudges—adorn it, and are not mere dolls, but women. Some of these conjoin the useful of the drudge and the beautiful of the doll, into one womanhood, and have a great deal left besides. They are not wholly taken up with their functions as housekeepers, wife, and mother."

Mithridates, king of Pontus, knew each one of his eighty thousand soldiers by his right name.

Seneca was able to rehearse two thousand words, which were given to him, in the same order.

Hortensius kept in his memory all the prices paid on a day of auction.

The cabman is the most aspiring of mortals. Whatever rank he may be on, he is always looking for a hire.

Men are sometimes accused of pride, because their accusers would be proud themselves if they were in their place.

BULBOUS FLOWER ROOTS,
FOR AUTUMN PLANTING.
J. F. SHORES, JR., No. 1 CONGRESS BLOCK,
Has just received a supply.
These bulbs are in fine order. For flowering in the spring, plant them in the open ground—placing them from 2 to 5 inches below the surface, with a good supply of sand around the bulbs.
For winter flowering, put them into pots or boxes with any common garden soil mixed with a little sand; then place them in a dark closet for 4 or 5 weeks, watering but little: after they begin to sprout, place in the sun and freely water and they will bloom in February or March.

CONSUMPTION IS CURABLE!
BY THE USE OF
Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the
HYPOPHOSPHITES
OF LIME, SODA AND POTASH,
Originally discovered and prescribed by him as a Specific Remedy for
CONSUMPTION!
The use of the Hypophosphites in CONSUMPTION, scrofula, Rickets, Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENCY VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a
SPECIFIC REMEDY FOR CONSUMPTION.
Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases in the third or last stage, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."
BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,
which is certified by Dr. James R. Chilton to be "PROPERLY MADE and chemically pure. My fac simile signature is upon every bottle.
☞ Price $2 per bottle, or three bottles for $5, with full directions for use. Write for Circulars which will give RELIABLE INFORMATION, and save from all possibility of deception. Sold Wholesale, at the lowest discount for cash, at the Sole General Depot in the United States, by J. WINCHESTER, American and Foreign Agency, 49 John street, New York.
Also, of P. H. NILES, No. 3 Arch street, Boston, Mass., Agent for the States of Mass., N. H., and Vt., to whom all orders must be addressed.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington,
LATE EXAMINER OF 1837.
76 STATE, OPPOSITE KILBY ST., BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
BOSTON, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending, which is unmistakable proof of great talent and ability on his part, leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWELVE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR, by the Commissioner of Patents.
Boston, Jan. 1, 1859. R. H. EDDY.

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; makes it soft, glossy, healthy and beautiful, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:
NEW YORK, Jan. 8, 1858.
MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.
The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.
My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.
LIVINGSTON, ALA., Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.
PHILADELPHIA, Sept. 3, 1857.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

The Sagamore House, Frost's Point,
IS NOW OPEN.
This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. Its pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.
The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a first class House, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,
Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express to any wise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secresy preserved.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.
DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.
P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.
DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.
P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; makes it soft, glossy, healthy and beautiful, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:
NEW YORK, Jan. 8, 1858.
MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.
The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.
My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.
LIVINGSTON, ALA., Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.
PHILADELPHIA, Sept. 3, 1857.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Wine Street.
☞ The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, and retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.
PREPARED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,
is one of the best PURGATIVE and LIVER MEDICINES now before the public.
These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.
BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.
One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.
Only one dose taken before retiring, prevents NIGHTMARE.
Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.
One dose taken after each meal will cure DYSPEPSIA.
One dose of two teaspoonfuls will always relieve SICK HEADACHE.
Only one dose immediately relieves COLIC.
One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.
Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.
One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.
One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.
One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.
A few bottles will cure DROPSY by exciting the absorbents.
We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.
All who use it are giving their unanimous testimony in its favor.
Mix water in the mouth with the Invigorator, and swallow both together.
PRICE, ONE DOLLAR PER BOTTLE.
Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from humorous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMOURS, SALT RHEUMS, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly espised, and has become synonous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tean assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER's, and take no other. The sick wan the best aid there is for them, and they should have it.
All our renedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* never been able to say of any other medicine,—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak, in this matter, *"what we do know,"* after ten years *experience, and pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD IN all cases of DYSENTERY AND DIARRHŒA, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York
Price only 25 cents per bottle.

Sold by Druggists throughout the World.

Patent Indelible Pencil,
FOR MARKING CLOTHING.
Patented May 31, 1859.
This article has the following claims to public attention: It can be used with greater ease in writing upon all kinds of cloth; will not dry up like ink; will sharpen well without breaking, in being used as a Pencil; one box of pencils will mark THREE THOUSAND articles.
Many persons have found it difficult to procure an article that will be permanent—they will find this all they can desire. It does not cost one-third as much as ink.
The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of House keepers. This pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked, and it will leave an indelible mark thereupon.—(Scientific American, June 11, 1859.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, OCT. 20, 1859.

HARPER'S FERRY RIOT.

This uprising caused the greatest alarm in all parts of Virginia and Maryland. At Washington, Baltimore, Richmond, Point Comfort, and other towns and cities, the military were turned out and rushed forward to Harper's Ferry, or kept as guards against any extension of the insurrection.—Slavery sleeps as over volcanic fires, and at the first rumbling beneath, alarm and terror seize upon the slaveholders. Few of them this night will go to bed without a watch to guard their premises, and their arms loaded and ready at hand. The negroes are contented and happy, they tell us; but when an insurrection begins, tho' nothing but death is before the insurgents, there is no knowing where it will end.

This occurrence, so dreadful in itself, is a natural outgrowth of the popular sovereignty conferred upon Kansas, and the manner of its exercise there. Old Ossawattomie Brown had been in a hard fight between freedom and slavery in Kansas, and becoming a fanatic or monomanic on the subject, he seemed to think a similar fight might be as lawful in Virginia as in Kansas, and possibly as successful.

His reasoning might be something like this: "President Buchanan said Kansas is as much a slave State as Carolina. Popular sovereignty is supposed to be the power of *white* men to say whether they will *have* slaves or not—popular sovereignty may also be supposed to be the power of *black* men to say whether they will be slaves or not. If Territories are like States, then States are like Territories. I'll try."

He did try—but found at the cost of his life and most of his followers, that the rule did not work both ways.

THE ATTACK ON BROWNSVILLE.—A letter is published which gives the other side of the story relative to the attack of the guerrillas upon Brownsville, Texas.—It is dated Point Isabel, Oct., 6, and says:

"You will, no doubt, hear of a Mexican guerrilla attack upon Brownsville. The facts are simply these:—There are a lot of bad characters who have been imposing upon, murdering, robbing and maltreating the Mexicans. It got to such a pass that the rancheros thought it high time to strike a blow in self defence, and exterminate these American evil doers at one blow.—So they mustered about fifty of their best men, made a dash into Brownsville at daylight on the 28th of September, and hunted down their game like bloodhounds after their prey. They succeeded in catching three of those they were after. The others, about five more, hid themselves when they found what was going on. If there had been a garrison at Fort Brown, the thing would not have happened, as the Mexicans have a great awe of the '*soldados*.' The above fifty were followed by some Indians, and the rabble about town in general, who followed, of course, for no other purpose but to take advantage of the confusion and plunder what they could; but with one or two exceptions, they disturbed no one, nor the property of any one who had not done harm to them previously."

☞ The latest "it is said" relative to the Great Eastern is that she will positively leave on her trans-Atlantic trip during the last week of the month; the 20th, some authorities state. The Portland Advertiser says: "The steamer will entertain guests on board during her stay, in case the rush of visitors shall require it, and from 800 to 1800 guests can in this way be entertained. In this way, with the means at the command of the hotels, 5000 strangers can be easily accommodated, and an equal number in private families, so that 10,000 strangers daily, will find abundant accommodations, during her stay of three weeks in Portland. She is expected to make one or two trips to sea while at that port, carrying 10,000 persons.

AN ABSCONDING MERCHANT.—The Cincinnati Commercial reports that Henry Falls, a carpet dealer in that city, has absconded, leaving liabilities estimated at $100,000. Before quitting the city he converted all his bills receivable into cash, obtained what discounts and borrowed what money he could, and disposed of as much stock as was possible without exciting suspicion, thus raising, it is supposed, about $25,000 in ready money. He has been living extravagantly of late, and though a man of family, having a wife and three children, yet he has had a mistress, whose house was richly furnished, and this large outlay has done much to embarrass him.

☞ On Monday, $924 of the $1000 necessary to redeem the mortgage on Father Chiniquy's church had been raised in New York, and Mr. Paillard, the Treasurer of the Committee, expected to leave in the afternoon for St. Louis with the whole amount in his hands. Father Chiniquy is to be invited to visit New York for the purpose of a public demonstration. Father C. is the rebellious or independent priest of the Roman Church.

☞ The New Bedford Standard reports a pumpkin vine in that city, which is three hundred feet long, and bore 115 pumpkins.

MAN KILLED.—The Boston Journal of *Tuesday* evening says:—

This morning, as the train on the Boston and Maine Railroad was coming round a curve about a quarter of a mile from the *East Kingston* depot, a man was seen lying on the track, directly across the rails. It was impossible to stop the train, and the cars passed over him, literally cutting him in two and mangling his head in a horrible manner. He was a stranger, apparently about forty years old, and was in a store at East Kingston a short time before the accident took place.

This is no donbt correct; but the Journal adds:—

We learn from the Newburyport Herald that the deceased was an Irishman, of intemperate habits, who was in the employ of Mr. Newell Brown of Seabrook.

This is an error: The Irishman spoken of by the Herald, was killed early on Monday morning, before daylight, on the Eastern Railroad, in Seabook.

So it appears there were two men killed, one on each Railroad, and both by liquor, for the Traveller says of the one at East Kingston:—

The man appeared to be about thirty-five years old, and it is supposed that he got liquor at a country store, near by, and then went and laid on the track.

☞ The editor of the N. Y. Spirit of the Times tells of a church in Montreal, where are two or three hundred officiating ecclesiastics, and six thousand devout worshippers. The size of the church demands a number of officials to find seats for strangers, and to attend to the imperative calls constantly arising where there is a multitude of people; these individuals, after the fashion of European churches, wear a showy and rather a peculiar uniform, and moving about with their canes sarmounted with large silver balls, have, to unpractised eyes, a singular effect. In the midst of the services six beautifully dressed and handsome little girls, with leghorn bonnets and ostrich feathers, black velvet basques and white kid gloves, each attended by one of these semi-military officers, proceed to take up a collection. The little girls receive the offerings in a light willow basket, and when the money accumulates to any amount, it is emptied into a capacious velvet bag carried by "the guard." In this way the little girls manage in a short time to visit every pew in the body of the church.

THE MINISTER'S WOOING.—Mrs. Harriet Beecher Stowe's last novel, and said to be the best and most perfect which she has written, has been sent us from the Boston publishers, Messrs. Brown, Taggard & Chase, and is for sale by Mr. Joseph H. Foster.—This volume will undoubtedly have a ready sale, and some think more favor than "Uncle Tom's Cabin." So many have read portions of it in the Atlantic Monthly that it will need no extended notice,—but it may be said with the utmost truth, that it is one of the most graphic, expressive and lifelike stories ever told.—No improbabilities are ventured,—nor even the marvelous resorted to in it. It is a first rate New England tale, laying opening the interior life of her people years ago, and mainly founded on facts.

FLOGGING IN THE ENGLISH NAVY.—One of the boys of the English ship-of-war Lapwing, cut his throat a few weeks since, to avoid a sentence of four dozen over the back with a cane whipped with wax ends. The poor boy's back was black and blue from his former lashings. There was another boy to be flogged a second time, but the doctor said he could not stand it. A public meeting had been held at Woolwich, England, to denounce flogging in the navy.

But why not flog *there*, as well as in schools and homes?

☞ Joseph Lacy was a short time since convicted of the firing of the town of Oshkosh, Wisconsin, and sentenced to *fourteen years'* imprisonment, seven days of each month solitary confinement. He is about 37 years old, and has been in prison several times. He kept a house of ill-fame in Oshkosh, which the citizens burned down, and in revenge he kindled a fire which destroyed $500,000 worth of property.

☞ Parts of Illinois are so infested with rats that the Logan County Agricultural Society has offered three premiums of $50, $30 and $20, for the largest exhibitors of rat scalps at their Fair. A great many persons are competing for the prize, and the show promises to be large and interesting. Mr. Gordon of Kickapoo Creek has already secured 1,113 scalps, and intends running the number up to 1,500 before the Fair!

CLERICAL.—Rev. E. G. Brooks, pastor of the First Universalist Society of Lynn, has received and accepted a call from the Sixth Universalist Society of New York city, (24th street,) to become their pastor at a salary of $2400 per annum—double that he is now receiving. He will preach his farewell sermon on Sunday the 30th inst., and his salutatory in New York the following Sunday.

☞ At a fair held at Wilmington, Del., last week, a walking match for horses took place. The horses which took the prizes walked the mile in 4:15 and 4:27 respectively. Rather tall walking.

☞ The Union Democrat don't like Agricultural Fairs, and is opposed to all kinds of gatherings of the masses, except for political purposes. He evidently thinks politics a great institution. The Journal of Agriculture believes a judiciously managed Agricultural Fair to be of more importance to the welfare of the State of New Hampshire than all the political conventions that will be held for a twelvemonth.

[A later Union Democrat explains that it objects to great political gatherings also, being as bad as any other.]

In Hartwell, a few evenings since, there was a party engaged in husking corn. In the family were two little girls, neither of them quite large enough to husk corn alone, and they worked together, one holding the ear and the other pulling off the husks.—At length they became wearied, and one of them, the peach-bloomed cheek, full of her little poetry, tottled to her father and said, "Now father, you may husk me, and pour me in the bed."—*Augusta Journal.*

☞ Thr editor of the Bangor Union, not understanding how there can be any connection between hay or grass and pork, the Whig recommends that he should get some female relative to take him into the country and show him the operation of feeding pigs at some old farmer's homestead, where a large dairy is kept. The Whig thinks then he will understand that hay helps to make pork as well as beef.

There is a strange fascination about genius. In whatever shape we see it, or in whatever maner it demonstrates itself, we follow its progress with the greatest interest, and when it culminates into pre-eminence, we usually dwell on its success as if the triumph were personal to ouselves.—Admiration of superiority is a settled instinct of the human mind, wherever we behold it.

☞ The first wife of Omar Pasha has recently arrived in this country to reside, having resided for two years in Paris. Her husband, after the campaigns near the mouth of the Danube, exercised the Turkish right of marrying another woman, and his wife refused to enter his harem, and obtained a divorce.

☞ In view of the miserable condition of the water in England, which he compares to a weak solution of epsom salts, Mr. Hillard—foreign correspondent of the Boston Courier—does not wonder that the English are a nation of beer drinkers.

☞ Jenny Lind Goldschmidt has been singing in Dublin with Signor Belletti. It appears certain that she is determined to return to public life once more. Otto and the children are powerless against the footlights.

For the Chronicle.

"HOME—O HOW BRIGHT!"*

BY REV. F. A. CRAFTS.

The Christian warrior lay upon his couch,
On his fair brow, the throne of thought sublime,
Death placed his hand, and whispered in his ear;
"The Master comes, and lo! he calls for thee."

He heard the message with a placid smile;
And listening, caught sweet melodies from heav'n.
While drops of joy, fragrant as Lebanon,
Fell softly on his soul, from angels' wings.

His holy warfare ends in triumph now,
The faithful soldier of the cross exults
To lay his armor by, and well strung bow;
While faith, clear-visioned, scans eternity,
And gazes on the Crucified, who stands
Beside the throne, and with his wounded hand
Beckons his servant. Descending angels
Bring his glittering crown, and shout: 'well done.'

He raised his hand, and pointing to the skies,
Whispered, '*My Home.*" With rapture gazing still,
His features radiant with immortal joy,
Lost for a moment in the vision's light,
His pale lips parted, and he said, '*How bright!*'

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 26, 1858

Messrs. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,
JOHN H. RICE.

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Billious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

GROVER & BAKER'S
Celebrated Family Sewing Machines

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varietics of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE
GROVER & BAKER
SEWING MACHINE COMPANY,

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the original *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

☞ We are informed that if the weather suitable, to-day, and the wind favors, (or subsiding,) the Dry Dock at the Navy ard will be taken from the Basin, and nk; and the old ship Dale, (which has en condemned, and is to be "laid up in dinary" at the wharf,) will come out of ock. The Ship Cumberland is to go into Dock, for examination; and (we are d) will probably receive extensive re- irs, to be commenced at an early day. e hope it will prove correct.

☞ Among the improvements now going in the city, there are four large buildings process of erection—the stores of Jones & dbum and Messrs. Goodrich, on Market eet; Thos. S. Nowell's shoe manufactory, rner of State and Pleasant streets—all w nearly completed; and quite a large lding for a Machine Shop for Mr. Her- n Remick, on Bridge street, corner of rker (formerly so called.) Mr. Drake s recently completed a neat Foundry at South End. A large number of dwell- gs have been erected, the past summer; d many more extensively repaired.

The stores in this city, generally, have en much improved within a few years. cently, we notice, J. C. Carr's shoe store enlarged and improved; Chas. T. Emery's wly store also enlarged and very much autified; and Messrs. Wm. Bodge and erburne Somerby have made great im- ovements in their part of Congress st. Mr. merby and the City have also sunk a ain from his stable to the common sewer Vaughan street—one of the best things e this season. Every man who thus ives to improve the general appearance the city, is a public benefactor—even ough he may be working for his own good. d we are eternally obliged to Uncle m for placing his handsome Post Office ilding where we can feast our eyes on it any time.

EXCURSION TO BOSTON

On the Eastern Railroad, Friday, Oct. 21. An Extra Train will be run both ways, leaving Portsmouth at half past 7 o'clock, and stopping to take passengers at all Way Stations as far as Seabrook. Returning, leave Boston at quarter before 7 o'clock.

Tickets $1.50, including fare up and back, and free admission to the Boston Athenæum galleries of rare statuary and paintings, &c. Tickets will be sold at the depots from Portsmouth to Seabrook.

GILMORE'S BAND will probably accompany the Excursion.

Should Friday be stormy, the Excursion will take place the first fair day.

Should the weather be favorable, a large party of ladies and gentlemen will avail themselves of the opportunity to visit "the city." Gilmore's Band will probably go up in the train; and if the company is sufficiently numerous, and desire to do so, a procession will be formed, on arriving in Boston, and after marching with the music to Faneuil Hall and other places of interest, visit the Atheneum in a body. The fountain is to play on the Common at half past 2 o'clock.

The papers chronicle John Van Buren's return from Europe, whereupon a friend wishes to know if it will have any influence upon the price of gas!—*Bath Times.*

☞ The great trotting match over the Eclipse Course, Monday, between Brown Dick and George M. Patchen, in harness, was won by Brown Dick, in three straight heats. Time: 2:26, 2:25 1-2, 2:28. Brown Dick is now offered to match against any horse on the turf, for $5000. except Flora Temple.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Wintor Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE, EMPIRE STATE, WHITE MOUNTAIN, REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 8 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

The Celebrated Magee Patent Ventilating Parlor Stove.

All sizes—acknowledged by every one to be the BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction

REPAIRING PEICES,

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the

CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothign hurtful to the Constitution.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

The News.

HARPER'S FERRY REBELLION.

This violent and insane outbreak has been put down, at the expense of several lives. The President of the Baltimore and Ohio Railroad telegraphs:

The insurrection is entirely suppressed. All the outlaws are killed or arrested. All freight and passenger trains are running with entire regularity and safety. No damage has been done to any portion of the railway tracks, trains or property.

The papers contain particulars enough to fill our paper for a week. We have room for only a brief sketch of the final victory over the rebels—and the killed, wounded and prisoners.

Col. Lee, of the U. S. Army, called upon the rioters who were barricaded in the engine house, on the Arsenal grounds, to surrender, promising to protect them until the wishes of the President could be ascertained. This proposition was made in order to save the lives of the prisoners who were in the possession of the insurgents. This message was sent through Lieut. Stewart, of the 1st cavalry. The insurgents declined to surrender; whereupon, at a preconcerted signal from Lieut. Green, the detachment of marines who were near by, forcibly broke into the engine house, killing two of the rioters and capturing the remainder. Two of the marines were wounded, one of them mortally. Ossawatomie Brown, the leader of the rioters, was also mortally wounded.—Several officers of the Arsenal, with the other prisoners, escaped unhurt.

The dispatch says:

The rioters were brought out amid the most intense excitement, many of the militia present trying to get an opportunity to shoot them.

Capt. Brown and his son were both shot. The latter is dead, and the former in a dying State. He lies in the Armory enclosure, talking freely. He says he is Old Ossawatomie Brown, whose feats in Kansas have had such wide notice; that his whole object was to free the slaves, and justifies his action. He says that he had possession of the town, and could have murdered all the people, and that he has been murdered in return.

J. G. Anderson was also shot down in the assault. He was from Connecticut.

The dead body of a man killed yesterday was found within the Armory.

Brown declares that there were none engaged in the plot except those who accompanied him.

Only two of the insurrectionists are unwounded; their names are Edward Coppich, a white man, from Iowa, and Shields Green, colored, from Iowa.

The party originally consisted of 22 persons, of whom 15 are killed, 2 mortally wounded, 2 are here unhurt, and 3 went off with slaves on Monday morning.

Brown had been living on a hired farm near the Ferry some months, and went by the name of Smith. His principal aid was named Cook.

When they got possession of the Arsenal and town, a panic appears to have ensued among the towns-people, and the number of insurrectionists at once increased from 50, which probably was their greatest force, including the slaves who were forced to join, to from 500 to 600.

About daylight Monday morning, Capt. Cook, with two white men, accompanied by thirty slaves, and taking with them Col. Washington's large wagon, went over the bridge and struck up the the mountain road towards Pennsylvania.

A body of 40 mounted men left Baltimore Tuesday afternoon for Harper's Ferry, to pursue the rioters. It is reported that many have escaped and are secreted in the mountains.

Brown's object seems to have been to free the slaves. The telegraph does not give us any clue to the manner in which the United States Armory, which employs 250 workmen, came into the possession of 22 men—but it was probably a surprise.

The offence is doubtless *treason* against Virginia, and against the United States.—The penalty is death.

☞ From Washington, Oct. 18, we learn that questions arise—whether Virginia or the United States must try the Harper's Ferry rebels.

No arms nor money were disturbed in the Arsenal. The papers have columns of details. The 20 rebels must have been great fighters—for the gallantry of the hundreds who conquered them is highly spoken of.

☞ We have Jamaica advices to Oct. 1. The legislature meets on the 1st of November. The island is healthy, and the late disturbances entirely suppressed. The authorities of Demarara are endeavoring to induce white emigration from Barbadoes.

IOWA AND MINNESOTA ELECTIONS.—*Chicago, Oct.* 18.—47 counties in Iowa give Kirkwood 6690, and Dodge 3998. The same counties in 1857 gave Lowe 259 majority. There are 44 counties yet to hear from.

25 counties in Minnesota give 2716 Republican majority. The 7 counties remaining to be heard from gave 846 Republican majority in 1857. The St. Paul Times says the Republican majority in the State Senate is 7, and in the House 30.

☞ Bayard Taylor gets $1500 for his four lectures befor the San Francisco young men's association, but $3000 worth of tickets were sold before the first lecture was delivered.

BULBOUS FLOWER ROOTS,

FOR AUTUMN PLANTING.

J. F. SHORES, Jr., No. 1 CONGRESS BLOCK,

Has just received a supply.

These bulbs are in fine order. For flowering in the spring, plant this fall in the open ground—placing them from 2 to 5 inches below the surface, with a good supply of sand around the bulbs.

For winter flowering, put them into pots or boxes with any common garden soil mixed with a little sand; then place them in a dark closet for 4 or 5 weeks, watering but little: after they begin to sprout, place in the sun and freely water and they will bloom in February or March.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES
OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENCY OF THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SURE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything which especially I have expected from it. In most instances the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases in the third or last stage, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, under date of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries, on the most reasonable terms. Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. Inventors, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful,* and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 3, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, much glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half dozen bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I feelfree to recommend, on personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle: the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Make water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. His pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House,* and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in this the surrounding towns, surrendering their lives to the insiduous inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, I would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivaled in efficacy and superior virtue in regulating all female irregularities. Their action is prompt and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Ance bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly cspised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tean assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes *gratis* our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick man the best aid there is for them, and they should have it.

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have of any other medicine, never been able to say, FAILED, IN A SINGLE INSTANCE,—NEVER HAS IT TO EFFECT A CURE, WHEN TIMELY USED. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of the comendation of its many virtues. We speak, in highest of scientific and medical experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED AND SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but Invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your child and the relief that will assuredly follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper throughout the world.

Patent Indelible Pencil,
FOR MARKING CLOTHING.
Patented May 31, 1859.
This article has the following claims to public attention: It can be used with greater ease in writing upon all kinds of cloth; will not dry up like ink; will sharpen well without breaking, in being used as a Pencil; one box of pencils will mark THREE THOUSAND articles.
Many persons have found it difficult to procure an article that will be permanent—they will find this all they can desire. It does not cost one-third as much as ink.
The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of House keepers. This pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked, and it will leave an indelible mark thereupon.—[Scientific American, June 11, 1859.

FRIDAY, OCT. 21, 1859.

CONDITION OF ITALY.

By the Europa, from Liverpool Oct. 8, we have items of interest from Italy.

A telegram from Modena to the London Daily News says that on the 5th Col. Anvoti, late President of the Military Commission of the ex-Duke of Parma, was discovered to have arrived at Parma in disguise, having gone there to get up a conspiracy. He remained concealed for some time, and when recognized by the populace great efforts were made to cover him. He took refuge in the Guard House, where four or five carbineers were stationed, but the door was forced and he was killed. Perfect tranquility subsequently prevailed. The Daily News says Anvoti was one of the most detested men in the late government, and in the reign of the Regent narrowly escaped the vengeance of his countrymen.

Another version says he was merely passing through the city, and was recognized at the railroad station. He was dragged through the streets, buffeted by the people, and finally his head was cut off and carried in triumph. The troops reached the scene too late to prevent the catastrophe.

The government of Bologna has decreed the abolition of the Customs line on the frontiers of Modena and Tuscany, and the adoption of the Sardinia Customs Tariff.—This looks like union and consolidation.

Mazzini has addressed a letter to the King of Sardinia, frankly renouncing his personal opinion, and promising his support to the Democratic party if they can and will make Italy free.

Letters from Naples say that great agitation continued to prevail there. It was reported that Garibaldi had entered the Marshes, and the rumor caused much sensation in Naples.

It is said that the Pope has informed the Great Powers that he will not give up his temporal power, and will, if necessary, call on all Catholic Powers to support him.

THE ZURICH CONFERENCE.—There is nothing further as to the proceedings at Zurich, beyond the general assertion that progress continues to be made towards signing the treaty of peace. It is said the treaty will be completed, and will leave Austria a door open to quarrel with Piedmont.

The Paris Constitutionel contains an article stating that France confines herself to giving the Italians proper advice, which, if followed by them, would have insured the prosperity of Central Italy; but having in vain offered advice, she cannot go so far as to dictate orders to Italy.

The latest reports say that the treaty between France and Austria will probably be signed at Zurich on the 10th or 12th inst. Austria had consented to sign on all questions belonging to Lombardy.

TRAVELLING ON A FREE PASS.—A case was tried in the New York Circuit Court at Rochester, last week, in which Mrs. Sarah D. Perkins sought to recover damages of the New York Central Railroad Company in consequence of the death of William H. Perkins, by the breaking down of the railroad bridge over the Sanquoit Creek, on the morning of May 11, 1858.—The railroad company refused to pay damages in this case, on the ground that Mr. Perkins was travelling on a free pass at the time he received the injuries of which he died—the said pass having on the back the usual stipulation that the company should not be liable for loss or injury in case of accident. The Judge charged the jury that if the accident occurred through the criminal negligence of the company to keep the bridge in repair, they should be held responsible for damages. The jury returned a verdict for the plaintiff to the amount of $5000.

☞ It is stated that at the time of the terrible explosion on the Great Eastern, a hard-headed old carpenter, who was laying a floor on a part of the wheel-house, was just in the act of sawing off a plank, and that without taking his knee off the timber, he looked up as the shower of wood, glass and iron came hurtling about him, until the projectiles had ceased to fall, when, with a shake of his head, he quietly resumed his work, as though nothing serious had happened.

THAT VALUABLE OLD CLOCK.—Instead of the old clock, recently purchased at New York, containing Bank of England notes amounting to $3,000, as at first reported, the value of the notes found amounts to $15,000, being three £1,000 Bank of England notes of the reign of Queen Anne. The lucky finder took the notes to a New York broker, who was afraid to cash them until he had written to the Bank of England, which he has done, and is awaiting an answer.

We never yet knew a man disposed to scorn the humble, who was not himself a fair object of scorn to the humblest.

FOOTSTEPS OF SIR JOHN FRANKLIN.—Mayhew & Baker, publishers, Boston, will issue on Saturday, Oct. 22, from the late London edition, "The Sea of Ice, or the Arctic Adventurers,"—beautifully illustrated, price 75 cents. A thrilling narrative of the adventures of a young countryman of Sir John Franklin's in the frozen regions. Stirring adventures and startling situations, interspersed with humorous predicaments, make it a book to be eagerly sought for by all, while to the young it is invaluable, as giving the most vivid description of the Arctic regions.

☞ A petition signed by 460 clergymen of the Church of England has been presented to the Queen. It asks for an abbreviation of the services; and, amongst other things, for the discontinuance of the Athanasian Creed and the use of Apocryphal Lessons. It also specifies certain changes desired in the Burial, Baptismal and Ordination offices.

THE BIG SHIP.—By latest dates from Liverpool, October 8, it seems no further change has been made in the programme of the Great Eastern. She probably left Portland on the day the Europa sailed, and arrive at Holyhead on the 11th. Her departure for America depends on circumstances. Numerous steamers and excursion trains are advertised to leave Liverpool to visit the big ship.

EXCURSION TO NEW YORK.—Mr. Josiah Perham has arranged for an excursion party to New York, of the most favorable and attractive character. Pleasure seekers and business men are referred to his advertisement of a "Grand Excursion to New York."

RIGHTEOUS IMPROVEMENT.—We are pleased to learn that the barbers of this city talk of closing their several places of business upon the Sabbath. We trust that no one of the "fraternity" will make any objection to this movement. We have always thought it "barberous" on their part in not obeying the law of God and man, and not keeping their place of business closed during holy time.—*Ballot.*

☞ The Concord N. H. Patriot says:

"We believe the Democratic party of New Hampshire was never *stronger* or more cordially *united* than they are *to-day.* There is no difference of *opinion* among them upon any question of practical importance."

WILL MAKING.—Hazlitt maintains that the petty malignity of mortals finds its most striking field in the matter of will making. He says:—

"The last act of our lives seldom belies the former tenor of them for stupidity, caprice, and unmeaning spite. All we seem to think of is to manage matters so (in settling accounts with those who are so unmannerly as to survive us) to do as little good, and plague and disappoint as many people as possible."

☞ The celebrated sorrel gelding, Red Oak, reputed the best race horse in Kentucky, was ruined forever on the Woodlawn track near Louisville, last week, by straining the tendons of his left fore leg, while running. He was originally a stage horse, and afterwards became the favorite two and three mile horse in Kentucky.

☞ Mr. Walter Folger, the keeper of the Cliff Beacons, Nantucket, celebrated the fiftieth anniversary of his marriage, on Wednesday last. Among the number present were twelve, whose united ages amount to 908 years. Only five persons were present who witnessed the ceremony of their marriage.

☞ The N. Y. Evening Post states that in repeating his oration on Webster, at Boston, the other day, Mr. Everett omitted the passage contained in it on the first delivery, to the effect that Mr. Webster believed that "free labor would ultimately prevail throughout the country." The passage had excited remark, and Mr. Everett did not repeat it.

☞ In Boston, on Wednesday evening, the Post says, Aaron Green fell from his wagon in Federal street, under a coal cart, which passed over him and broke his thigh in two places. He was intoxicated. The police conveyed him to the hospital.

☞ Flora Temple is reported to have scored a mile at Kalamazoo, Michigan, in 2:19 3-4. Thus has she again beaten herself. A suspicious editor hints that western miles may be a trifle short!

☞ From India a private telegram says that all the disbanded European troops had accepted the bounty and consented to go to China instead of returning home. The supposed force to be sent would number ten thousand.

☞ A nice fellow to stick to while his money lasts is the Marquis of Westminster. He has only £800,000 a year for pocket money!

☞ William Parker, Esq., of Wilton, well known as a hotel-keeper at Francestown for thirty years, died on Tuesday. He was 69 years of age.

☞ Ticknor & Fields have purchased the Atlantic Monthly for $10,000.

☞ England and France are preparing to force the passage of the Pei-ho.

THE PROTESTANTS OF AUSTRIA have recently had large concessions made to them by the government. The laws in regard to schools, marriage, property, parishes, etc., have been modified to a great extent in accordance with the desire of protestants of the empire.

All virtuous, unforgiving people, are pleased to know that Bishop Onderdonk is not to be restored.—*Post.*

It is estimated that more than a thousand barrels of mackerel have been caught in this harbor within the last three weeks.—*Rockland Democrat.*

Our sidewalks are too narrow for the purposes they are used for. When hoops meet hoops, it is worse than when in the olden time Greek met Greek.

I is not to be wondered at that disputes about opinions are generally made up of personalities, for a man's opinions are a part of himself.

CHANGE OF NAME.—The Great Eastern is now, in fact, the Great Uncertainty.—*N. Y. Sunday Times.*

Portsmouth, Sept. 3, 1859,

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 26, 1858

Messrs. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,

JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Prepared by S. W. FOWLE & CO., BOSTON. and for sale by Wm. R. Preston, David Kimball, Nathan F. Tuttle, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. sp1ot 4wd&w

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Billious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq. Weeks & Potter, Boston, General Agents for the New England States.

R. R. R.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

GROVER & BAKER'S

Celebrated Family Sewing Machines.

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, are chased from the store, requiring no rewinding thread, and finishing each seam by their own eration, without recourse to the hand needle, is required by other machines. On account their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is and very quiet. The EASE with which they be managed is a distinguishable feature, and stitch is the strongest, handsomest, and elastic of any made.

What is specially claimed for the "GROVER BAKER" machine is—

That it makes a *stronger* and *handsomer* than is made by hand or by any other machine

That it makes a more *elastic* seam, which withstand the tests of wear, and washing ironing, better than that made by any other chine.

That the speed at which it can be used is than any other, and the power required to ate it is less than that required by any other chine.

That it is nearly noiseless in its operation.

That its construction is more simple, and bility to disarrangement less than any other

That it can be quicker learned, more easily in order, got ready for use, and changed one quality or grade of work, than any other

Its applicability to the entire range of Family Sewing—from the finest and most delicate ture to the heavier and coarser fabrics.

That it uses thread or silk from the ordinary *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end every seam; each stitch is independent of neighbor.

Is there a husband, father or brother, who permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do better, more expeditiously, and cheaper than possibly be done by hand?

ALLEN & FARR.

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to others.

ALLEN & FARR.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will work handsomely and strongly, and will not liable to get out of repair, call on Mr. Whitmore in Daniel street, see the operation of Grover Baker's machine, and then place one in your family. They will never consent to part with it, they understand its operation.

Local Items.

☞ An elderly woman who died in this city this week, had been long in a decline, and was very weak; yet she supposed, as well as the family she lived with, that she could bear to be conveyed in a close and easy carriage, about a dozen miles, to a neighboring town, to which it was desirable to remove her. Her physician agreed in the opinion; and the woman dressed herself entirely and completely for the journey, even tying her own shoes! But on helping her into the carriage, as she took her seat her head was observed to fall on one side, and the attendants lifting her out as speedily as possible, had barely returned her to the house, and laid her on a bed, when she breathed her last.

☞ A little child, not quite three years old, whose decease is recorded in another column, came to its death by a scald. The child's mother had been boiling pumpkins for swine, and poured the hot stuff into a pail. The little one stepped back and fell into the pail, injuring her so that she died in twelve hours. Strange to say, however, after the first moment she did not cry out nor complain of great suffering.

THE LYCEUM. — Gilmore's Serenade Band, of Boston, gave a splendid Concert on Thursday evening, as the second entertainment of the People's Lyceum. The audience was large, and the music capital, of course. Gilmore is hard to beat.

For the next evening, Tuesday, Oct. 25, Hon. Hampden Cutts is to read Shakespeare,—which he can do better than any other person we ever heard.

☞ Those epicures who, like old rats, love cheese, need not look at Moulton & Blaisdell's advertisement of the article, but, like the quadrupeds just named, slip into the store and nibble at the bait. They must look out, however, not to be caught, for one nibble of nice cheese is apt to bring on another,—as we know by experience. And an assortment of first class goods, selected by an experienced and skilful grocer, must find purchasers on Market Square.

☞ A Portsmouth correspondent of the Boston Atlas and Bee says that Horace Webster, Esq., is talked of as the democratic candidate for Mayor at the approaching municipal election.

☞ The alarm of fire on Friday last, the Ballot says was caused by the burning of an old house in Newington, owned by 14 individuals. Our firemen turned out, eager to do service, but on finding the fire to be out of the city, returned again to their quarters.

☞ The old Mann Freeman Hotel, or Cape Neddick House, is offered for sale,—and affords a rare chance for the right man to step into a long-established and safe business of the sort. But what will the people do, without Mrs. Freeman? With apparently limited resources as to markets and many of the facilities which go to help out hotel-keeping—her table has always been inviting, and a capital meal served up astonishingly quick. Of late years her sons have taken matters in hand. For the sake of her well-earned and long-retained good name and fame, as hostess, we hope no mean Boniface will ever preside over the Cape Neddick House.

RARE OCTOBER PRODUCTS.—Mr. Thos. Conner, of Exeter, an ardent lover of botany, found a cluster of buds of the trailing arbutus, or May flower, nearly ready to expand their petals; and a bunch of raspberries, not quite ripe; during a ramble in the woods on Sunday.

☞ The Rockingham Quarterly Conference is to be held in the Universalist Church at Epping, next Wednesday and Thursday, beginning on Wednesday, at 1 o'clock P. M., and closing Thursday afternoon.

☞ S. J. C. Thursday was occupied with the Dearborn Will Case.

☞ When you advertise your business, suggests Prentice, make no half-way work of it. Business is like architecture—the best support is its columns.

The Hindoo mothers do not slay half so many babies from the incultation of a false religion, as ours do by overfeeding.—*Prentice.*

EXCURSION TO BOSTON

On the Eastern Railroad, Friday, Oct. 21. An Extra Train will be run both ways, leaving Portsmouth at half past 7 o'clock, and stopping to take passengers at all Way Stations as far as Seabrook. Returning, leave Boston at quarter before 7 o'clock.

Tickets $1.50, including fare up and back, and free admission to the Boston Atheneum galleries of rare statuary and paintings, &c. Tickets will be sold at the depots from Portsmouth to Seabrook.

GILMORE'S BAND will probably accompany the Excursion.

Should Friday be stormy, the Excursion will take place the first fair day.

Should the weather be favorable, a large party of ladies and gentlemen will avail themselves of the opportunity to visit "the city." Gilmore's Band will probably go up in the train; and if the company is sufficiently numerous, and desire to do so, a procession will be formed, on arriving in Boston, and after marching with the music to Faneuil Hall and other places of interest, visit the Atheneum in a body. The fountain is to play on the Common at half past 2 o'clock.

FRAUDS IN AMERICAN COTTON.—The Cotton brokers of Liverpool and the manufacturers of Manchester are again raising a loud cry against the practice of mixing sand, dust, etc., with American cotton. The Cotton Brokers' Association of Liverpool have presented a memorial to the American Chamber of Commerce on the subject, requesting the Chamber to use its influence to stop the practice. The memorial says that in the last years' imports the sand and dust would, in all probability, form an equivalent to the weight of 100,000 bales, and the admixture caused a depreciation in the value of the cotton greater than was proportioned to the sand and dust. The American Chamber recognized the importance of the movement, and the memorial is to be printed for circulation in the States. Is it so? Have some swindling Yankees gone South, and taught the people there how to cheat?

☞ The Supreme Court now sitting at Worcester, Mass., has decided that where confidential communication between counsel and client happens to be overheard by a third person, such person may testify thereto. Communications to counsel are only so far privileged that the counsel cannot be permitted to testify to them.

Lieut. Bartlett, father of the lovely bride of Senor Oviedo, writes to the New York Times to contradict a general impression that the notoriety and publicity attending the recent nuptials of his daughter were by the connivance or consent of his family or Senor Oviedo.

Pooh! pooh! says Uncle Toby—what could they make such a parade for, if they did not want people to see them? Would there be any parades of firemen or soldiers, if there were no spectators? We trow not.

☞ A Chinese funeral is like an Irish wake. Every one smokes, drinks tea, gossips and laughs, till the time comes to gather round the coffin; then they shed tears, groan, sob, and address the dead in passionate and pathetic monologues. Every Chinese can weep and laugh at will, like an actor.

The Combination Stove and Range

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

The Celebrated Magee Patent
Ventilating Parlor Stove,
All sizes—acknowledged by every one to be the BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES
of the most approved kinds.
STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,
7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills
Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

N B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

The News.

FROM HARPER'S FERRY.

By a dispatch from Harper's Ferry, Oct. 19, it appears that the prisoners have been committed to Charlestown Jail. They will be indicted and tried in a few days. The question of jurisdiction has been settled in this way: The local authorities are to try the prisoners for murder, and meanwhile the U. S. authorities are to proceed against them on the charge of treason. Gov. Wise said to U. S. District Attorney Ould, that he had no objection to the general government proceeding against the prisoners, that is, what will be left of them by the time the Virginia authorities have done with them.

Brown is better, and has made a fuller statement in which he says he rented the farm from Dr. Kennedy six months since, and the rent is paid till next March. He never had over 22 men at the farm at one time, that belonged to the organization, but he had reason to expect reinforcements from Maryland, Kentucky, North and South Carolina, and Canada. He had arms sufficient for 1500 men. He had 200 revolvers, 200 Sharpe's rifles and 1000 spears, which he left at the farm. He had abundance of powder, and other ammunition. He brought all the arms, from time to time, from Connecticut and other eastern points, and Chambersburg, Pa. They were directed to James Smith & Son, Kennedy farm, his assumed name. They were packed in double boxes, so as to deceive the parties who handed them to the farm. He says he made mistakes in not either detaining the train on Sunday night, or suffering it to go on unmolested.

Whites—Gen. John Brown, Commander-in-Chief, wounded—but will recover.
Capt. Oliver Brown—dead.
Capt. Watson Brown—dead.
Capt. Aaron C. Stevens, of Conn.—wounded badly. He received three balls, and cannot recover.
Lieut. Edwin Coppice, of Iowa—unhurt.
Lieut. Albert Hazlitt, of Pa.—dead.
Lieut. Wm. Leman, of Maine—dead.
Capt. John E, Cook, of Conn.—escaped.
Privates—Steward Taylor, Canada—dead.
Charles P. Tidd, of Maine—dead.
W. Thompson of New York—dead.
Capt John Kagi of Ohio, raised in Virginia—dead.
Lieut. Jere. Anderson of Indiana.—dead.

With the three whites previously sent off, the above made a total of 17 whites.

Emperor of New York, raised in South Carolina—not wounded, but a prisoner. The latter was elected a member of the Provisional Government some time since.

Lewis Leary of Ohio, raised in Virginia—dead.

Copeland of Ohio, raised in Virginia—not wounded—prisoner at Charlestown.

Gen. Brown has nine wounds, but none fatal. Bushels of letters have been discovered from all parts of the country. One from Gerrit Smith informs Brown of money being deposited in a Bank of New York, to the credit of J. Smith and Sons. It appears to be one of many, informing him, from time to time, as money was received.

Capt. Cook is still in the mountains. The scouts report having tracked him from the house where he ate his breakfast. Col. Lee, with the marines, leaves for Washington-night.

An evening dispatch, past 11 o'clock, from Harper's Ferry, says:—

There was great consternation for two hours to-night. All the men, women and children from Sandy Hook and vicinity rushed in, it being reported that Cook was murdering the whites in that valley.

Not less than three hundred men, women and children have arrived.

Col. Lee has concluded to remain with the marines. He has now gone to the valley with 30 marines, to examine the truth of the rumor. A party of 30 armed citizens has also gone.

WASHINGTON, Oct. 19.—Papers found on the person and in the valise of Brown, received by the government, confirm the reports that his scheme had advocates in various States, who were well informed of his plans and movements for a servile insurrection. It appears that he kept a journal, in which he detailed his transactions, showing his purchase of arms in large quantities, and ammunition, and stores of all kinds, with other warkike appliances. In addition to the above representation, it is said there is nothing in the papers to implicate negroes.

HARPER'S FERRY, Oct. 20.—Col. Lee, with his troops, has returned from the Valley. All is quiet there. He found the Garret family safe.

☞ The Baltimore American says that the slave population of the region of country in which the recent outbreak was located, is very large. Within twenty miles of Harper's Ferry, there are not less than 20,000 slaves, of whom probably 5000 are men.

DUNKIRK, N. Y., Oct. 20.—The first snow of the season fell here this morning, and there are indications of more.

HOLDERNESS, N. H., Oct. 20.—Thermometer 30 above. Mount Prospect covered with snow.

PROVINCIAL UNEASINESS.—The Halifax papers comment in indignant terms upon the fact that the American ship Stephen Crowell, is unloading fifteen hundred tons of English goods at that port, while under the Reciprocity Treaty, the ships of England and the Provinces are deprived of the advantages which would enable them to enter into the competition.

☞ The Ladies' Home Magazine, for November, a valuable monthly by T. S. Arthur, Philadelphia, has for a frontispiece a fine engraving called the "Enraged Antiquary,"—worth more than the cost of the book.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertion, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, so as to compassion of it with any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—It is perfectly harmless and can cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, Hard Breathing and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 35 Maiden Lane, New York,

And by all respectable Druggists throughout the country.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES
OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVALUABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases in the third or last stage, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, under date of 1857.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of any Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE; that the subscriber; and his SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made twenty rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop, and keep it from falling off; *makes it soft, glossy, healthy and beautiful,* and if used by the young two or three times a week it will never fail or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I remain, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well nigh covered with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best FURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonful will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 285 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 ly

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY, & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every price is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to

WOOD, EDDY & CO.,
Wilmington, Delaware.

Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE,

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House,* and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain diseases which they will suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may wish them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or to be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the disease Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it' contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall restore the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more fean assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a diuner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick wan the best aid there is for them, and they should have it.
All our renedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized world. 6m—je14

Patent Indelible Pencil,
FOR MARKING CLOTHING.
Patented May 31, 1859.
This article has the following claims to public attention: It can be used with greater ease in writing upon all kinds of cloth; will not dry up like ink; will sharpen well without breaking, in being used as a Pencil; one box of pencils will mark THREE THOUSAND articles.
Many persons have found it difficult to procure an article that will be permanent—they will find this all they can desire. It does not cost one-third as much as ink.
The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of House keepers. This pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked, and it will leave an indelible mark thereupon.—(Scientific American, June 11, 1859.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, OCT. 22, 1859.

☞ The swaying and changing of human sympathy and passion,—contrasted with steady principle,—are plainly seen in some of the late terrible events at Harper's Ferry.

After the Marines had stormed and taken the Armory, and when the insurgents were brought out, some dead and others wounded, they were greeted with execrations, and only the precautions that had been taken, saved them from execution. The crowd, nearly every man of which carried a gun, swayed with tumultuous excitement, and cries of "Shoot them!" "Shoot them!" rang from every side. The appearance of the liberated prisoners, all of whom, through the steadiness of the marines, escaped injury, changed the current of feeling, and prolonged cheers took the place of howls and execrations.

Col. Washington, who was taken prisoner by Brown's party, gives the following particulars of the scenes in the Armory:—

They were neither tied nor insulted, and beyond the outrage of restricting their liberty, were not ill-used. Capt. Brown was always courteous to them, and at all times assured them that they should not be injured. He explained his purposes to them, and while he had them (the workmen) in confinement, made no Abolition speech to them. Col. Washington speaks of him as a man of extraordinary nerve. He never blanched during the assault, though he admitted in the night that he would have to die.

When the door was broken down, one of his men exclaimed, "I surrender." The Captain immediately cried out, "There's one surrenders; give him quarter;" and at the same moment fired his own rifle at the door.

During the previous night he spoke freely with Col. Washington, and referred to his sons. He said he had lost one in Kansas, and two here. He had not pressed them to join him in the expedition, but did not regret their loss; they had died in a glorious cause.

A dispatch to the Tribune says:—

A short time after Capt. Brown was brought out, he revived and talked earnestly to those about him, defending his course and avowing that he had done only what was right. He replied to questions substantially as follows: Are you Capt. Brown of Kansas? I am sometimes called so. Are you Ossawattamie Brown? I tried to do my duty there. What was your present object? To free slaves from bondage. Were any other persons but those with you now, connected with the movement? No, there was no one connected with the movement but those who came with me. Did you expect to kill people in order to carry your point? I did not wish to do so, but you forced us to it. Various questions of this kind were put to Capt. Brown, which he answered clearly and freely, with seeming anxiety to vindicate himself.

He urged that he had the town at his mercy; that he could have burnt it, and murdered the inhabitants, but did not; he had treated the prisoners with courtesy, and complained that he was hunted down like a beast. He spoke of the killing of his son, which he alleged was done while bearing a flag of truce, and seemed very anxious for the safety of his wounded son. His conversation bore the impression of the conviction that whatever he had done to free slaves was right.

Although at first considered dying, an examination of his wounds proved that they were not necessarily fatal. He expressed a desire to live and to be tried by his country. In his pockets nearly $300 were found in gold. Several important papers, found in his possession, were taken charge of by Col. Lee, on behalf of the Government.

The insurrectionists did not attempt to rob the paymaster's department at the Armory. A very large amount of money was there, but it was not disturbed.

☞ The People's ticket in Pennsylvania has received a majority estimated at 24,000. The Legislature just chosen is strongly Republican in both branches. The House stands 65 to 35. One-third of the Senate is elected biennially. Of the twenty-two Senators holding over, eleven are Republicans and eleven Democrats. The Opposition are reported to have carried every one of the eleven Senatorial districts in which elections were held this year. This gives twenty-two Republicans to eleven Democrats. The Senators now elected will take part in the choice of a successor to Senator Bigler, in 1861, when a man of another stripe will probably be returned.

☞ The aggregate majority for the new Kansas Constitution, from the counties of Doniphan, Atchison, Leavenworth, Jefferson, Wyandotte, north of the Kaw river, Johnson, Douglas, Shawnee, Franklin, Lykins and Linn, north, amounts to about 3000. The remaining counties will give as much more, and the new Constitution will be sent to Congress, endorsed by the popular will with a majority of 6000. The Democracy made an issue distinctly against the Constitution. Gov. Sam Medary took the stump against it in Bourbon county, and that precinct gave a majority of 201 against it.

☞ The Bangor Times, referring to the loss in Waldo County, and Dickerson's course says:—

"The Waldo shepherd has lost 781 sheep, and if he continues to deal out his poisonous fodder to them, in less than two years he will kill off his whole flock."

ELOPEMENT.—A correspondent of the Bangor Union states that great excitement exists in Dexter, Me., in consequence of the absconding on Thursday last, from that place, of Rev. Wm. S. Cilley, taking with him the daughter of Rev. J. F. Wetherell, a lovely and interesting girl, about 13 years of age. Mr. Wetherell has been in pursuit, but has not been able to get any trace of them beyond Augusta, which place they left on Friday.

The Portland Argus understands that Cilley came by the lower route to Yarmouth, then took the Grand Trunk road, and met the girl at Danville Junction. He then made application to the conductor for a ticket to St. Louis.

Cilley (who appears in the Register as a Universalist minister) it seems succeeded in getting the little girl into a carriage by making promises to her, and telling her that he was going to the cemetery, and wanted her to assist him in planting some flowers and evergreens on his wife's grave; but when in the carriage he drove rapidly away, she protesting against going with him. Her father was soon apprised of the fact and followed in pursuit, as soon as possible, but it soon became dark, and he was unable to follow or trace them.

MUSIC AS A MEDICINE.—Eugene de Mirecourt, in his lively little biography of Felicien David, the composer, whose recent work, "Herculaneum," was so successful at the Paris opera, tells that when in the East, David cured a man sick with fever by his piano-forte performances. The sick man, at the sound of the instrument, felt his fever leave him, and when it threatened to renew its attacks, David would chase it away with a few preludes. In a week the man was well. This was not unlike the genuine original David playing before Saul.

The fact is worth receiving the attention of the faculty. To treat people by music would be an excellent method of introducing harmony into the conflicting medical systems.

A dyspeptic affection would probably be cured by three days of the cornet-a-piston. Nothing has yet been advanced to prove that neuralgia could resist an hour of violoncello, and an attack of cholera, however violent, would not stand more than twenty minutes of ophicleide. Half an hour of bassoon would drive away the headache, while deafness would be most effectually cured by the united efforts of these instruments in one of Verdi's finales.—*N. Y. Post.*

☞ The report of the Massachusetts Grand Division of the Sons of Temperance, shows the order to be in a very flourishing condition, having made a gain the last year of 6272 members, and of 7324 lady visitors. The meeting was the largest which the ever held in that State, and its proceedings were marked by harmony.

☞ Let every man, woman and child keep a little pulverized charcoal in their bedrooms, and on retiring at night let them put as much as can be laid on a six-pence in their mouths, and work it about among the teeth with the tongue, and it will not be long before there will be no decayed teeth for the dentist to fill with amalgam or pure gold either.

THE FISHERIES.—The Newburyport Herald says the pollock fleet have been doing remarkably well this fall: some thirty smacks are engaged in this pursuit, whose daily catch averages from 500 to 2000 fish to a vessel, which are worth, with the livers, seven cents each.

It is said the Russian babies look like so many idols with their heads carved out and the rest of the body left in a block. The appearance is caused by their being rolled up in tight bandages, leaving only the head out, so that they may be put away out of mischief and danger. On going into a Russian house, you may find one little fellow left on a shelf, another hung to a wall on a peg, and a third hung over one of the main beams of the roof, and rocked by the mother, who has the cord looped over her feet.

"Why that is a child!" you exclaim, looking close, to be sure you are not mistaken.

"Of course, what should it be?" answers the mother.

Yes, sure enough, it is a child, but so dirty that you cannot help asking—"When was it washed?"

"Washed!" shrieks the mother, "washed! what, wash a child! You would kill it."

The Chicago Times charges distinctly the office-holders in Ohio with voting the republican ticket at the recent election in that State. There is a day of reckoning for such political Ishmaelites, when salt will not save them.—*Bath Times.*

The New York Herald, the immaculate Bennett, regards Mr. Douglas as an incubus upon the Democratic party. Doubtless he is an incubus with such democrats as J. G. Bennet and those who fondle him or are fondled by him, whether they they reside in New York or dwell in the official palaces at the federal capital.—*Bath Times.*

A paper in Portsmouth which calls itself democratic, though its claim seems to be denied by the Democratic press of that State, quotes the Portland Advertiser against Judge Douglas. "Birds of a feather."—*Bath Times.*

☞ The Hon. Robert P. Dunlap, ex-Governor of Maine, and Past General Grand High Priest of the Royal Arch Masons for the United States, died Oct. 20 at his residence in Brunswick.

☞ They have a giant in Ohio who, tho' but 17 years of age, weighs three hundred and ninety-six pounds, and is seven and one-third feet high. He is a son of the celebrated Scotch giant.

☞ In Massachusetts, the convention of the Democrats of the Fifth District, held at Cambridge, was by far the stormiest political gathering of the season. A considerable number of persons claiming seats were barred out of the place of meeting, but managed to force an entrance, though a police force had been provided to restrain them. The Custom House men, who found themselves outnumbered by their opponents, after a day spent in wrangling, concluded at the last moment to make a bolt. The regulars elected Hon. B. F. Hallet and Cornelius Doherty, both of Boston, as their delegates to Charleston. The bolters chose Hon. John T. Heard and J. C. Lovejoy, the Collector's private secretary.

Of this latter gentleman the Bath Times says:

Antecedents don't seem to be inquired into when a man stands on the south side of the slavery question. J. C. Lovejoy, once the State agent of the Abolition party of Maine, is nominated by the adamantines of Cambridge as a delegate to Charleston. Mr. L. is a talented man, but as hard-shelled as Jeff. Davis himself.

Portsmouth, Sept. 3, 1859,

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASEVILLE, GA., Feb. 26, 1858

Messrs. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,

JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Prepared by S. W. FOWLE & CO., Boston, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. F. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Billious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq. Weeks & Potter, Boston, General Agents for the New England States.

R. R. R.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 9th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

GROVER & BAKER'S

Celebrated Family Sewing Machines.

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, so that they can be chased from the store, requiring no rewinding of the thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they work may be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the finest *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do better, more expeditiously, and cheaper than it possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of Cloaks, Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to the others. ALLEN & PAYNE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it when they understand its operation.

☞ The Excursion Train to Boston, Friday morning, took up about two hundred and fifty passengers, mostly from Portsmouth. At every stopping place, Gilmore's Band enlivened the scene with their excellent music, which added much to the interest of the trip. Most of the party visited the Boston Atheneum some time during the day, and enjoyed a look at the extensive collections of rare paintings and statuary there; and in the evening Conductor Cram brought all home safe again. Considering the lateness of the season, the sudden cold weather, and other circumstances, the excursion must be considered very successful.

☞ The Supreme Judicial Court were occupied with the Dearborn will case on Friday. The Grand Jury came in at noon, returned 12 bills of indictment, and were discharged. The arraignments will be made on Saturday.

☞ Perham's New York Excursion, next week, offers a rare chance to visit the great metropolis. Free entrance to the immense Fair at the American Institute is also included in the price of tickets, which in itself is very low. See advertisement and bills.

☞ The entertainment before the Lyceum, next Tuesday evening, will be Readings by Hon. Hampden Cutts—probably of a programme of short selections.

It is also probable that Mr. Gangooly will appear on some subsequent evening of the Course, in full costume, and lecture on the manners and customs of his people, the Brahmins.

☞ Rev. Moses Howe will preach at the Temple, to-morrow.

GREAT FIRE IN LEAVENWORTH.—*Leavenworth, K. T., Oct.* 20.—At 3 o'clock this morning a fire broke out in Bagsford's Billiard Saloon, corner of Shaunee and Main streets, and before the flames could be arrested fifteen buildings and their contents were destroyed. The loss is estimated at $120,000 and is about two-thirds covered with insurance in Eastern offices.—Messrs. Russell, Major, and Waddel's stores were consumed and the loss is $70,000, half insured.

☞ A new Orthodox Congregational church was organized at Kensington, Oct. 8. The public services were held in the Union Meeting House on Sabbath afternoon, Oct. 9th.

Invocation and reading of the scriptures by Rev. J. C. Blodgett, of the Christian Baptist church in Kensington; introductory prayer by Rev. Mr. Campbell; sermon by Rev. Mr. Stone; reading of the articles of faith and the covenant; consecrating prayer by Rev. George W. Thompson, of the church of Seabrook and Hampton Falls;—fellowship of the churches by Rev. John Colby, of the church in Hampton. The church consists of nineteen members.

GODERICH, C. W., Oct. 19.—The propeller Troy, from Chicago for Buffalo, with 11,000 bushels of wheat, foundered last night, 10 miles from Point Dubuque. A boat with 3 of the crew ran ashore near Goderich. The lifeboat with 18 of the crew and 3 ladies has not yet been heard of.

PORT SARNIA, C. W., Oct. 20.—Five of the crew of the propeller Troy were picked up last night by the steamer Kaloolah.—There were 23 persons on the Troy when she went down, of whom only 8 are known to be saved.

AUTUMNAL GATHERING OF UNITARIANS.—The autumnal convention of Unitarians was held in Lowell, commencing Tuesday evening, and closed Thursday afternoon. The opening sermon was preached by Rev. T. S. King of Boston.—The sessions were instructing and profitable. Those in attendance were treated with cordial courtesy by the Lowell people. It was the most successful convention ever held by the denomination.

"There are some members of a community," said the sagacious and witty Thomas Bradbury, "that are like a crumb in the throat; if they go the *right way*, they afford but little nourishment; but if they happen to go the *wrong way*, they give a great deal of trouble."

☞ The Post don't know who wrote the following aphorism, but says he was a sharp judge of men and things—that's certain:

"The commencement and the decline of love may be recognized by the embarrassment we feel at finding ourselves alone with the beloved."

It is admitted, on all hands, that the French army is the most effective one now in existence; but not a man in it is ever permitted to be struck, no matter what his crime. Are American citizens less susceptible to moral influences, and less capable of a generous ambition than the soldiers of France?—*N. Y. Ledger.*

A PUBLIC BENEFACTOR.—P. T. Barnum has advertised for one thousand sugar maples to plant as shade trees in the streets of East Bridgeport.

"There's two ways of doing it," said Pat to himself as he stood musing and waiting for a job on State street corner. "If I save me four thousand dollars I must lay up two hundred dollars a year for twenty years, or I can put away twenty dollars a year for two hundred years. Now which may will I do it?"—*Boston Traveller.*

THE FERRY REBELLION.

After the tragedy comes the farce,—the reader may say, after perusing the following dispatch from the late seat of war:—

HARPER'S FERRY, Oct. 20.—The excitement here has not abated in the least, and rumors are multiplying every moment. We have some authenticated statements from Chambersburg, showing that more supplies of arms and accoutrements have been traced to that neighborhood. The people will insist in believing that they are surrounded by spies and accomplicies of Capt. Brown.

The withdrawal of Col. Lee and the Washington marines, last night, has increased the general consternation, and the citizens are to-day, under Col. Barbour of the Armory, endeavoring to form companies for general defence. The Virginia militia, however, are not very tractable material for the formation of efficient companies, as all hands want to be Captains.—Scouts are out in the mountains to-day, searching for Cook, but there is no doubt but that he has ere this passed the Pennsylvania line, and is far on his way towards Canada.

Every stranger that comes here is looked upon with suspicion and several have been arrested on the charge of being spies. Mr. Wm. Lee, a gentleman from Charlottsville, was brought in to-day under arrest, causing great excitement. He was soon recognized and discharged.

It is said that Gov. Wise is very complimentary to the people of Harper's Ferry, imputing to them cowardice in allowing such a handfull of men to hold a population of nearly two thousand inhabitants as prisoners for twenty-four hours. He also spoke of the fact of eight of the men keeping forty or fifty citizens in confinement. One replied, "Well Governor, you must remember that they were packed together like sheep." His reply was, "Yes, I know I know that, but I must say you *acted* like sheep also."

Brown is not considered in any danger from his wounds, though Stevens, will, it is thought, not survive. He, however has a powerful constitution, and may recover.

WESTERN TRACT CONVENTION.—*Chicago, Oct.* 20.—The Western Tract Convention met for the second time this afternoon. They are occupied with the discussion of resolutions offered on the previous day, and which were adopted with some slight amendments.

In view of the Harper's Ferry affair, a resolution that the convention desires the abolition of slavery by peaceable means alone, was passed unanimously.

The committee appointed to report a plan for tract operations, presented a report which proposes the establishment of a united agency for the obtaining of anti-slavery tracts wherever published, the committee to be empowered to raise funds for procuring and distributing such tracts. The Cincinnati and Boston Societies are requested by a formal act of the Board of Directors to accept their committee for the united agency. After considerable discussion the report was adopted, and a committee of nine appointed to carry out the intentions of the convention, which then adjourned.

☞ The St. Paul Minnesotian says that a physician in that place asserts that 3000 babies were born there last winter, and that the crop the coming winter will be still heavier. The Minnesotian says:—"We think his figures rather steep, but this is certainly a fast country and a prolific climate. In a few years we shall be indifferent whether we have emigration or not."

SAVANNAH, Oct. 20.—Mr. Black, the shipping master, was carried off in the yacht Wanderer, but was returned in a boat to the harbor. He reports that the captain of the yacht said he was going to Africa for a cargo of slaves.

☞ Private advices from London state that Mr. Benjamin failed to raise a dollar for the Tehuantepec enterprise. He wanted $3,000,000. The Barings positively refused a dollar. Mr. Peabody took the matter under consideration, but only pro forma.

The people of Maine are all fifing and drumming, Because the big steamship to Portland is coming; Neal Dow struts about and exults, as he ought or; Since Maine owes her luck to the fame of her—*water!*

PIKE'S PEAK.—A special dispatch to the St. Louis Republican says a party of men arrived at St. Joseph on Wednesday, Oct. 19, from Pike's Peak, brining $100,000 in dust.

☞ A special dispatch to the N. Y. Herald, from Richmond, says the House of Bishops have disposed of Bishop Onderdonk's case, by granting leave to withdraw his petition. They refused to reinstate him, even on condition of his resigning his jurisdiction.

CHATEAUGAY, N. Y., Oct. 21.—Two feet of snow has fallen here since yesterday, and it is still snowing, and drifting from three to four feet.

☞ We understand there was a little snow at Berwick on Friday evening.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;

BOX AND CYLINDER do.

SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—

warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes--Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction.

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally.

TIN, SHEET IRON & COPPER WARE, manufactured to order.

☞ Prices as low as at any other establishment in this vicinity, and satisfaction guaranteed in all cases.

FRANK JONES,

The Resolutions.

We last week spoke pretty decidedly in approbation of the proceedings of the State Convention. With the exception of the qualified endorsal of the national administration, the resolutions accord entirely with the principles which we advocate, and consequently we were more than gratified at being able to give them our cordial approval, except in the particular mentioned.

The administration of Mr. Buchanan should have been fully and squarely endorsed. This was not required for its success at all, for its policy is established and vindicated beyond the influence of approving or disapproving resolutions passed by party conventions, but it was demanded for the credit of the Democracy of New Hampshire. It has long been their custom to approve and sanction the administrations of their choice without reservation, and there is no reason why the present administration should be made an exception to the rule. It has proved itself to be eminently able, patriotic and faithful, and should have received the full accustomed endorsal of the Convention. The limited and qualified praise bestowed upon it conveys an implied censure which is in no degree merited, and injures none but its authors. Every intelligent man in the Convention knew that Mr. Buchanan has performed all the duties of his high station with faithfulness and consummate ability, and consequently that his administration was entitled to their full and unqualified endorsal, and not deserving in any degree of the censure or disapproval which their partial praise implies.

But after the pointed condemnation of the administration by the State Convention last winter, we realize that it was not an easy thing to wholly retract that censure and come up to the full measure of approval at this time. And inasmuch as the Convention has distinctly repudiated the bogus doctrine of Douglas squatter sovereignty and boldly affirmed the true and constitutional doctrine in regard to the Territories, thereby indirectly applauding the administration by approving its principles, the short-comings of the resolution of endorsal may readily be forgiven.

Again we say, that although the Convention failed to fully and properly endorse the administration, we are well satisfied on the whole with its proceedings. The omission in this regard is in some degree excusable for the reason mentioned, and can do the administration no serious harm, while the unequivocal enunciation of correct doctrine contained in the resolutions indicates a wide change in the sentiments of the party leaders and cannot but exert a most important influence for good. Henceforth the Democracy of New Hampshire are to stand on the solid and sure platform of the Constitution and the Dred Scott decision, in reference to the great issue of the Territories, and not upon the rotten and treacherous foundation of inherent squatter sovereignty.

Our Platform Approved.

When we assumed the management of this paper hardly three months ago and reversed its political course, we did not suppose our platform would so soon met with the general favor and be squarely endorsed and approved by the Democratic State Convention of New Hampshire. We knew our doctrines must ultimately be received and acknowledged as sound and correct, because they are the doctrines of the Constitution, of justice and of reason; but we also knew that the Democratic masses throughout the North had been grossly misled and deceived by the course of the party presses and leaders, and we believed it would be a work of time to eradicate a widespread though miserable heresy, and restore a sound and healthful sentiment to the Democratic party. We realized that the Charleston Convention next year would explode the squatter sovereignty humbug and place the party upon the right course again, and we did not look for the return of sense and reason to our ranks much sooner than that.

We shall, therefore, be pardoned if we indulge in a little self-gratulation at the full endorsal which our views are already receiving on all hands. They have been triumphantly vindicated and sustained in Judge Black's unanswerable reply to Mr. Douglas, with the doctrines of which they are in perfect and entire agreement. They are being advocated by some of the ablest Democratic presses of the North. And last, in less than three months from their first promulgation, and after being violently and foolishly assailed and denounced by many of our Democratic cotemporaries, they have been approved and adopted by the Democracy of New Hampshire assembled in State Convention! The Democratic party of this State are no longer for squatter sovereignty, or the right of a rabble majority in the Territories to destroy the property rights of the minority, but for the Cincinnati platform and a constitutional popular sovereignty, or the right of the people of the Territories, when they shall possess *numbers sufficient, to form constitutions with or without domestic slavery,* and be admitted into the Union on terms of perfect equality with the original States.

Not to feel gratified at this change of sentiment from wrong to right in the Democratic party at the North, aside from any personal pride of opinion, would be to evince indifference to the prosperity and success of the Democratic cause. It shows that though the masses may be deceived for a time by ambitious and dishonest demagogism, they cannot be permanently misled. We congratulate our Democratic brethren of the press at being thus early, in support of the proceedings of the State Convention, placed upon our platform. We most cordially extend to them the right-hand of fellowship, and hope we shall hear from them nothing more of the weak and miserable absurdity that the people of the Territories *inherently* possess the right to establish or exclude slavery "in their own way and *time.*"

CHEESE.—The largest lot of Cheese we ever saw at one time, was opened at the store of Messrs. Moulton & Blaisdell, on Wednesday last, amounting to 5000 lbs., from the celebrated Lebanon Dairies. The number of cheeses was about 300, all of which are of excellent quality.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common graders, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show; the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it.—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

BLOOD FOOD.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES
OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENCY VITALITY and IMPURITY OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James E. Chilton to be "PROPERLY MADE and *chemically pure*. My *fac simile* signature is upon every bottle.

☞ Price $2 per bottle, or three bottles for $5, with full directions for use. Write for Circulars, which will give RELIABLE INFORMATION, and save from all possibility of deception. AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, continued since 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

UNRIVALLED IN THE MARKET,

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Columbia Co., N. Y., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country; My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c., S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Hair Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Mulberry street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $8 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

is one of the best FURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken, before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of calomel, above a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patron may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying that is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the gennine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Morning Chronicle.

☞ A contemporary publishes the following as an extract from a new history of the United States by an Englishman:—

"Before I went to America, I had heard much of American natural scenery; I confess I was sadly disappointed when I came to see it myself. I have traversed the country from the colonial dependence of Her Most Gracious Majesty, in Canada, to the Rocky Mountain, and I saw nothing, nothing that could be called worthy of the artist's or poet's observation. It is true that Canada has some charming scenery, which has been much improved by British taste and art—the natural consequences of the refinement and cultivation of the inhabitants; but whenever one crosses into the States, the country exhibits either wild forests or naked prairies, both of which are dangerous to travel through, in consequence of the quantities of voracious animals they contain. A distinguished member of the United States Parliament informed me that a railroad train, last year, was attacked by a drove of raccoons, while crossing a prairie, and every passenger destroyed. These raccoons are the terror of this wild country, and have depopulated thousands of miles of its surface.

THE CAP-MAKER OF NANTES.—A young girl of "considerable personal attractions," who, exhausted and breathless, with pallid cheek and tearful eye, totters up to her mother's cottage, with a beautiful baby in her arms, and exclaims, "Behold, mother, I have been guilty, but visit not my offence upon the head of this sweet innocent," faints away as she lays the baby on her mother's knee. The mother, an excellent woman, loves the baby at once for the daughter's sake, and although poor to the last degree, accepts this new charge without a murmur, in order to save her daughter from disgrace and shame. The beautiful cap-maker comes to see it and lavishes all a mother's fondness on the child, and this curious comedy lasts for several months: when one fine day come soldiers to the cottage to claim the child, which had been stolen from its parents by the girl, and searched for in vain throughout the town of Nantes, with offers of large rewards for the recovery. The girl could give no other reason for the indulgence of this singular whim, but "that the desire to have a little girl, and to enjoy the blessings of maternity, had taken such deep possession of her soul that she had sought the first opportunity of its gratification."—The reason astonished the jury on her trial, but did not satisfy them, so the beautiful cap-maker was condemned to two years imprisonment.—*Letter from Paris.*

LITERARY MEN AND THEIR WIVES.—I do maintain that a wife, whether young or old, may pass her evenings most happily in the presence of her husband; occupied herself, and conscious that he is still better occupied, though he may but speak with her and cast his eyes upon her from time to time; that such evenings may be looked forward to with great desire, and deeply regretted when they are passed away forever; Wieland, whose conjugal felicity has been almost as celebrated as himself, says, in a letter written after his wife's death, that if he but knew she was in the room, or if at times she stepped in and said a word or two, that was enough to gladden him. Some of the happiest and most loving couples are those who like Wieland and his wife, who are both to fully employed to spend the whole of every evening in conversation.—*Sara Coleridge.*

☞ On Friday, a man calling his name Conchlin, was arrested, charged with stealing clothing from one Walker, with whom he boarded. Upon searching he was found to have on his person, two coats, two vests, two shirts, and (we think) two pairs of pants. He was well prepared for the present cold weather, but as the clothing did not belong to him, he was locked up for trial to-day.

FRESH ANECDOTE OF WELLINGTON.—The Duke when in Spain was riding out with an aid-de-camp, when a shower of rain fell. Turning to the orderly, who was behind, he asked for his cloak, but not getting it immediately, he said "Quick!" "You can't have it till the straps are undone," said the man sharply, to which the duke answered, with a nod of the head, saying to the aid, "That man is his own hell."

☞ The Chicago Times copies the closing portion of Col. Forney's article which was considered libelous of the President, and suggests that if Attorney Gen. Black takes ground that an action can be maintained on it, he will have to write a good many pamphlets to make the Court of the same opinion.

☞ Peter Cowles, of Amherst, wants a "housekeeper" after the following pattern:

I would like a woman that has a sort of brunette complexion, dark flowing hair, little mite curling, dimples on cheeks, mild, gentle, slow, with pleasant eyes looking out of her head. I don't want a glass-eyed or a lantern-jawed woman, one that is cross as blazes, and talks all over the town.

☞ A married lady in Loudon county, Virginia, is said to weigh five hundred and fifty-three pounds. Her husband is a *great lady's man.*

☞ The subscription started in France for the relief of the wounded in the late war, amounts to-day to the handsome sum of 15,555,450 francs, or about $1,100,000.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, OCT. 24, 1859.

☞ The Washington Constitution publishes, and the N. H. Gazette republishes and approves, Judge Black's Appendix to his review of Mr. Douglas.

Judge Black, in this document, which is very able, in its way, shows up the popular sovereignty of Douglas as a *nonentity*,—makes out that slaves and christianity exist in the territories *by virtue* of the Constitution of the U. S., though neither are established by it,—and shows, if it is all true, or half true, that we at the North, have a great deal to do with supporting slavery,—though we suppose he would not like to have the argument turned round against it. It is, in short, a strong pro-slavery sermon by a special pleader. Judge Black says,—in his fight against Douglas,—

What is property? Whatever a person may legally appropriate to his own exclusive use, and transfer to another by sale or gift. By the laws of the Southern States, negroes are within this definition, and the Constitution of the United States not only recognizes the validity of the State laws, but it aids in carrying them out. The framers of the Constitution, seeing that slaves were liable to one danger from which all other property was exempt, namely that of being seduced away by the offer, in other States, of legal shelter from the pursuit of their owners, agreed that the Federal Government should guarantee their *redelivery* to the exclusive possession of the persons entitled to them as proprietors. The law, then, of the States in which they are, and the Constitution of the Federal Government, to all legal intents and purposes, pronounce that slaves are property. Beaten here, our adversaries convert it from a legal to a theological question. But when they appeal from the Constitution to the *Bible*, they are equally dissatisfied with the decision they get.

Uncle Toby would suggest that if Judge Black's law is not better than his knowledge of the Bible, he may be wrong after all.—For in Deuteronomy, chap. 23: v. 15, 16 we read;—

Thou shalt not deliver unto his master the servant which is escaped from his master unto thee:

He shalt dwell with thee, *even* among you, in that place which he shall choose in one of thy gates, where it liketh him best: thou shalt not oppress him.

This does not look exactly like *redelivery*,—nor does the well known epistle to Philemon, look much like a fugitive law, when he is enjoined in verses 16th and 17th, to receive Onesimus:—

Not now as a servant, but above a servant, a brother beloved, specially to me, but how much more unto thee, both in the flesh and in the Lord.

If thou count me therefore a partner, receive him as myself.

☞ Some of the Southern papers complain of losing the negroes without the use of an underground railroad. They are whitening out—bleaching; the children in a majority of instances being nearly white! It is a singular phenomenon, for which Southern abolitionists only are accountable. One paper in Virginia says:

"The South is becoming so 'mixed up,' that a man cannot feel safe any more in marrying there, for fear his wife will prove to have black blood in her veins."

☞ In Boston, on Thursday, Mr. Mooney, an Inspector at the Custom House, received notice that his services were no longer required at that institution. Mr. Mooney is a member of the Common Council for Ward 8, and is a leader of one wing of the Democracy of that Ward. He was also one of the delegates to the Fifth District Convention at Cambridgeport on Wednesday, and refused to bolt in company with the Custom House followers. Hence, off with his head. He is, we suppose, in modern parlance, a popular sovereignty man.

☞ The Washington Constitution says that a person who was recently allowed a pension on account of a disability incurred in the naval service, supposed to be of a permanent character, has informed the Pension office that he is happily restored to health, and therefore relinquishes his claim to the beneficence of the government. A similar instance has not occurred for many years, and it is as honorable to the gallant marine as it is novel.

☞ In Brooklyn, on Thursday morning, the police found the dead body of a woman named Mary Highland in an old house on East Warren street, surrounded by her three small children, who, thinking she was asleep, were trying to wake her up, and crying because they could not. The children were sent to the Almshouse. The woman died from the effects of intemperance. Her husband is now in jail as an habitual drunkard.

☞ A couple of thoughtless boys in Colchester, Conn., on Friday night last, caught a horse worth $200, belonging to Wm. A. Williams, tied a tin pail to his tail, and then started him on a run. He was terribly frightened, and ran headlong over an embankment, breaking his neck and killing him instantly. The boys have been arrested.

☞ It appears by the telegraph that Cook, the associate of Brown in the Harper's Ferry rebellion, is at Chambersburg, Penn., and is so closely pursued that he can hardly escape. The terror of the insurrection seems to have spread over the slave ground of the Middle States, and the white slaves of the North are endeavoring to make capital out of the occurrence. It is, however, only one item of the "irrepressible conflict." It may damage some politicians—it bids fair to cost Cook, Brown & Co. their lives—it is a dreadful event in itself;—but the trials which must now take place, the executions which may follow, the claims which the Virginia militia will make on Congress for seeing the Marines take the Armory—all these and others of like nature will certainly keep up a discussion of the *right* and *wrong* of slavery—of its wisdom and folly; and no discussion can damage the truth.

☞ The immortal "B. Donnelly," to whom Gov. *Wise* wrote the very *foolish* letter which was published by betrayal of confidence, is an importing liquor merchant in New York, and in a letter to the Evening Post he shows that "B. Donnelly & Co." is not a myth; but they are in successful operation, and have imported an article of liquor called "*Regency Gin*," the details of which will be published in every paper in the United States. He says it is of superior quality, and is "intended for the use of politicians at conventions. *One* bottle will carry a primary election, *two* will suffice for a county convention, and *ten*, it is guaranteed, will control a State convention."

☞ In Maine, in the fourth Congressional District, there is an effort being made to call a convention to elect a delegate to the Charleston Convention, but upon hunting up a committee to execute the business in a legal manner, the unterrified find a quorum cannot be got together. In 1852, after the State was re-districted for representatives to Congress, five gentlemen were appointed a committee to call future conventions. The Augusta Age says that all the members of this committee are either dead or have gone over to Black Republicanism, with the exception of two, who now constitute the entire committee.

THE ABDUCTION.—The Portland Advertiser says Mr. Cilley, having Miss Witherell in company, took the cars at South Paris on Thursday, having purchased tickets for Chicago.

The Bangor Whig puts a new phase upon the matter. That paper states that the child was given to Mr. Cilley in its infancy, at the death of its mother, and that since that time, until lately, she has been brought up in his family, and cared for as his own child. About a year since the father took the child from Mr. Cilley against his wishes, and Mr. C. has steadily claimed that the child was his by gift, and that he had reared it from its infancy, and that the father had now no right to wrest her from him. The little girl is a *niece* of Mr. Cilley, and the Whig does not learn that any fears are entertained that she will not be properly cared for.

This explanation shows the first statement to have been a *suppressio veri*.

ATTEMPT TO BLOW UP.—Thursday afternoon a watchman at Amoskeag Falls observed a broom-handle sticking out of the water near the west end and on the upper side of the dam, and on drawing it out he discovered attached to it a flask containing about ten pounds of good sporting powder and one or two pieces of stone to sink it, and running from the flask towards the batting mill was about fifty feet of fuse which had not been lighted. It is supposed to have been put there the previous night, and was waiting for the right time to come for firing, and thereby blow up the dam and remove the obstructions in the river.—*Manchester Mirror.*

☞ T. Thumb, Esq, of Bridgeport, Ct., has been victimized. Some rascals broke into his barn and stole a silver-mounted harness, two bridles, and "Wildcat's" horse-blanket. The little General would have "whalloped" the fellows if he had caught them, and now offers a reward for the property.

A SNOW STORM.—*Farther Point, Oct. 21—8 P. M.*—There is no possibility of the arrival of the steamship Anglo Saxon, though she is nearly due. A blinding snow storm prevails on the river. She has doubtless been somewhat detained by heavy westerly winds.

NEBRASKA ELECTION.—*Leavenworth, Oct. 21.*—Intelligence has reached here direct from Nebraska city, that Daily, Republican, is elected delegate to Congress by a majority of 48 over Eastbrook, Democrat.

WILMINGTON, N. C., Oct. 21.—At about 11 o'clock this morning, four of the Powder Mills in this place exploded with a terrific crash. Eleven persons and one horse were killed.

☞ Among the objects thrown overboard from the Quaker City, in order to lighten the ship, were six very valuable horses, estimated at not less than $1000 each.

The Press goes in for the introduction of copper-toed shoes;—there are spots where a shoe of that kind could be introduced with good effect.—*Hartford Times.*

☞ There are more than fifty prisoners now confined in Salem Jail, with its twelve lighted and eight *dim* cells.

☞ A grand Organ has been made in New York for Christ Church, Mobile, Ala., at a cost of $7000. It is said to be a splendid affair. This shows that there are those in the "sunny South" who are determined to keep time to Northern music; and they will have *harmony* in spite of the discord which fanatics are trying to fan into a flame.

THE VOICE.—Henry Ward Beecher says:—"Some talk in tenor, but pray in bass; converse in upper bass notes, but pray in tenor notes. If a brother first speaks and prays, a stranger, from the outside, would think two different men had been speaking. The habit becomes very marked in the administration of the clergymen, many of whom come at length, to have a coversation voice, a praying voice, a hymn voice, a reading voice, and a preaching voice."

☞ A few days ago a Meriden gentleman was robbed of his pocket-book in the New Haven depot. He caught the thief; and his confederate coming up, announced himself as a policeman, and took the thief into custody, and walked off with him.

☞ Rates of insurance are three per cent in Sacramento, California, and the business is poor at that, because owing to the dry state of the atmosphere at certain seasons, that as well as other towns periodically burn.

☞ It is said by those who have experimented, that animals with broken bones, if fed on phosphate of lime, recover very readily.

Portsmouth, Sept. 3, 1859.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,
Dr. Wistar's Balsam of Wild Cherry.
Says a well known Editor:—"This is truly a Balsam and a blessing to invalids. It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."
CASSVILLE, GA., Feb. 26, 1858
Messrs. SETH W. FOWLE & CO., Boston, Mass.
Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.
For Coughs and Colds in children I *know* it to be an excellent medium.
Respectfully yours,
JOHN H. RICE.
The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.
Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Dropsies.
There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Bilious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, the medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq. Weeks & Potter, Boston, General Agents for the New England States.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.
SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.
The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,
SHE WAS SOUND.
Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.
Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.
R. R. Remedies are sold by Druggists generally.

GROVER & BAKER
SEWING MACHINE COMPANY,
Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.
PORTSMOUTH, April 12, 1859.
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.
ALLEN & PAINE.
PORTSMOUTH, July 16, 1859.
If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

A QUEER PAIR OF PEARS.—H. F. Wendell, Esq., has placed on our desk, (where they may be seen by those curious in such matters,) a couple of pears, specimens of two crops which have grown on a tree in his garden the present season. They are of the Duchess d'Angouleme variety, and the regular crop was very fine fruit. About the 20th of July, a single blossom was thrown out on the tree, and has resulted in a perfect miniature pear; which bid fair to do as well as the first crop, until the cold snap suggested its being plucked.

☞ On Saturday last, as an elderly man was passing the Eastern Railroad Depot, driving a young and spirited horse, the animal took fright and ran through Vaughan Street, to the corner of Hanover street, where he threw the driver out with such force as to stun, and otherwise severely injure him. A physician was called, restoratives administered, and he is now doing well.

☞ To give some idea of the extent of the business of the Breweries in Portsmouth, we will state that a schooner landed eight thousand bushels of malt at one of our wharves last week.

☞ The old Thompson estate, or Dr. Dwight house, on Pleasant street, was sold at auction, on Saturday, by H. F. Wendell, Esq., for $5500; knocked off to Edmund M. Brown, Esq.

☞ Harper's Magazine for November is received by J. F. Shores, jr.; and the Atlantic Monthly for November, by John H. Locke—evidence of which we have in the prompt delivery of our copies of each.

N. H. BAPTIST CONVENTION.—The Baptist Pastoral Association met at Nashua Oct. 18. After choosing Rev. J. M. Coburn Moderator, and Rev. K. S. Hall Secretary, the annual sermon was preached by Rev. Lucien Hayden of New London. A statistical report was made, from which we learn that there are ninety-one Baptist churches in the State. Twenty-one churches did not sustain preaching; fifteen churches sustained preaching, with the assistance of the State Convention—leaving only fifty-five churches self-sustaining. Over twenty ministers have changed their field of labor during the past year.

The annual sermon before the Baptist State Convention was delivered Oct. 19, by Dr. C. W. Flanders, of Concord, from Jude, 23d verse. The theme was—"The aggressive power of an earnest church in saving men."

Revivals were reported to have been enjoyed in Manchester, Portsmouth, Brentwood, Great Falls, Hudson, Campton, Rumney, and other places.

About fourteen hundred dollars have been raised and expended in the State for feeble churches and destitute places.

Dr. Lamson of Portsmouth was appointed preacher of the annual sermon for next year, when the convention will be held at Newport.

FROM CALIFORNIA,—Mr. Crane, delegate elect from the proposed Nevada Territory, died at Bold Hill, Carson Valley, 26th ult.

A new silver mine has been discovered at the head of Washal Lake. Five teams, loaded with ore, were en route for San Francisco, for shipment to England.

It is thought that the Governor will make no appointment to fill Broderick's seat in the Senate, leaving the Legislature under special obligations to elect one as soon as possible after their meeting in January.

Dates from British Columbia of the 24th ult., state that the American clipper Northern Eagle was burned at Esquimalt Harbor on the 22d; valued at $65,000.

☞ E. Wilder Farley and George Evans of Maine, on Friday, presented their petitions to the President for the commutation of the sentence of Capt. Holmes, now under sentence of death at Portland for killing one of the crew of the ship Therese.

☞ Secretary Cass has received a letter from the Mexican Consul at Brownsville, stating that the men engaged in the recent outrages at Brownsville are all American citizens, though Mexican by birth. The Consul visited their chief in person and induced the party to disperse.

☞ Hon. Wm. Jarvis, the celebrated sheep raiser and wool-grower, of Vermont, formerly Consul at Lisbon, died at Weathersfield, on Friday, of paralysis, aged 89 years.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS,
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all diseases and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, com, pass and clearness, for which purpose they are regularly used by many professional vocalists.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Wintor Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—

warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in every instance have given perfect satisfaction

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally.

TIN, SHEET IRON & COPPER WARE, manufactured to order.

☞ Prices as low as at any other establishment in this vicinity, and satisfaction guarantied in all cases.

FRANK JONES,

61 Market Street, Portsmouth, N. H.

From the Journal.

Mr. Brewster,—We were much pleased on Thursday to see that the Portsmouth correspondent of the Traveller spoke in such appropriate terms of the recent work of our native sculptor, Mr. Frenc We learn that the store of Mess. Williams & Eve ett, where his master piece is exhibited, is daily visited by many admirers of the good and gifted man whom it represents, some of which have expressed their design to purchase the same.

The same correspondent says that the work is so much admired that the members of the South Parish are to purchase it and present it to Dr. Peabody. We know of no one's making any movement in reference to it, but we earnestly hope that such will be the case, as it may be the last opportunity of the kind which may occur, and besides it will aid a worthy young man who certainly deserves encouragement.

THE BUCKEYE ROTATING HARROW.—The operation of this implement at the State Fair at Dover, and the County Fair at Exeter, attracted much attention from the farmers and met with the highest encomiums. We recently saw one in operation at the farm of Mr. Hayes in this city. It appears to do double the work of the old fashioned harrow, with far less labor, clearing itself and leaving as neat a track as could be desired. As stated last week, Messrs. Simon R. Marston and Charles H. Hayes, have purchased the exclusive right to dispose of the harrow in the State of Maine. We commend them to the people "Down East" as reliable and enterprising young men, well known here. They started last Tuesday on their tour eastward.

TEACHERS INSTITUTE.—A notice for the meeting in this county will be found in our columns to-day, We hope it will be well attended and that the school committees of the several towns will bring out their teachers, for the mutual profit of them all, and the benefit of those over whom they preside as teachers.

We learn from CLEMENT MARCH, Esq. that the payment of his father's creditors, of which we gave a notice last week without his knowledge, is done at the suggestion of his brother CHARLES W. MARCH, Esq. and at their mutual expense.

NEW HAMPSHIRE POLITICS.

DOVER, Oct. 19.—At the Democratic Convention at Alton Bay to day, Geo. W. Stevens of Dover, and Robert S. Webster of Barnstead, two avowed friends and supporters of Douglas, were elected delegates to the Charleston Convention.—Resolutions endorsing Mr. Douglas' course were unaminously passed. Great enthusiasm prevailed.

From movements in New Hampshire and other parts of the country it is evident that Ex-President Pierce is regarded as a candidate for re-notamination for the White House.

BOLTING.—Isaac Adams, a prominent Democrat of Massachusetts, has withdrawn from the Democratic Ward and County Committee of Suffolk, and issued an address to his late political friends, in which he tells them some plain truths, Mr. Adams attempted to secure an endorsement of the doctrine of popular sovereignty at the Democratic State Convention, but failed. He says:—

"I have always supposed that the great and leading idea of the Democratic organization was, to enable the people to govern themselves. The name of the party was formerly borne by its being descriptive of its principles and mission: but in the Worcester Convention the whole idea of the right of self government was reversed; the very manner, as well as the substance of all its works, from beginning to end, having been anti-democratic; and all that can be culled from the cant of its resolutions and speeches, save a few words spoken by persons opposed to tyranny, amounts to nothing of any consequence, except a persistent bid for the Irish vote, an attempt to deceive the people by a sly and guarded pretense in relation to self-government, and a most positive declaration in favor of Buchanan and the wicked and anti-democratic measures, by means of which his administration has tried, first to rob the people in the territories of the right of self-government; then to filch from them that right by means of bribery; and finally to prevent us from hearing the truth from Mr. Douglas, by persecuting him and his friends.

The negro is the falcrum, and the United States Judiciary the lever by means of which those in power and their instruments, are attempting to subvert a right, without which the people would soon be reduced to a state not far above that of the Southern slave. They cry 'popular sovereignty! popular sovereignty!' and, as MR. HALLETT SAID IN HIS SPEECH, 'they mean whatever they please by it;' but when they saw that slave property in the territories must be protected by the use of the United State Courts for that purpose, even against the will of the people, and in spite of any territorial law against it, they mean all they say, however thick the wordy copering of their intent may be."

Mr. Adams ably defends the doctrine of popular sovereignty, and winds up by saying that the action of the Worcester Convention having been in entire contravention of Democratic principles, and therefore a breach of faith and fraud upon the people, he can neither vote for its candidates, nor help to carry out its policy.

WHO OWNS THE TOP OF MOUNT WASHINGTON.—The Coos Republican publishes an order of notice from the last Legislature, relating to the ownership of Mount Washington. David Pingree, Esq. Salem, Mass. as the representative of what is called the Jackson Company, and John Bellows of Exeter, N. H. respectively put forth their claims.—It is alleged by some that it is still owned by the State. The design is to secure a complete survey of all the land around the mountains, as preparatory to fixing the titles.

Teachers' Institute.

THE Fall Session of the Teachers' Institute for Rockingham County, will be held at the Town Hall in Hampstead.

The session will commence on Monday, Nov. 14th, at 10 o'clock, A. M., and continue through the week.

The following instructors have been engaged:

CHARLES NORTHEND, A. M. New Britain, Conn.
JOHN D. PHILBRICK, A. M. Sup. Schools, Boston, [Mass.
DR. LOWELL MASON, New York City.
SANBORN TENNEY, A. M. Auburndale, Mass.

Evening Lectures will be given by the Instructors and others, of which due notice will be given.

Board will be furnished at a rate not exceeding $1,50 for the session.

Passengers by the Boston & Maine R. R. will stop at Atkinson station—distant five miles. Coaches will be provided to meet the morning and afternoon trains on Monday, and the morning trains on Tuesday and Wednesday. Fare, twenty-five cents.

School Committees and the *friends of education* generally, are urged to use their influence to secure a full attendance of those who are or expect to be teachers.—All the exercises are open to the public, and all interested are invited to attend.

Teachers wishing to secure board may address any of the Committee of arrangements at Hampstead.

BULBOUS FLOWER ROOTS,
FOR AUTUMN PLANTING.
J. F. SHORES, Jr., No. 1 Congress Block,
Has just received a supply.

These bulbs are in fine order. For flowering in the spring, plant this fall in the open ground—placing them from 2 to 5 inches below the surface, with a good supply of sand around the bulbs.

For winter flowering, put them into pots or boxes with any common garden soil mixed with a little sand; then place them in a dark closet for 4 or 5 weeks, watering but little: after they begin to sprout, place in the sun and freely water and they will bloom in February or March.

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for bowel complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c. also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it.—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 35 Maiden Lane, New York.
And by all respectable Druggists throughout the country.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

REDPATH ON BROWN.

The Boston Atlas publishes from the pen of James Redpath, a sketch of some of the leading insurrectionists at Harper's Ferry, with notes upon the insurrection, which evince a knowledge of the parties engaged and motives which prompted, which few possess. Redpath was with some of them in Kansas, and knows them well.

He says of Old Brown, the leader:

"He was a Puritan in the Cromwellian sense of the word. He trusted in God and kept his powder dry. Prayers were offered up in his camp, every morning and evening; no food was eaten, unless grace was first asked on it.

For thirty years he secretly cherished the idea of being leader in a servile insurrection.

When the horizon of freedom looked gloomy in Kansas, he took leave of his wife and younger children, and with several of his sons—four or five of them—went out to Kansas. He thought that the hour was approaching for his work to begin. The ballot-box had been desecrated; the ruffians of Missouri had overwhelmed by violence the rights of the North. He went to put a stop to the insolence and violence of the South, and to him, more than to any other living man, we owe it that Kansas is a free State to-day. To a man of a very different character,—Gen. Lane,—although a personal and malignant enemy of mine, I would accord the second place in this honorable rank.

Brown was not sent by any one, unless by God, (as he himself believed,) to vindicate the right of the North and of freedom in Kansas. He was no politician. He despised the class with all the energy of his earnest and determined nature. His first appearance in the Territory was at Ossawatomie, at a public meeting at which accommodating politicians were carefully pruning a set of resolutions to suit every shade of free state men. The motion that called him out was to pass a resolution in favor of excluding all negroes from Kansas. Old Brown rose, and scattered consternation among the politicians by asserting the manhood of the negro race, and expressing his earnest anti-slavery convictions with a force and vehemence little likely to please the hybrids then known as Free State Democrats. There were a number of Indiana Democrats present, whom his speech so shocked that they subsequently became, and remained, I believe, in the class of "law-en order abidin'" pro-slavery men. It was his first and last appearance in a public meeting. * * * *

It is asserted that he was a member of the Republican party. It is false. He *despised* the Republican party. Of course he was opposed to the extension of slavery; and in favor, also, of organized political action against it. But when the Republicans cried Halt; John Brown said—FORWARD, *march!* He was an Abolitionist of the Bunker Hill school. He had as little sympathy with Garrison as Seward. He believed in human brotherhood and in the God of Battles; he admired Nat Turner as well as George Washington. He could not see that it was heroic to fight against a petty tax on tea, and endure seven years of warfare for a *political* right; and a crime to fight in favor of restoring an outraged race to every birthright with which their Maker had endowed them, but of which the South had for two centuries robbed them.

The recent outbreak was premature. The inevitable coming triumph of the Republican party, I have the best authority for stating, was the most powerful reason for the precipitate movement. The old man distrusted the Republican leaders; he said that their success would be a backward movement to the anti-slavery enterprise. His reason was that the masses of the people had confidence in these leaders; and would believe that by their action they would ultimately and peacefully abolish slavery. That the people would be deceived, that the Republicans would become as conservative of slavery as the Democrats themselves, he sincerely—may I add, *and with reason*—believed? Apathy to the welfare of the slave would follow; hence it was necessary to strike a blow at once. You know the result.

The man of the New York Ledger who drives a brace of fast horses, says if the Great Eastern should go to New York instead of Portland, *one thousand* persons would visit her in the former place for every *one* which will visit her in the latter.—Now that is talking big to some purpose.—No reasonable man doubts that one hundred thousand would visit her in Portland—equal to less than one-fifth of the population of our own State. That would make but *one hundred millions*—four times the population of the entire Union—if she went to New York! Who can hereafter doubt the judgment or calculation of the Ledger?—*Bath Times.*

☞ At a Justice Court in Hooksett, Oct. 19, Horace Bonney, for selling spirituous liquor at Clark's tavern in Hooksett, was held on three complaints to answer at the next term of Court for Merrimack county, to be held on the first Tuesday of February next.

An exchange speaks of the injunction, "If thy right eye offend thee pluck it out," as the "*Mosaic* law!" Some one should send him a copy of the New Testament.—*Bath Times.*

GOV. WISE'S RICHMOND SPEECH.—*Baltimore, Oct. 22.*—Gov. Wise's Richmond speech says he has a bushel (1) of Brown's correspondence, but not all of it, for a carpet bag full of it was taken to Baltimore and improperly used. (2)

The letters in his possession proved that prominent men at the North were implicated in the affair. (3) Whether our sister States at the North will allow such men to remain unrebuked or unpunished remains to be seen. (4) If any one should say off Gerrit Smith some night and bring him to me, I would read him a moral lecture and then send him home."

He had remained at Harper's Ferry to prevent Lynch Law in Virginia. There was no question of jurisdiction to settle, as he had made up his mind fully to be determining that the prisoner should be tried in Virginia, he would sign, and after an order to the contrary from the Secretary of the United States. (5) He was ready to what he would not have obeyed that the outlaws con[illegible] on the President and that they had [illegible] minutes. There [illegible] when he heard the part of the [illegible] only twelve men unguarded [illegible] taken the town in ten told them [illegible] was no cowardice (6) on and that [illegible] people there, because their prisoners [illegible] were prisoners, but he [illegible] that they had made a mistake, if Gen. Washington had been a [illegible] and his life imperiled by an attack, [illegible] would have risked his own and others [illegible] well in making an attack. The Kansas border ruffian made a great mistake as to the disposition of the slaves to fly to his standard. The abolitionists cannot even comprehend that they are held among us as by a patriarchal tenure.

The Governor urged the importance of the organization of military throughout the State, and the exercise of vigilance to guard against the disgrace of a similar surprise.(7)

NOTES, BY UNCLE TOBY.

1. Very likely,—and Gov. Wise could easily add a bushel of his own, worth about as much.

2. Probably burnt, or outraged, to express indignation.

3. Out with it, let us see what the implication is. The very biggest, from Gerrit Smith, amounts to nothing more than was generally known before.

4. The North will not be at much trouble about it, any way.

5. If any free state governor should set up such a nullification swagger as this, there would be a terrible braying of long-eared bipeds, and a doleful howl of rebellion and treason.

6. No, no! no cowardice, only a terrible fright.

7. Well; it is right to be on his guard; and if the whole things *patriarchal*, why not do as the patriarch Abraham did, (Genesis 14:14,) who "armed his trained servants, born in his own house, three hundred and eighteen," and with them won a great victory over four kings!

This *patriarchal* army would be just the thing. Let every planter furnish his negroes with a rifle, bowie knife and revolver each; —teach them the manual exercise, and drill them once a week;—and shortly, in this patriarchal way, Gov. Wise and Virginia might defy the Abolitionists, as safely as they now defy the President.

☞ Among the latest items from France, the London Post's Paris correspondent says that the imperial government is now contemplating what measures should be taken to counteract the protests of the French Bishops, concerning what are called outrages against the church.

All the Bishops received *orders from Rome* to preach for the restoration of the Italian Dukes.

We commend the above items to the perusal of those wise men who think we gain anything by imported voters who do as the priest says, and he says what the pope orders. We commend them also, to those those who would tie the hands and stop the mouths of protestant ministers when they favor liberty,—but have not a word to say when a Roman priest favors despotism at the nod of the Pope.

☞ Wilkes' Spirit of the Times says the stride of little Flora Temple is found, on measurement, to be equal to that of a sixteen hand horse. It is her long, low, locomotive style of going, which works with the saving exactitude of machinery, and wastes no power in unnecessary action, or in what is more graphically termed "style." This is the reason why the little bay mare has always been able to beat all her more showy and renowned competitors, and also always able to endure the long, punishing races which breaks their superior-looking natures down. Though she apparently has a violent and tearing gait, she probably expends ten per cent. less of power in a mile than any of her competitors, and consequently, when they are exhausted or "used up," she is equal to the performance of two or three heats more. Flora cannot travel to advantage under saddle. When she makes her extraordinary bursts of speed, she pulls with great force, and requires to be held very steady with the reins.

☞ The Paris Journal says Napoleon is getting disgusted with the procrastination of Austria, and for a moment the French policy inclines to a more intimate understanding with England.

THE GREAT EASTERN.—The Great Eastern quitted Portland, Eng., at quarter before 4 P. M. on the 8th, and dropped anchor at Holyhead quarter before 4 P. M., on the 10th, having accomplished the voyage round under favorable circumstances. The distance run during 48 hours was computed at something over 550 miles. The average rate of speed for the whole trip is stated at a little over 13 knots, though during the greater part of the time the engines did not go more than half speed. The paddles average ten and the screw thirty-eight revolutions per minute. Working at the pressure of 20 pounds, the greatest speed attained was over 14 1-2 knots, or nearly 17 miles an hour. This was accomplished without any special exertions on the part of the engines, but a considerable quantity of canvass was spread.

The weather during the trip was squally, and at times a long heavy ground swell was experienced, causing, according to some authorities, a good deal of pitching and rolling on the part of the vessel; while others say that the ship was under most perfect control. Rough attempts have been made to ascertain the greatest angle of the deck under the roll, and the worst calculation was said to fix it at 10 deg., while vessels in the vicinity were pitching about in a very lively manner.

The ship was tried after some demur, by Scott Russell, both under screw and paddle engines, united and singly, and on both occasions with success. Experience showed that the ship steered admirably, and that her compasses were exact to a marvellous degree.

It is reported that the Great Eastern would remain at Holyhead ten or twelve days, and then proceed round to Southampton to have her boilers thoroughly repaired, in accordance with the requirements of the Board of Trade. A correspondent of the London Times, on board the ship, writing before her run to Holyhead, says—"It is more than probable that the ship will not leave England during the winter, and that Southampton will probably be her winter quarters."

A slight accident occurred on board the steamer during her run to Holyhead, a coal fitter having one of his hands crushed by the machinery.

MAINE SKATES.—The rage for skating which has sprung up within a year or two, has created so large a demand that Messrs. Williams, Morse & Co., of Bloomfield, Me., commenced the manufacture of skates early the past season, and though they have constantly employed in the various departments of their work as many as thirty persons, they are not able to keep ahead of the orders they are every day receiving. They have already finished 8000 pairs, and are intending before the season shall close to finish double this number, or 16,000 pairs. Full one-half of these are for ladies. Many of them are sold by the retailers as high as $5 per pair, and none of them we think are retailed for less than $1.50.

☞ The laws of Vermont prohibiting the traffic in intoxicating liquors, have become the settled and approved policy of the State. The Governor calls the attention of the Legislature to the subject of the establishment of a reformatory school for juvenile offenders.

"Why, Bridget," said her mistress, who wished to rally the girl, for the amusement of her company, upon the fantastic ornamenting of a huge pie—"Why, Bridget, did you do this? you are quite an artist; how did you do it? "Indade mum, it was meself that did it," replied Bridget. "Isn't it pritty, mum? I did it with your false teeth, mum!"

AN AUTUMNAL REFLECTION.—Walter Savage Landor says:—"The damps of autumn sink into the leaves, and prepare them for the necessity of their fall; and thus insensibly are we, as years close round us, detached from our tenacity to life by the gentle pressure of recorded sorrows."

"Mrs. Jones," said a gentleman one day last summer, when railroad accidents were so numerous, to a lady whose husband was a brakeman, "do you not feel worried about Mr. Jones while he is on the cars, in view of the many accidents that are now daily occurring?" "W-e-l-l, n-o — not at all," replied the contented lady, "for, d'ye see, if he is killed I know I shall be paid for it, because Mr. Williams got $40 for his cow that was run over by the cars a few days ago!"

LONG SERMONS.—Rev. William Taylor, in his late work, "The Model Preacher," says: "Often when a preacher has driven a nail in a sure place, instead of clinching it, and securing well the advantage, he hammers away till he breaks the head off, or splits the board."

It is a religious duty to avoid, if not to hate, a man who doesn't like birds and flowers.

A bad man could not be happy in heaven unless heaven were unparadised.—*N. Y. Ledger.*

At Machias last week, a partridge missing its way, flew through the gratings of the jail and found a hiding place in one of the prisoners' cells. Beautiful as the sight was, the bird seemed to be by no means a welcome visitant to the poor inmates of the cell, who regarded him as a sure token of ill luck.—*Portland Adv.*

☞ The merchants of Albany are agitating a plan for deepening the channel of the Hudson, by a system of dykes pointing up the river, after the Prussian plan.

Portsmouth, Sept. 8, 1859,

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 26, 1858

Messrs. SETH W. FOWLE & Co., Boston, Mass.

Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,
JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Bilious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor of State and Pleasant Sts., and No. 12 Market Sq. Weeks & Potter, Boston, General Agents for the New England States.

R. R. R.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

GROVER & BAKER'S
Celebrated Family Sewing Machines.

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE
GROVER & BAKER
SEWING MACHINE COMPANY,

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. LYCEUM.—Rev. J. C. Fletcher will this evening deliver his famous, popular Lecture on "The Land of Tell"—an entertainment of the highest character, judging from the well known ability of the author, and the success of this lecture wherever it has been delivered. Mr. Fletcher is widely and favorably known as a writer and lecturer, especially as chief anthor of the great work on "Brazil and the Brazilians;" and is particularly well qualified to treat of Switzerland, having, we think, resided there for some time, and married a Swiss lady. He has been received with great favor in most of our principal cities, but this is his first appearance before a Portsmouth audience.

Dr. Windship comes next, Tuesday, Nov. 1, with his celebrated lecture on "Physical Education," with extraordinary feats of strength as practical illustrations.

Tickets for the Course $1. Evening tickets 25 cents.

MUSIC AT THE LYCEUM.—At the request of several of those who were delighted with the Concert by Gilmore's Band, last week, we will, even at this late day, state that the programme consisted of selections from Martha, Trovatore, Traviata, Huguenots, Il Puritani, and other operas, together with music of a lighter character by Strauss, Gungl, Labitzky and other popular composers; including the Cuckoo Polka, in which the songs of birds are introduced with pleasing effect.

Rev. Mr. Fletcher's lecture, for this evening, has sometimes been interspersed with vocal and instrumental music—and it was intended to do so here; but on account of his coming much sooner than was expected, to fill Mr. Cutts' place, it is found impossible to furnish the music at such short notice. And since the Lyceum attendants were supplied with so bountiful a musical feast on the last evening, it is thought they may be satisfied with the literary feast alone on this occasion.

DIED, in this city, on Monday, Oct. 24, Mr. WILLIAM A. SHILLABER, aged 26, son of Capt. Robert Shillaber. His death was occasioned by an accident on the Boston & New York Central Railroad, which occurred two years and two months since. His sufferings were very great for many months—till death has closed a life of good promise and high hope, to himself and his parents. But the "weary are at rest," and while the "dust returns to the earth as it was, the spirit has returned to God who gave it."

SUPREME JUDICIAL COURT.

MONDAY, Oct. 24.

The Court took up criminal cases. Joseph Paul and John Stringer (two of the safer boys of Portsmouth,) retracted their plea of not guilty, and plead guilty of stealing to the amount of $12. They were sentenced to 30 days each in jail. [They have been there 3 months already.]

Harriet Myers, for keeping a disorderly house in Portsmouth, was put on trial, and the jury returned a verdict of not guilty.

THE WAY OF THE TRANSGRESSOR.—Last March or April, the Clothing Store of Auerbach & Green, in this city, was robbed. The thief was taken up and put in jail, undoubtedly guilty. But when he came before the Grand Jury, last week, the witnesses, the most important, were not to be found. The Grand Jury of course found no bill against him, and he was set at liberty on Saturday.

That very day he got drunk, lodged in the lock-up that night, over Sunday; and on Monday he was fined $1 and costs, for want of which he went to jail again; but his friends purpose to pay his fine and send him to sea presently. He is another of our 40 loafers. No matter what his name is.

LOVE AND WISDOM.

BY JAMES GREGOR GRANT.

Love and Wisdom, though it may be, they are
twins of heavenly birth,
And in heaven are sister angels, are no sisters upon earth!
Seldom falls the smile of wisdom upon love's impassion'd thrill,
Seldom comes the happy bridal of the reason with the will.

Not always sweetness, goodness, worth, the charm of mutual minds,
Nor even beauty's treacherous self the chain of passion binds;
A power occult—a sympathy as genial or perverse
Still draws the yielding spirit to its blessing or its curse!

In friendship's milder dreams of joy—perchance not all a dream,
Some little ground pale reason gives for liking and esteem.
Some little help the fabric boasts from wisdom's shaping hand,
Some little promise knowledge gives, that 'tis not built on sand.

But love, a stormy vision comes, fierce, sweepingly and blind,
And reason, wisdom, knowledge, all are scatter'd to the wind!
For loving some unloving thing, all earthly things above,
A woman's reason serves alone—"we love because we love."

☞ See Mr. Perham's advertisement, for a rare chance to visit New York, cheap, and spend nearly a week there. Passengers from Portsmouth take the C. & P. Railroad for Concord, so as to start from Concord as early as Thursday morning.—For particulars, see bills.

☞ The Lynn Reporter, in an article on the shoe business says:—

One thing we think is pretty certain.—The approaching winter is to be comparatively a dull one, and it behooves our journemen to economize both their time and money, and lay up what they can against a rainy day. Then if times are dull, and work is slack, they can wait cheerfully till better times come round for they certainly will come bringing an improved, state of things, a better market, a greater demand, and brighter days to all. Industry, frugality, and perseverance will accomplish wonders: and if to these are added a fair degree of patience, they will ultimately secure their reward.

RELIEF AND HEALTH TO YOUR INFANTS

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine,—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its medical effects and medical virtues. We speak, in this matter, "*what we do know*," after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success*, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any other *Foregoing complaints. Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York

Price only 25 cents per bottle.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothign hurtful to the Constitution.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Celebrated Magee Patent

Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;

BOX AND CYLINDER do.

SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—

warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction.

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally.

TIN, SHEET IRON & COPPER WARE, manufactured to order.

☞ Prices as low as at any other establishment in this vicinity, and satisfaction guaranteed in all cases.

FRANK JONES,

61 Market Street, Portsmouth, N. H.

The News.

FROM EUROPE.—By the arrival of the Anglo Saxon we have European advices to Oct. 12. The settlement of the Zurich Conference negotiations is still further postponed. The Great Eastern has made a very successful trial trip from Portland to Holyhead. The Emperor Napoleon has been ill. There is a prospect of splits in the English Cabinet on the Chinese question. The London journals continue their strictures upon Gen. Harney's course at San Juan. Stephenson, the eminent engineer, was in a dying condition when the Anglo Saxon left.

COOK PROBABLY NOT YET TAKEN.—*Carlisle, Oct. 22.*—The man arrested is supposed not to be Cook, but one of the participants in the outbreak. He is taller than the published description of Cook, but is evidently the same man who was seen at Chambersburgh yesterday. He attempted to resist arrest but was overpowered. Three revolvers and two bowie knives were found on his person. He has been committed for further hearing. He has every appearance of a deperate man and refuses to answer any questions.

Carlisle, Pa., Oct. 23.—The man arrested yesterday gives his name as William Harrison, and is still imprisoned. It is supposed he will be brought before the Court on a writ of habeas corpus, tomorrow, for discharge.

☞ At noon, Saturday, a convict in the Maryland Penitentiary refused compliance to the orders of the Deputy Warden, who, whilst enforcing his commands, was seized by the convict and stabbed twice in the neck. Immediately, Gregory Bartlett, another officer, fired two shots at the prisoner, inflicting a wound from which he died almost instantly. It is thought the Deputy Warden will die of his wounds.

A later dispatch says the convict is not dead, as was at first reported, and that the Warden's injuries are not fatal.

THE ELOPEMENT CASE.—The case of Mr. Patton, the well-to-do merchant of Lafayette, Ind., who left a good wife and a happy home, to cast his fortune with an "old flame," has turned up in Mackinaw, where he is working for a living, a day laborer. It will be recollected that he took away with him his little daughter. He has been compelled to give her up, and his former wife has obtained a divorce, wisely determining to leave him alone with his infatuation.

PHILADELPHIA, Oct. 22.—In consequence of the Harper's Ferry affair the State arms, lately furnished to a volunteer company of colored men in this city, have been taken away by the Adjutant General.

PHILADELPHIA, Oct. 24.—Mr. Giddings of Ohio publishes a card, denying that he had been consulted about the Virginia expedition of Brown.

SMALL POX AND DAMAGES.—Mr. Mitchell, the owner of the schooner Caroline, whsch arrived at the harbor of Rockland in December, 1854, with a case of small pox on board, has recently recovered $1500 from that city, under the following circumstances:—The city authorities chose to make a hospital of the said vessel, instead of removing the patient elsewhere.—The man died; and on the same night on "smoking out" the cabin, the vessel was burnt, in consequence of carelessness on the part of the servant whom the city placed in charge of the vessel.—*Portland Adv.*

FALLACIOUS MAXIM.—Some superficial and sententious philosopher utters the following:

"One of the best rules in conversation, is never to say a thing which any of the company can reasonably wish we had rather left unsaid."

Is it not plain that an adherence to this rule would stop all conversation? For observe: if a man says a good thing, envy will cause some one of the company to wish it unsaid; and if he says a foolish thing, he himself will wish he had held his peace.—Consequently, some one will be dissatisfied. Quod erat demonstrandum.—*Courier.*

BORROWERS.—An exchange paper says: "A 'borrower' is an unfinished being. He is incomplete. There is a screw loose in his organization. He is a bad man, that is, an unsafe one. He never comes to anything good, and is always poor. It is an old Scandinavian proverb that when Satan wishes to angle with and finally catch a man, he first sets him a borrowing. The whole tribe of borrowers are utterly mean, and the newspaper borrowers are the meanest of the tribe. In this country newspapers are so cheap that every man can—and every decent man does—buy his own. At any rate no decent person will borrow a newspaper. If he can't get one of his own, he will do without."

Morning Chronicle.

The Portsmouth Chronicle thinks our High School House, which we said was *"gradually ascending,"* must be a dangerous building. When a building ascends, *a la balloon*, he thinks terrestrial beings should descend to terra firma. The man evidently belongs to a low "plane" and does not fully comprehend the principles of that elevated "sphere" in which the people "Down East" are accustomed to move.—*Bath Times.*

Uncle Toby thinks this latter item too good to be lost.

BULBOUS FLOWER ROOTS,

FOR AUTUMN PLANTING.

J. F. SHORES, Jr., No. 1 Congress Block,

Has just received a supply.

These bulbs are in fine order. For flowering in the spring, plant this fall in the open ground—placing them from 3 to 5 inches below the surface, with a good supply of sand around the bulbs.

For winter flowering, put them into pots or boxes with any common garden soil mixed with a little sand; then place them in a dark closet for 4 or 5 weeks, watering but little: after they begin to sprout, place in the sun and freely water and they will bloom in February or March.

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Colds in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

BLOOD FOOD.

Dr. Bronson, having been so far reduced by Consumption, as to be considered beyond all hope of recovery by the most eminent physicians of the country, has discovered a remedy for the above disease, which he calls "BLOOD FOOD," which cures Consumption, Scrofula, Salt Rheum, Erysipelas, Fever Sores, Ulcers in the Ear, Nose and Throat, Mercurial Diseases, Diseases of the Bones, Joints and Skin, Dropsy, Female Weakness, Leucorrhœa, Gravel, Diabetes, Dyspepsia and all diseases of a scrofulous character, which have been cured in twenty years' practice—as a last resort, he offers this preparation to the public. Sold in bottles at $1 each, or six bottles for $5. Pamphlets containing certificates of cures, sent free to all who apply for them. Sold by druggists everywhere.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENCY VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claims of the discoverer, that they are a SUR PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In instances the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to its use of the remedy. * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure*. My *facsimile* signature is upon every bottle.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, Graduate of 1837.

76 STATE, OPPOSITE KILBY ST, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, Interferences and Reissues for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not unsurpassably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on NEVER rejected applications, SIXTEEN APPEALS; EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them, if more for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds fifty per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

We take pleasure in recommending this medicine as a preventive of FEVERS and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, 50 CENTS PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. Its pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first-class House*, and patrons may be assured that nothing will be spared on the part of the proprietor, in point of order and decorum, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and the money remitted.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying that is the great pillar of life, namely the constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 d1y

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

CASS AND DOUGLAS.

In his New Orleans speech in December last, Mr. Douglas said:

In accordance with that (Dred Scott) decision, we hold that slaves are property, and hence are on an equality with all other kinds of property; and the owner of a slave has the same right to move into a Territory and carry his slave property with him, that the owner of any other property has to go there, and carry his property.

In his magazine essay he does indeed say that the Constitution "leaves the people perfectly free" in this matter; but he is careful to add, "subject only to the Constitution"—and when pressed in the Senate and on the stump to state whether, in his judgment, the Constitution, without this absurd limitation, leaves the people of the Territories perfectly free in the matter, he always evaded it by saying that it was a question for the courts. The plain implication is that he believes the Constitution, under the Dred Scott decision, does bind the people of a Territory, so long as they remain in a territorial condition, against slave emancipation.

That we are not mistaken in this, (says the Statesman,) is very manifest from what occurred in the Senate in 1856. Mr. Trumbull on that occasion drove Mr. Douglas into a close corner on this point; and when it was found that he declined, up and down, to assert the right of a Territory to exclude slavery; when he positively refused to place himself square upon the territorial sovereignty platform, Gen. Cass, leaving Mr. Douglas with the subterfuge of a demagogue in his mouth, that it was a question for the courts, came forward with the following bold and manly statement of the absolute necessities of the case. He said:

"I am one of those who believe there is no motive power in slavery which takes it into a Territory." (Mr. Douglas asserts directly the opposite belief.) "The North," Mr. Cass again says, on the same occasion, "the North and the South construe the Constitution differently. The South considers that the Constitution gives them the right of carrying their slaves anywhere in the Territories." (Precisely Mr. Douglas' doctrine.) "If they are right," continues Mr. Cass, "you can give no power to the Territorial Legislature to interfere with them.—The major part of the North believe that the Constitution secures no such right to the South."

Let the postmasters, custom house officers and other retainers of this administration, and the friends of Mr. Douglas in New Hampshire, (says the Statesman,) plant themselves squarely upon this platform, which both the administration and Mr. Douglas are defending with all their might, viz., that slavery is a lawful condition on every foot of the Federal Territories—and see if they don't find Mr. Cass right in declaring that the major part of the North regard the thing as a very great abomination.

CUTTING A DASH.—A traveler, who quartered at a tavern one Sunday, prepared himself to attend church, but not possessing that very important chattel, a watch, and being particularly desirous of cutting a dash, he applied to the landlord for the loan of one. The landlord possessesing a very powerful alarm watch, readily complied with the request, but previously wound up the alarm and set it at the hour which he supposed to be about the middle of the first prayer. The dandy repaired to church; rose with the air of a finished exquisite, at the commencement of the first prayer, and stood playing very gracefully with the borrowed seals, when suddenly he jumped as if he had discovered a den of rattlesnakes: the whizzing of the alarm commenced! The people started, the dandy made a furious grab at the offending watch with both hands outside the pocket, and tried to squeeze it into silence, but in vain; it kept up the *tur-r-r-r*, and it seemed as though it never would stop. The sweat rolled off the poor fellow, he seized his hat, and making for the door, hurried off, with his watch in one hand and his hat in the other, amid the suppressed laughter of the whole congregation.

BULBOUS FLOWER ROOTS,
FOR AUTUMN PLANTING.
J. F. SHORES, JR., NO. 1 CONGRESS BLOCK,
Has just received a supply.
These bulbs are in fine order. For flowering in the spring, plant this fall in the open ground—placing them from 2 to 5 inches below the surface, with a good supply of sand around the bulbs.
